**Quarry 187, LLC

The applicant has applied to renew its permit to reuse treated wastewater effluent from the Boulder City Wastewater Treatment Plant for gravel washing and dust control at its sand and gravel facility near Boulder City, Nevada. This is a closed system. Wastewater that does not evaporate is returned to a lined holding pond following the washing operation. The discharge limit is 800,000 gallons per day.

NDEP proposes to re-issue the permit for a period of five (5) years.

Persons wishing to comment upon or object to the proposed determinations by the Administrator regarding permit issuance, or request a hearing pursuant to the Nevada Administrative Code, Water Pollution Control, should submit their comments or request, in writing, within thirty (30) days of the date of newspaper publication, hand-delivered or postmarked no later than 5:00 P.M. on **May 17, 2010**, either in person or by mail to:
