

## NOTICE OF PROPOSED ACTION

The Administrator, Division of Environmental Protection, Carson City, Nevada is issuing the following notice of proposed action under the Nevada Revised Statutes and/or the Clean Water Act, where applicable. The Administrator has received an application for a Manufacturing, Commercial, Mining and Silvicultural facility that discharges NON-PROCESS Wastewater, permit number NV0023663 from the following applicant:

PHILLIPS 66 COMPANY  
3900 KILROY AIRPORT WAY, STE 210  
LONG BEACH, CA - 90806

### **Permit NV0023663, FORMER CONOCO STATION NO. 28003:**

The Permittee has applied for renewal of National Pollutant Discharge Elimination System (NPDES) permit NV0023663, to continue to discharge treated groundwater from the former Conoco Service Station (Station) #28003 to the Las Vegas Wash via the Clark County storm drain system. The Station is located at 1420 W. Bonanza Road, on the northeast corner of the intersection of Martin Luther King Boulevard and Bonanza Road. The NPDES permit for this discharge was first issued in 2009. Shallow groundwater at the site is contaminated with petroleum hydrocarbons due to a fuel leakage from underground storage tanks. Current permitted effluent flow for the site is 0.0072 MGD, or 5 gallons per minute (gpm).

The Permittee has requested an increased flow rate to 0.0432 MGD, which equates to 30 gpm. The Permittee indicates that the Dual-Phase Extraction (DPE) system will be reconfigured by installing dedicated pneumatic submersible pumps in each of the DPE wells. Increased groundwater extraction and the vapor-phase mass recovery rates are expected to ultimately accelerate the rate of remediation and shorten the timeframe until the site conditions warrant case closure.

On the basis of preliminary review of the requirements of the Nevada Revised Statutes, as amended, and implementing regulations, the Administrator proposes to issue Permit NV0023663 to discharge for a five (5) year period, subject to certain effluent limitations.

Persons wishing to comment upon or object to the proposed determinations by the Administrator regarding permit issuance, or request a hearing pursuant to the Nevada Administrative Code, Water Pollution Control, should submit their comments or request, in writing, within thirty (30) days of the date of newspaper publication, hand delivered or postmarked no later than 5:00 P.M. on 08/18/2015, either in person or by mail to:

Department of Conservation and Natural Resources  
Division of Environmental Protection  
Bureau of Water Pollution Control  
901 South Stewart Street, Suite 4001  
Carson City, NV 89701

The request must be filed within the comment period and must indicate the interest of the person filing the request and the reasons why a hearing is warranted. All comments or objections received within the thirty (30) day period will be considered in the formulation of final determination(s) regarding the application. If written comments indicate a significant degree of public interest in the proposed permit, the Administrator shall hold a public hearing. A public notice of such hearing will be issued not less than thirty (30) days prior to the hearing date.

If no hearing is held and the determinations of the Administrator are substantially changed from the tentative determinations, the Administrator will give public notice of the revised determinations. Additional comments and objections will be considered at that time.

The applications, proposed permits, comments received, and other information are on file and may be copied or copies may be obtained by writing to the above address or by contacting Michele Reid, Bureau of Water Pollution Control, at (775) 687-9434 or at [mreid@ndep.nv.gov](mailto:mreid@ndep.nv.gov). The office facsimile number is (775) 687-4684. For further information, the fact sheet for this project can be viewed at the following website: <http://ndep.nv.gov/admin/public.htm>.

Please bring the forgoing notice to the attention of all persons whom you know would be interested in this matter.
