

Explore Your Watershed

Western Nevada watershed, geology, history and fun!

Join us for an empowering teacher workshop where families can learn together!

Join us on your own or bring your family for a day of kayaking on beautiful Lake Tahoe. We'll stop at several different beaches to participate in active, hands-on professional development activities designed for teachers interested in learning natural resource and environmental education

lessons that align with Nevada content standards and that can be used in interdisciplinary lessons and units. Presentations and activities will include Tahoe Basin geology, history, watershed issues, and water quality.

A full day of environmental education

Thursday, August 13, 2009 / 9:00am – 4:30pm

Sand Harbor, Lake Tahoe NV

Explore Your Watershed is intended to empower you as an educator to instruct and inspire students to conserve their watersheds, to help assure long-term viability of water resources in western Nevada, and to improve classroom achievement.

Cost

Teacher	\$40.00
Family member	\$25.00
15 yrs old and under	\$10.00 (must be able to paddle a kayak alone or with help)

Registration. To register, contact Laurie at 355-1688. Register by 7/27/09. Hurry – seats are limited! (Preference given to Formal educators teaching in Washoe County School District.)
