Re: Jungo Landfill completion of Technical Review and intent to announce Public Comment

Dear Ms. Merrill:

The Nevada Division of Environmental Protection (NDEP) has completed the Technical Review of the application to construct and operate a Class I Landfill (Facility) in Humboldt County in accordance with NAC 444.641(3). The NDEP has also received concurrence from the Nevada Department of Wildlife (NDOW) which documents that all of their concerns related to the facility have been addressed (letter from Recology to NDOW dated 6/27/2011). Accordingly, the NDEP has prepared a Draft Permit, Fact Sheet and Public Notice in accordance with NAC 444.641(3).

The NDEP intends to announce a public comment period of 45 days in accordance with NAC 444.6415(3) and conduct a Public Hearing in Winnemucca during the Public Comment period in accordance with NAC 444.6415(2)(a). The NDEP has incorporated three (3) items in the Compliance Schedule section of the Permit.

In summary they are;

1. Recology shall provide written documentation that it has a valid and effective Conditional Use Permit to operate a long-term solid waste disposal site. Recology shall not initiate any construction at the Jungo Class 1 Landfill site until such documentation has been provided to and accepted by the Nevada Division of Environmental Protection (NDEP).
2. Recology shall provide an Integrated Site-wide Contingency Plan (ISCP) [180 days prior to disposal operations].
3. Recology shall provide 2 reports on the performance of the landfill to the NDEP for approval affirming the design is effective in protection of the groundwater.

At this time the NDEP expects to go to Public Comment within 10 Days. If you have any questions regarding the above, please do not hesitate to contact me at 775-687-9477 or [jtaylor@ndep.nv.gov](mailto:jtaylor@ndep.nv.gov).

Sincerely,

Jon Taylor PE CEM
