by the
State of Nevada
Division of Environmental Protection
Bureau of Air Pollution Control

PUBLIC NOTICE

Pursuant to Nevada Revised Statutes (NRS) Chapter 445B, the Nevada Administrative Code (NAC) Chapter 445B, and the Clean Air Act, the Division of Environmental Protection is issuing the following notice.

The Administrator received a Permit Renewal application to issue an operating permit for a Class I facility from the following applicant:

Graymont Western US Inc.
Pilot Peak Plant
3950 South 700 East, Suite 301
Salt Lake City, Utah 84107

The project is located 12.5 miles northwest of West Wendover, Nevada in Elko County. The Administrator has prepared tentative determinations regarding the operating permit that, in brief, are the following:

- X Class I (Title V) Air Quality Operating Permit Renewal for operating of a lime manufacturing facility, which includes a raw limestone quarry operation. Issuance of a renewal Class I permit (No. **AP3274-1329.01**) will replace Graymont Western US Inc.'s existing permit no. AP3274-1329 and allow Graymont Western US Inc. to continue operation of their existing processes.
- X Adverse ambient air quality impacts are not expected.

On the basis of the preliminary review and the requirements of the NRS, the NAC and the Clean Air Act, the Administrator is hereby announcing his intent to issue a Class I air quality operating permit based on a review of the information, as proposed. A copy of the draft operating permit is available for public inspection at:

Elko County Library
720 Court Street
Elko, Nevada 89801-3397
