

# Expired Medicines In The Cabinet?

Don't rush to flush. Prevent abuse,  
poisoning and pollution!

The Clark County Water Reclamation District, in conjunction with the Las Vegas Metropolitan Police Department, presents the "Medicine Disposal Program."

This program provides an opportunity for residents to safely and anonymously dispose of any unused, expired prescriptions or over-the-counter medications.

Drop-off boxes are located inside Las Vegas Metropolitan Police Department substations, providing a secure method for disposal.

When prescription or over-the-counter drugs are flushed down the sink or toilet, their chemical components may be added to the water supply. The presence of these substances in the environment is emerging as an important national and international issue. Although the concentration levels of these products in the environment is very low, research and monitoring are continuing worldwide.

For more information about the medicine disposal program and instructions regarding the proper disposal of prescription and over-the-counter medications, visit our website [www.paininthedrain.com](http://www.paininthedrain.com).

“Putting medications down the drain is not just a local concern. Increasingly, prescription and non-prescription medications are finding their way into streams and drinking water supplies.”

Medicine Disposal boxes are located inside Las Vegas Metropolitan Police Department substations.
