Web Posting Date: 11/19/08

The Administrator, Division of Environmental Protection, Carson City, Nevada is issuing the following notice of proposed action under the Nevada Revised Statutes. The Administrator has received an application for renewal of groundwater discharge permit **NEV20018** from the following applicant:

Carver's Smoky Valley RV & Mobile Home Park
HC 60 Box 53708
Round Mountain, NV 89045

The applicant operates a 120-space RV and mobile home park (formerly C&H Mobile Home Park) on State Route 376, approximately eight miles northwest of Round Mountain in Nye County. The wastewater treatment facility consists of a multi-chamber aerated septic tank, which provides primary settling, aeration, and secondary clarification of the wastewater. After disinfection with chlorine, the treated effluent is discharged one of two disposal ponds for evaporation and percolation to the groundwater. The permitted design treatment capacity of this facility is 34,500 gallons per day. Monitoring and reporting of the treatment plant performance parameters are required to ensure that the effluent meets secondary treatment standards and that groundwater quality is not impacted as a result of effluent percolation. The Division has made the tentative determination to renew the discharge permit for a period of five (5) years.
