Re: Waste Type Modification Revisions to January 1994 Application to Permit

Dear Mr. Taylor:

The City of Mesquite is requesting a modification to the current solid waste permit and make the following revisions to section 2.5 Waste Types referenced in the original application Dated January 1994 that was submitted to NDEP:

1. To include medical waste that was originally approved for, in the Solid Waste Permit SW 1109401 issued in July 22, 1994. (Please see attached)
2. To include Dried sewage sludge/filter cake, Modification #1 - Permit SW1109401 approved August 18, 1997. (Please see attached)
3. To remove waste tires from the waste stream, as the City of Mesquite approved Resolution #681 on August 24, 2010 establishing regulations for waste tire recycling and associated fees. (Please see attached resolution)
4. To include Dried sludge from back wash water on arsenic removing facilities operated by the Virgin Valley Water District. (Attached TCLP Laboratory Report issued April 29, 2011 for backwash water sludge)

If you any other questions or concerns, or require additional information, please do not hesitate to call (702) 346-5237.

Bill Tanner
Public Works Director
