	<b>November 14, 2007</b>	<b>Room 108</b>

**Time:** 10:00 a.m. – 11:00 a.m.

**Place:** **The Regional Transportation Commission Building**  
**600 S. Grand Central Parkway**  
**Las Vegas, Nevada 89106**

Emissions from diesel-powered vehicles contribute to smog in urban areas and can cause a variety of adverse health effects. Unnecessary idling also costs money in wasted fuel and engine wear.

These lectures will outline the cost and environmental benefits of reducing the idling time of diesel-powered motor vehicles and equipment.

Lectures can also be given to individual public and private fleet operators.
