

Public Waste Storage Bin Facility Notification Form

Nevada Division of Environmental Protection
Solid Waste Branch

Registration of PWSBF's with the Nevada Division of Environmental Protection (NDEP) is required within 30 days after establishing the facility.

Please complete the information in this Notification Form and submit it to the Nevada Division of Environmental Protection, Bureau of Waste Management, Solid Waste Branch (BWM/SW) within 30 days after establishing the facility. (NAC 444.66647 Public Waste Storage Bin Facility). The following minimum standards apply:

The facility must:

- Be accessible from an all-weather road.
- Be constructed in a manner that allows the public to deposit waste materials conveniently and safely. It should not be necessary to lift waste above waist height, throw waste materials or lean over excessively to deposit them in the container.
- Be equipped with a fence designed to prevent excessive windblown litter. The site must be inspected at least weekly for the collection of all litter.
- Be serviced as often as necessary to ensure that there is adequate storage capacity at all times.
- Be equipped with sign(s) that indicate 1) owner & operator information, 2) hours of operation, 3) materials accepted or excluded, and 4) fees charged (if any). (NAC 444.690)
- Storage of solid waste outside of the storage bins is prohibited unless approved by the solid waste management authority (NDEP).

1) FACILITY NAME: _____

2) LOCATION of Facility: _____
(UTM Coordinates, street address and description of location "next to ___")

3) OWNER of Facility: _____ Phone No.: _____

Contact Person: _____

4) WASTE COLLECTION SERVICE: _____ Phone No. _____

Contact Person: _____

Waste hauled for disposal to: _____ Haul Distance: _____

5) TOTAL CAPACITY of Facility in CUBIC YARDS: _____ (maximum = 160)

6) POPULATION and GEOGRAPHICAL AREA of community serviced by the Facility: _____

7)

# of BINS	Type of bin	Capacity (cubic yards)	Type of Waste	Collection Frequency

--	--	--	--	--

8) Additional Comments: _____

9) Name of individual who completed this Registration Form:

Print name: _____

Signature: _____ Date submitted: _____

Selected sections of the Nevada Administrative Code as amended & effective October 18, 2002

NAC 444.607 "Public waste storage bin facility" means a facility that provides one or more portable waste containers which are used for the collection of solid waste for transport to a solid waste disposal site. The term does not include residential or commercial waste containers that are located on or near a site of waste generation.

NAC 444.66647

1. The owner of a public waste storage bin facility shall notify the solid waste management authority in writing not more than 30 days after establishing the facility. The notification must include, without limitation:
 - (a) The location of the facility;
 - (b) The owner of the facility;
 - (c) The name and phone number of the authorized agent of the owner;
 - (d) The capacity of the facility in cubic yards;
 - (e) The types of solid waste the facility receives; and
 - (f) The population and area to be served by the facility.
2. Waste storage bins may have a combined capacity of not more than 160 cubic yards and must be constructed of durable, watertight materials with a lid or screen on top that prevents the loss of materials during transport. Storage of solid waste outside of the waste storage bins is prohibited unless approved by the solid waste management authority.
3. Except as otherwise provided in this subsection, if garbage and similar putrescible waste is stored in combination with nonputrescible waste, the wastes must not be stored at the facility for more than 1 week. The solid waste management authority may approve the storage of such waste for more than 1 week before collection in a remote community if the municipality in whose jurisdiction the storage occurs demonstrates that an alternative minimum collection frequency will not result in increased litter or odors, the harboring of vectors, the storage of excess waste outside of containers, or any other health hazard, public nuisance or impairment to the environment. The solid waste management authority may revoke its approval of an alternative minimum collection frequency.
4. The owner of a public waste storage bin facility shall:
 - (a) Provide access to the facility by an all-weather road;
 - (b) Construct the facility in a manner that allows the public to deposit waste materials conveniently and safely in the public waste storage bin;
 - (c) Service the facility as often as is necessary to ensure that there is adequate storage capacity at all times;
 - (d) Provide for the inspection of the site at least weekly and collect all scattered papers and other lightweight debris;
 - (e) Use fences and other appurtenances to prevent the scattering of papers and other lightweight debris; and
 - (f) Comply with the requirements regarding signs set forth in NAC 444.690.
5. At final closure, the owner or operator shall remove any remaining wastes to a proper facility and shall remove all waste storage bins.

NAC 444.690 Signs. Signs must be posted that clearly indicate:

1. The owner and operator of the site.
2. The hours of operation.
3. Materials accepted or excluded.
4. Fees charged.

Please return this Registration Form to:

Nevada Division of Environmental Protection
 Bureau of Waste Management / Solid Waste Branch
 901 S. Stewart Street, Suite 4001
 Carson City, NV 89701-5249
