RE: ADDENDUM #7 TO THE COMSTOCK MINING INC., CARSON RIVER MERCURY SUPERFUND SITE SAMPLING AND ANALYSIS PLAN

Dear Mr. Yates:

On behalf of Comstock Mining Inc. (Comstock), McGinley and Associates (MGA) are providing this revised Addendum #7 for the White House area. The White House Area is shown on the attached Figure 1 and is a new area to be sampled. Over 120 sample locations are proposed, and 5-point composite samples will be collected from 0-2' below ground surface (bgs) (0-6", 6-12", 12-18" and 18-24" samples) consistent with the NDEP-approved SAP Section 4. This accounts for over 480 proposed samples to be collected.

Action Items

1. White House Area, MGA requests authorization to collect samples in this area to characterize the unknown environmental conditions as described above.
2. Sampling Notification, MGA requests that NDEP consider this document as the sampling notice for these areas. Pending NDEP approval MGA will conduct utility clearances and initiate sampling in this area within one week of NDEP-approval. Due to the large number of samples it is expected that this sampling may continue for at least six weeks. Sampling activities may be delayed due to additional priority items that need to be addressed in parallel.

McGinley and Associates, Inc. appreciates the opportunity to submit this addendum and we look forward to working with you on this project. Should you have any questions regarding this addendum, please contact us at (702) 260-4961 or at brakvica@mcgin.com. If this addendum is acceptable to you, please advise us at brakvica@mcgin.com.

Respectfully submitted,
McGinley and Associates, Inc.

Brian A. Rakvica, P.E., C.E.M. #2260, Exp. Date 09/21/12
Senior Project Manager
