Clean Water State Revolving Loan Fund

Amount of grant award: \$19,239,100

Date of award: 4/23/2009

CFDA No. 66.458

Point of Contact: David Emme

telephone: 687-9307

email: demme@ndep.nv.gov

Summary:

The Clean Water State Revolving Loan Fund (CWSRF) program began in 1989 and is administered by the Division of Environmental Protection. Using capitalization grants from USEPA, State match funds and loan repayments, the program provides low cost financing of municipal wastewater treatment infrastructure projects that are necessary to protect public health. Existing State and Federal statutes and regulations govern the program. Proposed projects are solicited annually. Eligible projects are then ranked in terms of their importance to public health and placed in a State Priority List.

ARRA funds have provided supplemental program funding, though there are unique provisions related to ARRA funded projects. At least 50% of the ARRA grant must be awarded as loan subsidies, in the form of grants, principal forgiveness or negative interest loans. The Division chose to implement this provision by providing loans with principal forgiveness (essentially grants) to projects serving disadvantaged communities, defined as those with a median household income of 80% or less than the Statewide median household income. All other ARRA loans will be provided at a 0% interest rate. ARRA also requires that 20% of grant funds be used to support "green" infrastructure projects. The Division has established a Priority List for ARRA projects and is awarding loan contracts based on a project's priority and readiness to proceed.

CWSRF Subrecipients:

Name of Loan recipient	County	Project Description	Date of Loan Execution	Total Loan Amount	Cumulative Funds disbursed	Cumulative Jobs (FTE's) Created	Status
Mineral County	Mineral	Design, construction & rehabilitation of wastewater treatment ponds in Hawthorne	5/22/2009	\$ 1,531,500	\$ 1,531,500	6.57	Completed
Alamo Sewer & Water GID	Lincoln	Rehabilitation of and improvements to the wastewater treatment ponds and effluent reuse	5/26/2009	\$ 914,600	\$ 871,221	3.50	Completed
Churchill County	Churchill	Sewer extension to Oasis Mobile Home park	6/18/2009	\$ 2,310,920	\$ 2,191,384	3.84	Completed
Canyon GID	Storey	Installation of reuse water pipeline, pumps, control system and sludge dewatering equip.	6/19/2009	\$ 1,103,323	\$ 1,103,323	3.43	Completed
West Wendover	Elko	Replacement of existing headworks, screening and washing equipment and upgrade of plant's utility system	6/25/2009	\$ 624,593	\$ 554,892	0.91	Under construction
McDermitt Sewer District	Humboldt	Design and relining of sewer ponds.	7/9/2009	\$ 239,152	\$ 239,152	0.48	Completed
Esmeralda County	Esmeralda	Relining of treatment ponds in the town of Goldfield	7/13/2009	\$ 910,866	\$ 910,866	2.68	Completed
Nye County	Nye	Sewer rehabilitation and replacements in South Gabbs.	7/16/2009	\$ 710,000	\$ 709,969	1.92	Completed
Jackpot	Elko	Sludge removal and deepening of primary lagoons	8/18/2009	\$ 1,100,000	\$ 1,100,000	6.61	Completed
Clark Co Water Reclamation District	Clark	Indian Springs wastewater treatment plant upgrades	10/16/2009	\$ 5,744,780	\$ 5,744,780	27.80	Completed
Minden-Gardnerville SD	Douglas	Construction of additional WWTR facilities	10/27/2009	\$ 1,427,583	\$ 1,427,583	2.09	Completed
City of Henderson	Clark	Pittman wash sewer relocation	1/8/2010	\$ 1,815,447	\$ 1,659,396	12.93	Completed
City of Ely	White Pine	Wastewater treatment works	1/27/2010	\$ 789,790	\$ 789,790	1.91	Completed
Subtotals				\$ 19,222,554	\$ 18,833,856	74.66
