The Administrator, Division of Environmental Protection, Carson City, Nevada is issuing the following notice of proposed action under the Nevada Revised Statutes. The Administrator has received an application for renewal of groundwater discharge permit # NEV70021 from the following applicant:

**Nye County
250 N Highway 160, Suite 2
Pahrump, NV 89060**

The Permittee operates the Gabbs Wastewater Treatment Facility, which is located one mile west of North Gabbs in Nye County, Nevada. This treatment facility services residential and commercial/institutional connections in both North and South Gabbs, which comprise a community of approximately 318 residents. The treatment facility was constructed in 1978, and consists of two parallel trains composed of a primary facultative treatment pond and a evaporation/percolation pond. Treated effluent is disposed by evaporation to the atmosphere and percolation to State groundwater resources in the evaporation/percolation ponds. The permitted design treatment capacity of this facility is 0.095 million gallons per day (MGD). Proposed upgrades to the facility include re-contouring and synthetic lining of two treatment ponds, which will have a design treatment capacity of 0.040 MGD. The Division has made the tentative determination to issue (renew) the proposed discharge permit for a period of five (5) years.

Persons wishing to comment upon or object to the proposed determinations by the Administrator regarding permit issuance, or request a hearing pursuant to the Nevada Administrative Code, Water Pollution Control, should submit their comments or request, in writing, within thirty (30) days of the date of newspaper publication, hand-delivered or postmarked no later than 5:00 P.M. on **December 29, 2008**, either in person or by mail to:
