Permit NS2003507, SPRINGS PRESERVE WASTEWATER TREATMENT SYSTEM:

The Las Vegas Springs Preserve Desert Living Center's wastewater treatment facility, located at 333 S. Valley View Blvd., Las Vegas, Clark County, Nevada, has applied for a renewal of its discharge permit. The Desert Living Center is designed to educate the public in water conservation practices, which include an on-site demonstration of a domestic wastewater treatment facility. Domestic wastewater is generated in the center's restrooms. The wastewater is treated in an 8,500 gallon per day treatment plant consisting of primary settling tanks, constructed wetland cells, a recirculating sand biofilter, and a calcium hypochlorite disinfection process. The treated effluent is used to flush the plumbing fixtures in the restrooms from where it originated.

On the basis of preliminary review of the requirements of the Nevada Revised Statutes, as amended, and implementing regulations, the Administrator proposes to issue Permit NS2003507 to discharge for a five (5) year period, subject to certain effluent limitations.

Persons wishing to comment upon or object to the proposed determinations by the Administrator regarding permit issuance, or request a hearing pursuant to the Nevada Administrative Code, Water Pollution Control, should submit their comments or request, in writing, within thirty (30) days of the date of newspaper publication, hand delivered or postmarked no later than 5:00 P.M. on 05/04/2015 , either in person or by mail to:

Department of Conservation and Natural Resources
Division of Environmental Protection
Bureau of Water Pollution Control
901 South Stewart Street, Suite 4001
Carson City, NV 89701

The request must be filed within the comment period and must indicate the interest of the person filing the request and the reasons why a hearing is warranted. All comments or objections received within the thirty (30) day period will be considered in the formulation of final determination(s) regarding the application. If written comments indicate a significant degree of public interest in the proposed permit, the Administrator shall hold a public hearing. A public notice of such hearing will be issued not less than thirty (30) days prior to the hearing date.

If no hearing is held and the determinations of the Administrator are substantially changed from the tentative determinations, the Administrator will give public notice of the revised determinations. Additional comments and objections will be considered at that time.
