## NOTICE OF PROPOSED ACTION

Web posting 8/25/10

The Administrator, Division of Environmental Protection, Carson City, Nevada is issuing the following notice of proposed action under the Nevada Revised Statutes and the Federal Clean Water Act. The Administrator has received an application of National Pollutant Discharge Elimination System (NPDES) Permit #NV0023884 from the following applicant:

**Clark County Water Reclamation District  
5857 E. Flamingo Road  
Las Vegas, Nevada 89122**

Clark County Water Reclamation District (CCWRD) is proposing to increase system capacity and rehabilitate the existing sewer collection system along Eastern Avenue at Tropicana Avenue. The project extends approximately 350 linear feet along Eastern Ave., north to the intersection with Tropicana Ave., in Las Vegas, Clark County. This project will increase system capacity by adding additional pipeline and two manholes. The permit is for dewatering of the excavation trench that will be needed while working on the system. Dewatering is expected to be needed for only six weeks, beginning February 1, 2011. Shallow groundwater will be pumped from approximately 8 well points to sediment settling tanks prior to discharge to the Clark County stormdrain system. The storm drain drop inlet is located near the intersection of Tropicana and Eastern. Two tetrachloroethylene (PCE) plumes within the project area are currently being remediated. The project is not expected to impact those plumes or remediation work. The maximum flow permitted will be 500 gallons per minute, but discharge rates are anticipated to be much lower. The proposed NPDES permit is for a period of five years although the construction and discharge activities are expected to be completed in a much shorter time period.

Based on a review of the NPDES permit application, the Division has made the tentative determination to issue the NPDES permit for a period of five (5) years.

Persons wishing to comment upon or object to the proposed determinations by the Administrator regarding permit issuance or request a hearing pursuant to the Nevada Administrative Code, Water Pollution Control should submit their comments or request, in writing or by Fax, within thirty (30) days of the date of newspaper publication, by **5:00 P.M. on September 27, 2010**, either in person or by mail to:

**Nevada Division of Environmental Protection  
Bureau of Water Pollution Control  
901 S. Stewart St., Ste. 4001  
Carson City, NV 89701**

Comments and/or hearing requests received via facsimile or e-mail before **5:00 P.M. September 27, 2010** will also be accepted. All requests for hearings must indicate the interest of the person filing the request and the reason(s) why a hearing is warranted. All comments or objections received within the thirty (30) day comment

period will be considered in the formulation of final determinations regarding the application. If written comments indicate a significant degree of public interest in the proposed permit, the Administrator shall hold a public hearing. The public notice of such hearings will be issued not less than thirty (30) days prior to the public hearing date.
