

**NDEP/BSDW
PLAN TO PERMIT A PRIVATELY OWNED PUBLIC WATER SYSTEM**

Application fee of \$500.00 _____
Date Paid _____

NAME OF PROPOSED WATER SYSTEM:

\NUMBER OF SERVICE CONNECTIONS:

COUNTY WHICH SYSTEM IS PROPOSED TO OPERATE IN:

DESCRIPTION OF SERVICE AREA (Attach map):

OWNERS OF SYSTEM:

IF A CORPORATION, LIST OFFICERS:	ADDRESS:	PHONE NUMBER:
1.		
2.		
3.		
4.		

CONFERENCE REGARDING APPLICATION: We request a conference with the involved agencies prior to application. YES _____ NO _____

WATER SYSTEM OPERATOR (if more than 100 persons):

PRIVATE OPERATOR (less than 100 persons):

CLASSIFICATION AND CERTIFICATE GRADE OF OPERATOR:

OPERATOR QUALIFICATION, EXPERIENCE AND TECHNICAL BACKGROUND:

LIST INDUSTRY ORGANIZATIONS WHICH OWNER OR OPERATOR ARE MEMBERS OF:

MANAGEMENT BOARD

Describe how operating board or individual managing the system will operate and manage the water system:

FINANCIAL PLAN

The twelve month budget for operation fixed cost and operating expenses, including estimated taxes, quality monitoring, emergency reserve, state operation fees and cost of loaned money. Source of financial resources for cost of operation based on budget of projected cost to support yearly operations:

1. Service connection, base rate and flowage rate proposed cost per service.
 - a. Will base rate be charged to all available connections?
 - b. Will there be a hook-up fee? If so, what will be the basis of the fee?
2. Any capital improvements proposed within two years of beginning operation of this system.

LOCAL COVERING BODY

Local government letter of intent to assume operational responsibility for service when water system service of private operator defaults on conditions of permit.

AVAILABILITY OF ANY EXISTING WATER UTILITY

State availability of private or public entity availability of water to be serviced by this water system.

WATER SYSTEM PLAN OF OPERATION

A detailed written report on plan to address the following:

1. Plan of operation, maintenance and management of the water system.
2. Cross-connection/back-flow.
3. Monitoring sources, services and test of same.
4. Water quality testing program.
5. Provide vulnerability survey evaluating sources of possible pollution to water sources.
6. A plan of action for natural disaster or manmade hazards that may affect the water system and a course of action to protect the public using the water.
7. Water conservation plan for all connections to system.

STATE WATER RIGHT

Provide information of water rights from sources to point of use, addressed by permit numbers and status.

DISPOSITION OF SYSTEM

State how the water system would be dissolved if local governing bodies required all users to connect to available water systems. The statement shall address the value of a system and water user cost or refunds.
