STATE OF NEVADA
ANNUAL FIRE ACTIVITY DATA REPORT

Users of prescribed fire who emit more than 10 tons of PM10 per year are required to complete and submit this form to the Division of Environmental Protection by March 31 for the previous calendar year's (Jan - Dec) activities. This report must address all variances issued whether the burn was conducte or not. If the burns were not conducted list the variance number and identify it as not conducted in the row next to it.

Agency Name:_____ Agency Point of Contact:_____ Phone #: _____

Variance Number [1]	Ignition Start Date	Declared Out Date [2]	# of Acres Blackened [3]	Fuel Type [4]	Fuel Load [5] (tons/acre)	PM10 Emissions [6]	Emission Factor Used	Emission Factor Source

See Reverse Side for Notes.

ANNUAL FIRE ACTIVITY DATA REPORT (Cont'd)

Variance Number [1]	Ignition Start Date	Declared Out Date [2]	# of Acres Blackened [3]	Fuel Type [4]	Fuel Load [5] (tons/acre)	PM10 Emissions [6]	Emission Factor Used	Emission Factor Source

NOTES:

1. This number appears on your one-page variance form.
2. Declared Out is the day that combustion is complete in the project area.
3. Report acres burned, not total acres in the project area.
4. Identify the vegetation type which comprises the majority of the fuel consumed.
5. Estimate as accurately as possible with the methods available to you.
6. Total tons of PM10 emissions for all of the acreage blackened.
