

Join us for a Project WET Curriculum and Water Festival Workshop!

This action-packed, hands-on workshop is for anyone interested in natural resources and environmental education, and is especially useful for educators interested in offering water festival activities to their students.

Tuesday, August 14, 2007 / 9:00am – 4:30pm
and
Saturday, August 25, 2007 / 9:00 – 4:30pm
Churchill County Jr. High School
650 South Maine, Room 224
Fallon NV 89406

What is Project WET?

Project WET activities engage students with hands-on, interdisciplinary lessons that teach important concepts about water. Project WET activities are designed to satisfy the goals of educational programs by complementing existing curricula rather than displacing or adding more concepts. Project WET activities provide many opportunities to address curricular objectives and educational standards. These interdisciplinary activities are designed for students in grades K-12 and are perfect for use in formal and non-formal education settings. This workshop will focus on activities relevant to middle school grades. All activities are correlated to the State Standards for Science, History/Social Studies and English/Language Arts.

The goal of Project WET (Water Education for Teachers) is to promote awareness, appreciation, and knowledge of our water resources. Participants will receive a copy of the Project WET Curriculum and Activity Guide and other resource materials.

To register contact:

Mary Kay Riedl
Nevada Division of
Environmental Protection
(775) 687-9454
mriedl@ndep.nv.us

**Register early & receive
a Project WET t-shirt**

NV Department of Education In-service Credit Offered
0.5 credit for one day 1.0 credit for both days

The mission of Project WET is to reach children, parents, educators, and communities of the world with water education. We invite you to join us in educating children about the most precious resource on the planet – water.
