

Exploring Your Watershed: Where Does That Water Go?

A dynamic new workshop for school and community educators coming your way!

Tour our local water facilities!

Ever wondered just where our community water comes from, is treated, and then distributed? Join us for an opportunity to tour the Truckee Meadows Water Reclamation Facility and Chalk Bluff Water Treatment Facility to learn more about our water in the Truckee River Watershed.

Also introducing the new Project WET Curriculum and Activity Guide

Generation 2.0 is not just a new book but a new Project WET experience, offering diverse ways to access materials and expand your toolbox with regard to water education and our environment. Complemented by multidisciplinary lessons from Project Learning Tree, this workshop will provide educators new lessons to help students explore water use, non-point source pollution prevention, and waste water management.

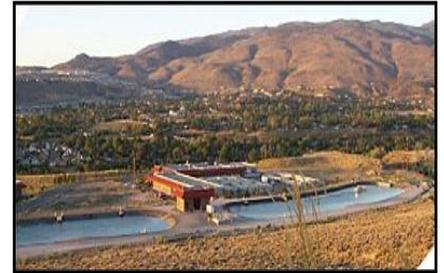

Dates: **Thursday, April 26th, 4-8:00 pm**

**A light dinner will be provided.*

Friday, April 27th, 4-8:00 pm

**Dinner on own.*

Saturday, April 28th, 8:00 am-5:00 pm
