**RE: The Nevada State Implementation Plan for the 2010 Nitrogen Dioxide Primary NAAQS: Demonstration of Adequacy**

Dear Mr. ~~Blumenfeld~~ <sup>Jared</sup>:

On behalf of Governor Sandoval, as his appointed designee, the Nevada Division of Environmental Protection (NDEP) certifies that the existing Nevada applicable state implementation plan (SIP) contains provisions addressing all the "infrastructure" requirements of Clean Air Act (CAA) section 110(a)(2) for the 2010 nitrogen dioxide (NO<sub>2</sub>) primary national ambient air quality standard (NAAQS). The NDEP is submitting one hard copy and one exact duplicate of the hard copy in electronic form of this certification letter and the following documents as demonstration of the adequacy of Nevada's existing SIP provisions:

- *The Nevada Division of Environmental Protection Portion of the Nevada State Implementation Plan for the 2010 Nitrogen Dioxide Primary NAAQS: Demonstration of Adequacy* (Demonstration of Adequacy) and appendices.
- December 11, 2012 letter from the Clark County Department of Air Quality Management (CCDAQ) transmitting their 2010 NO<sub>2</sub> primary NAAQS infrastructure SIP to the NDEP.
- *State Implementation Plan Revision to Meet the Nitrogen Dioxide Infrastructure SIP Requirements of Clean Air Act Section 110(a)(2)* and attachments. Clark County, Nevada.
- December 18, 2012 letter from the Washoe County Health District-Air Quality Management Division (WCHD-AQMD) transmitting their 2010 NO<sub>2</sub> primary NAAQS infrastructure SIP to the NDEP with a parallel processing request.
- *The Washoe County Portion of the Nevada State Implementation Plan to Meet the Nitrogen Dioxide Infrastructure SIP Requirements of Clean Air Act Section 110(a)(2)* (draft document) and attachments.

The enclosed demonstrations from each of the three Nevada air agencies are organized in table format and list each CAA section 110(a)(2) element and the existing Nevada SIP provisions that satisfy the requirement in each element. In the absence of US EPA guidance for the 2010 NO<sub>2</sub> infrastructure SIPs, Nevada followed US EPA's October 14, 2011 guidance for lead infrastructure SIPs (US EPA, Memorandum to Regional Air Division Directors, *Guidance on*

*Infrastructure State Implementation Plan Elements Required Under Sections 110(a)(1) and (2) for the 2008 Lead (Pb) National Ambient Air Quality Standards (NAAQS).* S. Page, OAQPS). Nevada's NO<sub>2</sub> infrastructure SIP selects those regulatory and statutory provisions from the Nevada applicable SIP that address NO<sub>2</sub> specifically. This should not be interpreted as an intent to exclude other more general provisions from the applicable SIP from applying to NO<sub>2</sub> sources in Nevada. Further, although some of the SIP provisions cited in the NDEP table may not be in state regulation, nonetheless those provisions support the NDEP's authority to implement, maintain and enforce the 2010 NO<sub>2</sub> primary NAAQS because they are incorporated into the NDEP's title V operating permits and are federally enforceable.

We certify that the NDEP and Clark County portions of the infrastructure SIP were properly noticed; evidence of public participation is included with the respective submittals. For the NDEP portion of the SIP, the Administrator of the NDEP has the authority to adopt and submit state implementation plans to US EPA (see Appendix D). For the Washoe County portion of this submittal, the NDEP requests parallel processing in accordance with 40 CFR 51, Appendix V.2.3. The final, public noticed copy of Washoe County's portion of Nevada's 2010 NO<sub>2</sub> infrastructure SIP will be submitted to US EPA by March 15, 2013.

The NDEP requests that the US EPA propose approval of this certification of the adequacy of the existing Nevada applicable SIP to implement, maintain and enforce the 2010 NO<sub>2</sub> primary NAAQS. The NDEP further requests that generally as provisions in Nevada's applicable SIP are replaced or removed through subsequent approvals by US EPA of SIP revisions submitted by the NDEP, US EPA also replace or remove those provisions in this submittal and all of Nevada's CAA 110(a)(2) SIPs.

If you should have any questions about this submittal or require additional clarification, you may contact Rob Bamford, Chief, Bureau of Air Quality Planning at (775) 687-9330.

Sincerely,

Colleen Cripps, Ph.D.  
Administrator

## Acronyms and Abbreviations

BART	Best available retrofit technology
CAA	Clean Air Act
CFR	Code of Federal Regulations
FIP	Federal implementation plan
FR	Federal Register
NAAQS	National ambient air quality standard
NDEP	Nevada Division of Environmental Protection
NO <sub>2</sub>	Nitrogen dioxide
NO <sub>x</sub>	Oxides of nitrogen
NAC	Nevada Administrative Code
NRS	Nevada Revised Statute
NSR	New source review
PM <sub>2.5</sub>	Particulate matter less than or equal to a nominal 2.5 microns in aerodynamic diameter
PM <sub>10</sub>	Particulate matter less than or equal to a nominal 10 microns in aerodynamic diameter
PSD	Prevention of significant deterioration
SIP	State implementation plan
US EPA	U.S. Environmental Protection Agency

(This page left intentionally blank.)

## Introduction and Background

Sections 110(a)(1) and 110(a)(2), which are generally called the “infrastructure” state implementation plan (SIP) requirements of the Clean Air Act (CAA), require states to submit a plan to the U.S. Environmental Protection Agency (US EPA) demonstrating their ability and authority to implement, maintain, and enforce each newly promulgated or revised national ambient air quality standard (NAAQS). Section 110(a)(1) addresses the timing requirement for the submission of infrastructure SIPs. States are required to submit a statewide infrastructure SIP to the US EPA not later than 3 years after promulgation of a new or revised NAAQS.

Section 110(a)(2) lists the elements, (A) through (M), that must be addressed in an infrastructure SIP. Many of the section 110(a)(2) elements relate to the general information and authorities that constitute the infrastructure of a state’s air quality management program. The required elements include: enforceable emission limitations, an ambient air monitoring program, an enforcement program, air quality modeling capabilities, and confirmation of adequate personnel, resources and legal authority.

The federally enforceable applicable SIP for Nevada is compiled in 40 CFR Part 52 Subpart DD. This submittal addresses the Nevada Division of Environmental Protection’s (NDEP) authority to implement, maintain and enforce the 2010 primary NAAQS for nitrogen dioxide (NO<sub>2</sub>) for the NDEP’s jurisdiction. The following table demonstrates how the NDEP, through its SIP and state programs, meets each of the applicable requirements of section 110(a)(2). Although some of the SIP provisions may not be in state regulation, they are incorporated into title V operating permits and are federally enforceable.

Per US EPA direction, the NDEP has developed the table in accordance with US EPA’s October 14, 2011 guidance for the 2008 lead NAAQS (US EPA, Memorandum to Regional Air Division Directors, 10/14/11. *Guidance on Infrastructure State Implementation Plan (SIP) Elements Required Under Sections 110(a)(1) and 110(a)(2) for the 2008 Lead (Pb) National Ambient Air Quality Standards (NAAQS)*. Stephen D. Page). We have also relied on US EPA’s recent action on Nevada’s ozone and fine particulate matter infrastructure SIPs (77 FR 64737). The statutory and regulatory provisions of the applicable SIP referenced in the table may be viewed in Appendices A and B, respectively.

The following support documents are appended:

APPENDIX A:	State of Nevada Applicable SIP: Statutory Elements
APPENDIX B:	State of Nevada Applicable SIP: Regulatory Elements
APPENDIX C:	Ambient Air Monitoring Network Plan 2012
APPENDIX D:	May 30, 2007 letter to the US EPA Region 9 Administrator
APPENDIX E:	Non-SIP provisions cited in Elements A and J
APPENDIX F:	Evidence of Public Participation

**Nevada Applicable State Implementation Plan Provisions for the 2010 NO<sub>2</sub> Primary NAAQS:  
Nevada Division of Environmental Protection Jurisdiction**

SECTION 110(a)(2) ELEMENT	CURRENT PROGRAMS AND PROVISIONS IN THE NEVADA APPLICABLE SIP <sup>1</sup>
(A)	<p><u>Emission limits and other control measures:</u> Each such plan shall [ . . . ] include enforceable emission limitations and other control measures, means, or techniques (including economic incentives such as fees, marketable permits, and auctions of emissions rights), as well as schedules and timetables for compliance, as may be necessary or appropriate to meet the applicable requirements of this chapter.</p> <p><i>The dominant source sectors for nitrogen oxide (NO<sub>x</sub>) emissions are mobile sources and fuel combustion. Industrial processes, miscellaneous (dominated by waste disposal), and fires are less important source sectors. The Nevada applicable SIP includes enforceable emission limits and other control measures, means, or techniques, as well as schedules for compliance to support element (A) in Nevada Administrative Code (NAC):</i></p> <ul style="list-style-type: none"> <li>• 445B.22067 Open burning.</li> <li>• 445B.2207 Incinerator burning.</li> <li>• 445B. 22083 Construction, major modification or relocation of plants to generate electricity using steam produced by burning of fossil fuels.</li> <li>• 445B.22095 Emission limitation for BART.</li> <li>• 445B.22096 Control measures constituting BART; limitations on emissions. *</li> <li>• 445B.22097 Standards of quality for ambient air.</li> <li>• 445B.308 Prerequisites and conditions for issuance of certain operating permits; compliance with applicable state implementation plan.</li> <li>• 445B.310 Environmental evaluation: Applicable sources and other subjects; exemption.</li> <li>• 445B.311 Environmental evaluation: Contents; consideration of good engineering practice stack height</li> </ul> <p><i>*The best available retrofit technology (BART) emission limits for NO<sub>x</sub> at the Reid Gardner Generating Station (RGGS), as well as compliance method, and compliance schedule listed in NAC 445B.22096 are not in the SIP; rather, US EPA published a Federal Implementation Plan (FIP) (77 FR 50936), which established NO<sub>x</sub> emission limits for RGGS. The Nevada State Environmental</i></p>

<sup>1</sup> The NDEP requests that as provisions in Nevada’s current applicable SIP are replaced or removed through subsequent approvals by US EPA of updated provisions submitted by the NDEP, US EPA also replace or remove those provisions in this NO<sub>2</sub> infrastructure SIP.

SECTION 110(a)(2) ELEMENT	CURRENT PROGRAMS AND PROVISIONS IN THE NEVADA APPLICABLE SIP <sup>1</sup>
	<p><i>Commission adopted the emission limits from the FIP on October 11, 2012.</i></p> <p><i>NAC 445B.221, "Adoption by reference and applicability of certain provisions of federal law and regulations," has not been submitted as part of Nevada's SIP, but is in state regulation and further supports this element (see Appendix E).</i></p> <p><i>Finally, the NDEP has full delegation from the US EPA of the federal prevention of significant deterioration (PSD) program as it existed on July 20, 2011 at 40 CFR § 52.21. The PSD program provides a permitting review system to assure that the best controls available are selected before construction of a new major stationary source or modification of an existing major stationary source.</i></p>
(B)	<p><u>Ambient air quality monitoring/data system:</u> Each such plan shall [ . . . ] provide for establishment and operation of appropriate devices, methods, systems, and procedures necessary to (i) monitor, compile, and analyze data on ambient air quality, and (ii) upon request, make such data available to the Administrator.</p>
	<p><i>The NDEP commits to an ambient air quality monitoring program in its CAA section 105 grant work plan. The NDEP operates an air quality monitoring network that collects ambient air quality data that are compiled, analyzed, and reported to US EPA in accordance with 40 CFR 58. The network comprises federally-approved monitors that measure ozone, PM<sub>10</sub> and PM<sub>2.5</sub>. The NDEP submitted its 2011 Annual Monitoring Network Plan to US EPA on June 30, 2011. US EPA indicated in a letter received by the NDEP on November 4, 2011 that the details of the NDEP's monitoring network meet the requirements set forth under 40 CFR Part 58.10. The NDEP's 2012 Annual Monitoring Network Plan (Appendix C) was submitted to US EPA on June 30, 2012; as of January 22, 2013 the US EPA had indicated that it would be approving the NDEP's 2012 plan, but official notification had not been received.</i></p> <p><i>US EPA's new monitoring requirements for NO<sub>2</sub> (75 FR 6474, February 9, 2010) do not require monitoring for NO<sub>2</sub> within the NDEP's jurisdiction, as no areas within NDEP's jurisdiction meet the placement requirements for near road monitoring, community wide monitoring, or monitoring to protect susceptible and vulnerable populations.</i></p>
(C)	<p><u>Programs for enforcement, PSD, and NSR:</u> Each such plan shall [ . . . ] include a program to provide for the enforcement of the measures described in subparagraph [element] (A), and regulation of the modification and construction of any stationary source within the areas covered by the plan as necessary to assure that national ambient air quality standards are achieved, including a permit program as required in parts C and D of this subchapter.</p>
	<p><i>The Nevada applicable SIP contains the following provisions that provide enforcement authority.</i></p>

SECTION 110(a)(2) ELEMENT	CURRENT PROGRAMS AND PROVISIONS IN THE NEVADA APPLICABLE SIP <sup>1</sup>
	<p>NRS:</p> <ul style="list-style-type: none"> <li>• 445B.210 Powers of Commission.</li> <li>• 445B.230 Powers and duties of Department.</li> <li>• 445B.450 Notice and order by Director; hearing; alternative procedures.</li> <li>• 445B.460 Injunctive relief.</li> <li>• 445B.640 Levy and disposition of administrative fines; additional remedies available; penalty.</li> </ul> <p>NAC:</p> <ul style="list-style-type: none"> <li>• 445B.225 Prohibited conduct: Concealment of emissions.</li> <li>• 445B.227 Prohibited conduct: Operation of source without required equipment; removal or modification of required equipment; modification of required procedure.</li> <li>• 445B.229 Hazardous emissions: Order for reduction of emissions.</li> <li>• 445.667 Excess emissions: Scheduled maintenance; testing; malfunctions.</li> <li>• 445B.250 Notification of planned construction or reconstruction.</li> <li>• 445B.252 Testing and sampling.</li> <li>• 445.694 Emission discharge information.</li> <li>• 445B.275 Violations: Acts constituting; notice.</li> <li>• 445B.277 Stop orders.</li> <li>• 445B.308 Prerequisites and conditions for issuance of certain operating permits; compliance with applicable state implementation plan.</li> <li>• 445B.310 Environmental evaluation: Applicable sources and other subjects; exemption.</li> <li>• 445B.311 Environmental evaluation: Contents; consideration of good engineering practice stack height.</li> <li>• Article 13 General Provisions for the Review of New Sources.</li> </ul> <p><i>In addition, the NDEP has full delegation from the US EPA of the federal PSD program as it existed on July 20, 2011 at 40 CFR 52.21. 40 CFR 52.1485(b) incorporates the provisions of § 52.21 into the Nevada applicable SIP.</i></p>
(D)(i)	<p><u>Interstate transport provisions:</u> Each such plan shall [...] contain adequate provisions: (i) prohibiting, consistent with the provisions of this subchapter,</p>

SECTION 110(a)(2) ELEMENT	CURRENT PROGRAMS AND PROVISIONS IN THE NEVADA APPLICABLE SIP <sup>1</sup>
	<p>any source or other type of emissions activity within the State from emitting any air pollutant in amounts which will, (I) contribute significantly to nonattainment in, or interfere with maintenance by, any other State with respect to any such national primary or secondary ambient air quality standard, or (II) interfere with measures required to be included in the applicable implementation plan for any other State under part C of this subchapter to prevent significant deterioration of air quality or to protect visibility.</p>
	<p><u>(D)(i)(I)</u>  <i>The requirements of (D)(i)(I) are addressed based on the “Design Value Report” for 2011 Nitrogen Dioxide downloaded from EPA’s Air and Radiation, Air Trends, Design Values webpage at <a href="http://www.epa.gov/airtrends/values.html">http://www.epa.gov/airtrends/values.html</a>.</i></p> <p><i>Only one area in the United States, Los Angeles South Coast Air Basin, CA, has previously been designated nonattainment for the nitrogen dioxide annual NAAQS (see Table 1 of the linked workbook). This area was redesignated attainment on June 9, 2010 and is the only maintenance area listed in the United States (Table 5a) for the annual standard. 2000 through 2010 design values for Los Angeles South Coast Air Basin, CA are less than the annual NAAQS of 53 parts per billion (Table 3). No violating counties or monitor sites for the nitrogen dioxide annual NAAQS are identified by US EPA based on 2011 design values (Table 2, Table 4a, and Table 5a) or 2002 through 2011 design value history (Table 6a).</i></p> <p><i>No violating counties or monitor sites for the nitrogen dioxide 1-hour NAAQS are identified by US EPA based on 2011 design values (Table 4b, Table 5b). Design values exceed the 2010 1-hour NAAQS at monitors in: Maricopa County, AZ for 2002; Los Angeles County, CA for 2002 through 2005; San Bernardino County, CA 2002 through 2003; Cook County, IL for 2007 through 2009; and Union County, NJ for 2002 based on the design values in Table 6b. These five highly urbanized counties have significant amounts of local, combustion-generated NO<sub>x</sub> emissions from mobile, point, and area sources that contribute to the violating design values recorded by these monitors. In addition, design values calculated for these monitor sites meet the 1-hour NAAQS for the remaining years of data between 2002 and 2011 (Table 6b).</i></p> <p><i>Given the significant locally-generated NO<sub>x</sub> emissions at the receptor sites and distances from sources within the NDEP’s jurisdiction, the NDEP believes it is reasonable to conclude that emissions from sources within the NDEP’s jurisdiction do not interfere with maintenance of the 2010 1-hour NAAQS at receptor locations in southern California or contribute to potential nonattainment at receptor locations in Arizona, Illinois, or New Jersey.</i></p>

SECTION 110(a)(2) ELEMENT	CURRENT PROGRAMS AND PROVISIONS IN THE NEVADA APPLICABLE SIP <sup>1</sup>
	<p><u>(D)(i)(II)</u>  <i>New major sources and major modifications in Nevada are subject to PSD, thus meeting the requirements of (D)(i)(II). The NDEP has full delegation of the federal PSD program as it existed on July 20, 2011 at 40 CFR § 52.21. 40 CFR 52.1485(b) incorporates the federal PSD provisions (§ 52.21) into Nevada’s applicable SIP. The visibility requirements of subsection (D)(i)(II) are addressed by the “Nevada Regional Haze State Implementation Plan.” US EPA finalized approval of most of the Nevada regional haze SIP on March 26, 2012 (77 FR 17334). US EPA approved in part and disapproved in part the remaining portion of the regional haze SIP on August 23, 2012 (77 FR 50936). In the same action, US EPA promulgated a FIP replacing the disapproved provisions of the State plan. The NDEP is completing work on a revised SIP to replace all portions of the FIP.</i></p>
(D)(ii)	<p><u>Interstate and international transport provisions:</u>  Each such plan shall [ . . . ] contain adequate provisions: (ii) insuring compliance with the applicable requirements of CAA sections 115 or 126 that involve NO<sub>2</sub> emissions (relating to interstate and international pollution abatement).</p>
	<p><u>CAA section 115</u>  <i>The requirements of section 115 do not apply, because there are no actions pending against Nevada.</i></p> <p><u>CAA section 126</u>  <i>The requirements of section 126 (b) and (c) do not apply, because there are no petitions pending against Nevada. The following provisions (NAC) of the Nevada applicable SIP address the CAA section 126(a) requirements regarding notification to affected nearby states of major proposed new or modified sources. [see also elements (J) and (M)]:</i></p> <ul style="list-style-type: none"> <li>• <i>445B.325 Operating permits: Termination, reopening and revision, revision, or revocation and reissuance.</i></li> <li>• <i>445B.3364 Operating permit to construct: Action by Director on application; notice; public comment and hearing.</i></li> <li>• <i>445B.3395 Action by Director on application; notice; public comment and hearing; objection by Administrator; expiration of permit.</i></li> <li>• <i>445B.3425 Minor revision of permit.</i></li> <li>• <i>445B.344 Significant revision of permit.</i></li> <li>• <i>445B.3441 Administrative revision of permit to incorporate conditions of certain permits to construct.</i></li> <li>• <i>445B.3457 Action by Director on application; notice; public comment and hearing; expiration of permit.</i></li> </ul> <p><i>In addition, the NDEP has full delegation of the federal PSD program as it existed on July 20, 2011 at 40 CFR § 52.21. The federal PSD program is incorporated into Nevada’s applicable SIP at 40 CFR 52.1485. The PSD program also addresses the</i></p>

SECTION 110(a)(2) ELEMENT	CURRENT PROGRAMS AND PROVISIONS IN THE NEVADA APPLICABLE SIP <sup>1</sup>
	<i>section 126(a) notification requirements.</i>
(E)	<p><u>Adequate personnel, funding and authority:</u> Each such plan shall [ . . . ] provide:</p> <p>(i) necessary assurances that the state (or, except where the Administrator deems inappropriate, the general purpose local government or governments, or a regional agency designated by the state or general purpose local governments for such purpose) will have adequate personnel, funding, and authority under state (and, as appropriate, local) law to carry out such implementation plan (and is not prohibited by any provision of federal or state law from carrying out such implementation plan or portion thereof),</p> <p>(ii) requirements that the state comply with the requirements respecting state boards under section 128, (See section 40 CFR 52.1182, <a href="http://edocket.access.gpo.gov/cfr_2004/julqtr/pdf/40cfr52.1180.pdf">http://edocket.access.gpo.gov/cfr_2004/julqtr/pdf/40cfr52.1180.pdf</a>)</p> <p>(iii) necessary assurances that, where the state has relied on a local or regional government, agency, or instrumentality for the implementation of any plan provision, the state has responsibility for ensuring adequate implementation of such plan provision.</p>
	<p><i>NRS 445B.205, “Department designated as State Air Pollution Control Agency,” designates the Department of Conservation and Natural Resources as the air pollution control agency for the State of Nevada for the purposes of the CAA insofar as it pertains to state programs. Within the Department, pursuant to NAC 445B.053 (“Director” defined), the Director has assigned the NDEP responsibility to manage air quality planning and air pollution control programs for the State and to act on his behalf for the purposes of adoption, revision and submittal of state plans (see Appendix D).</i></p> <p><i>The specific statutes in the Nevada applicable SIP that deal with personnel, funding, authority to support SIP requirements, CAA section 128 requirements, and state responsibility for implementing the SIP include NRS:</i></p> <ul style="list-style-type: none"> <li>• <i>232A.020 Residency requirement for appointment; terms of members; vacancies; qualification of member appointed as representative of general public; gubernatorial appointee prohibited from serving on more than one board, commission or similar body.</i></li> <li>• <i>281A.150 Public employee defined.</i></li> <li>• <i>281A.160 Public officer defined.</i></li> <li>• <i>281A.400 General requirements: exceptions.</i></li> <li>• <i>281A.410 Limitations on representing or counseling private persons before public agencies; disclosure required by certain public officers.</i></li> </ul>

SECTION 110(a)(2) ELEMENT	CURRENT PROGRAMS AND PROVISIONS IN THE NEVADA APPLICABLE SIP <sup>1</sup>
	<ul style="list-style-type: none"> <li>• <i>281A.420 Requirements regarding disclosure of conflicts of interest and abstention from voting because of certain types of conflicts; effect of abstention on quorum and voting requirements; exceptions. 445B.200 Creation and composition; Chairman; quorum; compensation of members and employees; disqualification; technical support.</i></li> <li>• <i>445B.210 Powers of Commission.</i></li> <li>• <i>445B.220 Additional powers of Commission.</i></li> <li>• <i>445B.225 Power of Commission to require testing of sources.</i></li> <li>• <i>445B.230 Powers and duties of Department.</i></li> <li>• <i>445B.235 Additional powers of Department.</i></li> <li>• <i>445B.240 Power of representatives of Department to enter and inspect premises.</i></li> <li>• <i>445B.245 Power of Department to perform or require test of emissions from stacks.</i></li> <li>• <i>445B.300 Operating permit for source of air contaminant; notice and approval of proposed construction; administrative fees; failure of Commission or Department to act.</i></li> <li>• <i>445B.450 Notice and order by Director; hearing; alternative procedures.</i></li> <li>• <i>445B.460 Injunctive relief.</i></li> <li>• <i>445B.500 Establishment and administration of program; contents of program; designation of air pollution control agency of county for purposes of federal act; powers and duties of local air pollution control board; notice of public hearings; delegation of authority to determine violations and levy administrative penalties; cities and smaller counties; regulation of certain electric plants prohibited.</i></li> <li>• <i>445B.510 Commission may require program for designated area.</i></li> <li>• <i>445B.520 Commission may establish or supersede county program.</i></li> <li>• <i>445B.530 Commission may assume jurisdiction over specific classes of air contaminants.</i></li> <li>• <i>445B.540 Restoration of superseded local program; continuation of existing local program.</i></li> <li>• <i>445B.560 Plan or procedure for emergency.</i></li> <li>• <i>445B.570 Confidentiality and use of information obtained by Department; penalty.</i></li> <li>• <i>445B.580 Officer of Department may inspect or search premises; search warrant.</i></li> <li>• <i>445B.640 Levy and disposition of administrative fines; additional remedies available; penalty for failure to pay administrative fine.</i></li> </ul>

SECTION 110(a)(2) ELEMENT	CURRENT PROGRAMS AND PROVISIONS IN THE NEVADA APPLICABLE SIP <sup>1</sup>
	<p><i>Further, Section 12 (“Resources”) of the Nevada applicable SIP, updated effective October 23, 2012 (77 FR 64737), provides information concerning funding and personnel supporting the functions of the three air pollution control agencies administering CAA programs in Nevada: the NDEP, Clark County Department of Air Quality, and Washoe County Health District Air Quality Management Division.</i></p> <p><i>The Nevada Legislature approves the NDEP air programs’ funding and personnel resources requests every two years. The air programs receive funding from fees paid by regulated businesses, motor vehicle registration fees, and federal grants. The NDEP’s State Fiscal Year 2011 budget is in excess of \$7 million with 54 approved full-time equivalent staff positions in the air programs.</i></p>
(F)	<p><u>Stationary source monitoring and reporting:</u>  Each such plan shall [ . . . ] require, as may be prescribed by the Administrator:</p> <ul style="list-style-type: none"> <li>(i) the installation, maintenance, and replacement of equipment, and the implementation of other necessary steps, by owners or operators of stationary sources to monitor emissions from such sources,</li> <li>(ii) periodic reports on the nature and amounts of emissions and emissions-related data from such source, and</li> <li>(iii) correlation of such reports by the state agency with any emission limitations or standards established pursuant to this chapter, which reports shall be available at reasonable times for public inspection.</li> </ul>
	<p><i>Nevada’s applicable SIP provides a system for monitoring emissions from stationary sources and the submittal of periodic emission reports in NAC:</i></p> <ul style="list-style-type: none"> <li>• 445B.252 Testing and sampling.</li> <li>• 445B.256 Monitoring systems: Calibration, operation, and maintenance of equipment.</li> <li>• 445B.257 Monitoring systems: Location.</li> <li>• 445B.258 Monitoring systems: Verification of operational status.</li> <li>• 445B.259 Monitoring systems: Performance evaluations.</li> <li>• 445B.260 Monitoring systems: Components contracted for before September 11, 1974.</li> <li>• 445B.261 Monitoring systems: Adjustments.</li> <li>• 445B.262 Monitoring systems: Measurement of opacity.</li> <li>• 445B.263 Monitoring systems: Frequency of operation.</li> <li>• 445B.264 Monitoring systems: Recordation of data.</li> <li>• 445B.265 Monitoring systems: Records; reports.</li> <li>• 445B.267 Alternative monitoring procedures or requirements.</li> </ul>

SECTION 110(a)(2) ELEMENT	CURRENT PROGRAMS AND PROVISIONS IN THE NEVADA APPLICABLE SIP <sup>1</sup>
	<ul style="list-style-type: none"> <li>• 445B.275 Violations: Acts constituting; notice.</li> <li>• 445B.308 Prerequisites and conditions for issuance of certain operating permits; compliance with applicable state implementation plan. [See paragraph (a) of subsection (7).]</li> <li>• 445B.315(3) Contents of operating permits: Exception for operating permits to construct; required conditions.</li> <li>• 445B.3368 Additional requirements for application; exception.</li> <li>• 445B.346 Required contents of permit.</li> </ul> <p><i>NRS 445B.570 is also supportive of the portion of the CAA section 110(a)(2)(F)(iii) requirement pertaining to the public availability of reports.</i></p> <p><i>Ambient air quality monitoring data and trends are reported annually in the Nevada Air Quality Trend Report. This report indirectly correlates stationary source emissions with the NAAQS. It is available for public inspection on the NDEP's web site at <a href="http://ndep.nv.gov/baqp/monitoring/docs/trend.pdf">http://ndep.nv.gov/baqp/monitoring/docs/trend.pdf</a>. Additionally, the state submits stationary source emissions data to US EPA for publication in the annual National Emission Inventory, which is also available for public inspection.</i></p>
(G)	<p><u>Emergency episodes:</u> Each such plan shall provide for authority comparable to that in section 303 of this title and adequate contingency plans to implement such authority.</p>
	<p><i>Emergency powers are provided in Nevada's current SIP in:</i></p> <ul style="list-style-type: none"> <li>• <i>NRS 445B.560 Plan or procedure for emergency.</i></li> <li>• <i>NAC 445B.229 Hazardous emissions: Order for reduction or discontinuance.</i></li> <li>• <i>NAC 445B.230 Plan for reduction of emissions.</i></li> </ul> <p><i>The provisions cited above are adequate to constrain any sources of NO<sub>2</sub> emissions, as necessary, in an emergency situation. The NDEP's jurisdiction is classified as a Priority III area for sulfur oxides, particulate matter, carbon monoxide, nitrogen dioxide and ozone. Priority III areas are not required to prepare emergency episode plans.</i></p>
(H)	<p><u>Future SIP revisions:</u> Each such plan shall [ . . . ] provide for revision of such plan— (i) from time to time as may be necessary to take account of revisions of such national primary or secondary ambient air quality standard or the availability of improved or more expeditious methods of attaining such standard, and</p>

SECTION 110(a)(2) ELEMENT	CURRENT PROGRAMS AND PROVISIONS IN THE NEVADA APPLICABLE SIP <sup>1</sup>
	(ii) except as provided in paragraph (3)(C), whenever the Administrator finds on the basis of information available to the Administrator that the plan is substantially inadequate to attain the national ambient air quality standard which it implements or to otherwise comply with any additional requirements established under this chapter (CAA).
	<p><i>NRS 445B.205, "Department designated as State Air Pollution Control Agency," designates the Department of Conservation and Natural Resources as the air pollution control agency for the State of Nevada for the purposes of the CAA insofar as it pertains to state programs. Within the Department, pursuant to NAC 445B.053 ("Director" defined), the Director has assigned the NDEP Administrator responsibility to manage air quality planning and air pollution control programs for the State and to act on his behalf for the purposes of adoption, revision and submittal of state plans (see Appendix D). The NDEP commits to submit appropriate SIP revisions in response to changes in the NAAQS, availability of improved methods for attaining the NAAQS, or in response to a US EPA finding that the SIP is substantially inadequate.</i></p> <p><i>Other NRS SIP provisions that that may provide support for this element include:</i></p> <ul style="list-style-type: none"> <li>• 445B.135 "Federal Act" defined.</li> <li>• 445B.210 Powers of Commission.</li> <li>• 445B.220 Additional powers of Commission.</li> <li>• 445B.500 Establishment and administration of program; contents of program; designation of air pollution control agency of county for purposes of federal act; powers and duties of local air pollution control board; notice of public hearings; delegation of authority to determine violations and levy administrative penalties; cities and smaller counties; regulation of certain electric plants prohibited.</li> </ul>
(I)	<p><u>Nonattainment area plan or plan revision under Part D:</u> Each such plan shall [ . . . ] in the case of a plan or plan revision for an area designated as a nonattainment area, meet the applicable requirements of part D of this subchapter (relating to nonattainment areas).</p>
	<p><i>US EPA considers this element of 110(a)(2) to be outside the scope of infrastructure SIP actions because it pertains to plan requirements for nonattainment areas. Therefore, US EPA does not expect infrastructure SIP submissions to address this element (US EPA, Memorandum to Regional Air Division Directors, 10/14/11. Guidance on SIP Elements Required Under Sections 110(a)(1) and (2) for the 2008 Lead (Pb) National Ambient Air Quality Standards (NAAQS). S. Page).</i></p>
(J)	<p><u>Consultation with government officials, public notification, PSD and visibility protection:</u> Each such plan shall [ . . . ] meet the applicable requirements of section 121 of this title (relating to consultation), section 127 of this title (relating to public notification), and part C of this subchapter (relating to prevention of significant</p>

SECTION 110(a)(2) ELEMENT	CURRENT PROGRAMS AND PROVISIONS IN THE NEVADA APPLICABLE SIP <sup>1</sup>
	deterioration of air quality and visibility protection).
	<p><u>CAA Section 121</u></p> <p><i>Section 11 of the Nevada applicable SIP, “Intergovernmental Relations,” describes the process for consultation among the three air pollution control agencies administering CAA programs in Nevada: NDEP, Clark County Department of Air Quality, and Washoe County Health District’s Air Quality Management Division, as well as for regional planning and transportation agencies that also have certain air-quality-planning-related responsibilities. It identifies the applicable state and local provisions governing consultation; describes provisions relevant to consultation in permitting new or modified stationary sources; and, for Clark County, Washoe County and the Lake Tahoe Basin, addresses consultation’s role in transportation planning and conformity to the Nevada applicable SIP.</i></p> <p><i>Together with Section 11, the following SIP provisions fulfill the requirements of CAA section 121.</i></p> <p><i>NRS:</i></p> <ul style="list-style-type: none"> <li>• <i>445B.220 Additional powers of Commission.</i></li> <li>• <i>445B.235 Additional powers of Department.</i></li> <li>• <i>445B.500 Establishment and administration of program; contents of program; designation of air pollution control agency of county for purposes of federal act; powers and duties of local air pollution control board; notice of public hearings; delegation of authority to determine violations and levy administrative penalties; cities and small counties; regulation of certain electric plants provided.</i></li> <li>• <i>445B.503 Local air pollution control board in county whose population is 400,000 or more: Cooperation with regional planning coalition and regional transportation commission; prerequisites to adoption or amendment of plan, policy or program.</i></li> <li>• <i>445B.510 Commission may require program for designated areas.</i></li> </ul> <p><i>NAC:</i></p> <ul style="list-style-type: none"> <li>• <i>445B.325 Operating permits: Termination, reopening and revision, revision, or revocation and reissuance.</i></li> <li>• <i>445B.3364 Operating permit to construct: Action by Director on application; notice; public comment and hearing.</i></li> <li>• <i>445B.3395 Action by Director on application; notice; public comment and hearing; objection by Administrator; expiration of permit.</i></li> <li>• <i>445B.3425 Minor revision of permit.</i></li> </ul>

SECTION 110(a)(2) ELEMENT	CURRENT PROGRAMS AND PROVISIONS IN THE NEVADA APPLICABLE SIP <sup>1</sup>
	<ul style="list-style-type: none"> <li>• 445B.344 Significant revision of permit.</li> <li>• 445B.3441 Administrative revision of permit to incorporate conditions of certain permits to construct.</li> <li>• 445B.3457 Action by Director on application; notice; public comment and hearing; expiration of permit.</li> <li>• 445B.3447 Class I general permit.</li> </ul> <p><i>The following provisions have not been submitted as part of Nevada’s SIP, but are in state law or regulation and further support this element requirement (see Appendix E).</i></p> <p><i>NRS Chapter 445B, Air Pollution:</i></p> <ul style="list-style-type: none"> <li>• 445B.100 Declaration of public policy.</li> </ul> <p><i>NRS Chapter 233B, Nevada Administrative Procedure Act, requires notification and provision of comment opportunities to all parties affected by proposed regulations:</i></p> <ul style="list-style-type: none"> <li>• 233B.060 Notice of adoption, amendment or repeal of permanent or temporary regulation; adoption of permanent regulation after adoption of temporary regulation.</li> <li>• 233B.0603 Contents and form of notice of intent to adopt, amend or repeal permanent or temporary regulation; solicitation of comments from public or affected businesses.</li> <li>• 233B.061 Proposed permanent or temporary regulation: Public comment; workshop; public hearing; applicability of Open Meeting Law.</li> </ul> <p><i>Additionally, NAC 445B.221, “Adoption by reference and applicability of certain provisions of federal law and regulations,” adopts the federal PSD requirements by reference and thereby includes requirements to consult with affected land managers on PSD-related actions.</i></p> <p><u>Section 127</u></p> <p><i>The entire state of Nevada is designated unclassifiable/attainment for the 2010 NO<sub>2</sub> NAAQS. The NDEP maintains a web site, <a href="http://ndep.nv.gov/">http://ndep.nv.gov/</a>, which describes the state’s air quality planning and air pollution control programs and includes public information pages with public notices and news releases. The Nevada Air Quality Trend Report (<a href="http://ndep.nv.gov/baqp/monitoring/docs/trend.pdf">http://ndep.nv.gov/baqp/monitoring/docs/trend.pdf</a>) is published annually and includes a discussion of air quality trends with respect to the NAAQS.</i></p>

SECTION 110(a)(2) ELEMENT	CURRENT PROGRAMS AND PROVISIONS IN THE NEVADA APPLICABLE SIP <sup>1</sup>
	<p><u>Part C</u>  <i>The NDEP has full delegation from the US EPA of the federal PSD program as it existed on July 20, 2011 at 40 CFR 52.21. 40 CFR 52.1485(b) incorporates the federal PSD provisions (§ 52.21) into Nevada’s applicable SIP. With respect to visibility protection, US EPA does not expect to treat this provision as applicable for purposes of the infrastructure SIP approval process (US EPA Memorandum 10/14/11, Guidance on SIP Elements Required Under Sections 110(a)(1) and (2) for the 2008 Lead (Pb) National Ambient Air Quality Standards (NAAQS). S. Page). For informational purposes, the NDEP submitted a regional haze SIP to US EPA on November 18, 2009. US EPA approved the entire RH SIP, with the exception of certain requirements for BART for NO<sub>x</sub> at NV Energy’s Reid Gardner Generating Station (77 FR 17334). On August 23, 2012, US EPA approved in part and disapproved in part the remaining portion of the regional haze SIP (77 FR 50936). In the same action, US EPA promulgated a FIP replacing the disapproved provisions of the State plan.</i></p>
(K)	<p><u>Air quality modeling/data:</u>  Each such plan shall [ . . . ] provide for—  (i) the performance of such air quality modeling as the Administrator may prescribe for the purpose of predicting the effect on ambient air quality of any emissions of any air pollutant for which the Administrator has established a national ambient air quality standard, and  (ii) the submission, upon request, of data related to such air quality modeling to the Administrator.</p>
	<p><i>Nevada’s applicable SIP provides provisions for the environmental evaluation of stationary sources in:</i></p> <ul style="list-style-type: none"> <li>• <i>NAC 445B.308 Prerequisites and conditions for issuance of certain operating permits; compliance with applicable state implementation plan.</i></li> <li>• <i>NAC 445B.310 Environmental evaluation: Applicable sources and other subjects; exemption.</i></li> <li>• <i>NAC 445B.311 Environmental evaluation: Contents; consideration of good engineering practice stack height.</i></li> <li>• <i>Article 13 General Provisions for the Review of New Sources.</i></li> </ul> <p><i>Together with the NDEP’s full delegation of the federal PSD program, as adopted into the Nevada applicable SIP through 40 CFR 1485 (see element C above), these regulations meet the requirements of this element.</i></p>
(L)	<p><u>Permitting fees:</u>  Each such plan shall require the owner or operator of each major stationary source to pay to the permitting authority, as a condition of any permit required under this chapter, a fee sufficient to cover—  (i) the reasonable costs of reviewing and acting upon any application for such a permit, and</p>

<b>SECTION 110(a)(2) ELEMENT</b>	<b>CURRENT PROGRAMS AND PROVISIONS IN THE NEVADA APPLICABLE SIP<sup>1</sup></b>
	(ii) if the owner or operator receives a permit for such source, the reasonable costs of implementing and enforcing the terms and conditions of any such permit (not including any court costs or other costs associated with any enforcement action), until such fee requirement is superseded with respect to such sources by the Administrator’s approval of a fee program under subchapter (title) V of this chapter.
	<i>In US EPA’s Technical Support Document (“Overarching” TSD) for their October 23, 2012 action on Nevada’s 1997 ozone, 1997 PM<sub>2.5</sub> and 2006 PM<sub>2.5</sub> NAAQS infrastructure SIP submittals, they note that, “. . . the permitting fee requirement under CAA section 110(a)(L) is superseded by EPA approval of a fee program under title V of the CAA, and we [EPA] have approved the title V programs of NDEP, Clark County, and Washoe County.” (77 FR 64737) Thus, US EPA’s approval of the NDEP’s title V program (66 FR 63188, December 5, 2001) satisfies this element.</i>
(M)	<u>Consultation/participation by affected local entities:</u> Each such plan shall [. . .] provide for consultation and participation by local political subdivisions affected by the plan.
	<p><i>The following applicable SIP provisions provide a framework for consultation in the development of SIPs or SIP revisions.</i></p> <p><i>NRS:</i></p> <ul style="list-style-type: none"> <li>• <i>445B.210 Powers of Commission.</i></li> <li>• <i>445B.220 Additional powers of Commission.</i></li> <li>• <i>445B.235 Additional powers of Department; deposit of money collected from sale of emission credits or allocations; Department to develop regulations concerning public participation in determination of amount of emission credits or allocations available for sale.</i></li> </ul> <p><i>Section 11 of the Nevada applicable SIP, “Intergovernmental Relations,” describes the process for consultation among the three air pollution control agencies administering CAA programs in Nevada: NDEP, Clark County Department of Air Quality, and Washoe County Health District’s Air Quality Management Division, as well as for regional planning and transportation agencies that also have certain air-quality-planning-related responsibilities. For each area, SIP Section 11 identifies the applicable state and local provisions governing consultation and notification to affected entities, including for those parts of the SIP related to permitting new and modified major sources and transportation planning, as appropriate. By the very nature of delegating air program responsibilities to Clark County and Washoe County, and cooperating with the Tahoe Regional Planning Agency, while retaining SIP revision authority at the state level, Nevada has instilled a process for developing, implementing, and enforcing the SIP that relies upon the involvement of such local political subdivisions.</i></p>

SECTION 110(a)(2) ELEMENT	CURRENT PROGRAMS AND PROVISIONS IN THE NEVADA APPLICABLE SIP <sup>1</sup>
	<p><i>The Nevada applicable SIP further provides authority and functionality to the primary agencies in Clark and Washoe counties to engage local political subdivisions in air quality planning. It also includes provisions to supersede a county program, if such program is found inadequate by the State Environmental Commission. These authorities are found in NRS:</i></p> <ul style="list-style-type: none"> <li><i>• 445B.500 Establishment and administration of program; contents of program; designation of air pollution control agency of county for purposes of federal act; powers and duties of local air pollution control board; notice of public hearings; delegation of authority to determine violations and levy administrative penalties; cities and smaller counties; regulation of certain electric plants prohibited.</i></li> <li><i>• 445B.503 Local air pollution control board in county whose population is 700,000 or more: Cooperation with regional planning coalition and regional transportation commission; prerequisites to adoption or amendment of plan, policy or program.</i></li> <li><i>• 445B.510 Commission may require program for designated area.</i></li> <li><i>• 445B.520 Commission may establish or supersede county program.</i></li> </ul>

## **APPENDIX A**

### **State of Nevada Applicable State Implementation Plan STATUTORY ELEMENTS**

# State of Nevada Applicable State Implementation Plan<sup>1</sup>

## NEVADA REVISED STATUTES

Through and including 10/23/2012 final FR actions  
January 28, 1972 - October 23, 2012  
*Last revised 11/28/2012*

### TITLE 0 - PRELIMINARY CHAPTER – GENERAL PROVISIONS

0.039 Person defined.

### TITLE 18 - CHAPTER 232A – BOARDS, COMMISSIONS AND SIMILAR BODIES

232A.020 Residency requirement for appointment; terms of members; vacancies; qualification of member appointed as representative of general public; gubernatorial appointee prohibited from serving on more than one board, commission or similar body.

### TITLE 23 - CHAPTER 281A – ETHICS IN GOVERNMENT

#### GENERAL PROVISIONS

281A.150 Public employee defined.  
281A.160 Public officer defined.

#### CODE OF ETHICAL STANDARDS

281A.400 General requirements; exceptions.  
281A.410 Limitations on representing or counseling private persons before public agencies; disclosure required by certain public officers.  
281A.420 Requirements regarding disclosure of conflicts of interest and abstention from voting because of certain types of conflicts; effect of abstention on quorum and voting requirements; exceptions.

### TITLE 40 - CHAPTER 439 – ADMINISTRATION OF PUBLIC HEALTH

District Board of Health and District Health Officer in Counties Whose Population is Less Than 700,000

439.390 District board of health: Composition; qualifications of members.

### TITLE 40 - CHAPTER 445B - AIR POLLUTION

#### GENERAL PROVISIONS

445B.105 Definitions.  
445B.110 Air contaminant defined.  
445B.115 Air pollution defined.

---

<sup>1</sup> This includes the statutory elements of the Nevada ASIP to the best of the NDEP's knowledge; it may vary somewhat from the U.S. EPA version. A proposed updated/replacement ASIP was submitted to EPA on February 16, 2005 with revisions on January 12, 2006, December 8, 2006, June 26, 2007, August 20, 2007, May 21, 2012, and August 30, 2012. This "Current" ASIP incorporates all of EPA's final actions on NDEP's submittals through October 23, 2012: the 4/13/82, 3/27/06, 12/11/06, 4/20/07, 5/8/07, 4/9/08, 4/16/08, 9/27/12, and 10/23/12 FR actions and the 1/3, 5/8, 6/13, 11/2/07 and 4/16/08 rescissions.

<u>445B.120</u>	Commission defined.
<u>445B.125</u>	Department defined.
<u>445B.130</u>	Director defined.
<u>445B.135</u>	Federal Act defined.
<u>445B.140</u>	Hazardous air pollutant defined.
<u>445B.145</u>	Operating permit defined.
<u>445B.150</u>	Person defined.
<u>445B.155</u>	Source and indirect source defined.

#### STATE ENVIRONMENTAL COMMISSION

<u>445B.200</u>	Creation and composition; Chairman; quorum; compensation of members and employees; disqualification; technical support.
<u>445B.205</u>	Department designated as State Air Pollution Control Agency.
<u>445B.210</u>	Powers of Commission.
<u>445B.220</u>	Additional powers of Commission.
<u>445B.225</u>	Power of Commission to require testing of sources.
<u>445B.230</u>	Powers and duties of Department.
<u>445B.235</u>	Additional powers of Department.
<u>445B.240</u>	Power of representatives of Department to enter and inspect premises.
<u>445B.245</u>	Power of Department to perform or require test of emissions from stacks.

#### LOCAL HEARING BOARD

<u>445B.275</u>	Creation; members; terms.
<u>445B.280</u>	Attendance of witnesses at hearing; contempt; compensation.

#### PROVISIONS FOR ENFORCEMENT

<u>445B.300</u>	Operating permit for source of air contaminant; notice and approval of proposed construction; administrative fees; failure of Commission or Department to act.
<u>445B.310</u>	Limitations on enforcement of federal and state regulations concerning indirect sources.
<u>445B.320</u>	Approval of plans and specifications required before construction or alteration of structure.
<u>445B.340</u>	Appeals to Commission: Notice of appeal.
<u>445B.350</u>	Appeals to Commission: Hearings.
<u>445B.360</u>	Appeals to Commission: Appealable matters; action by Commission; regulations.

#### VIOLATIONS

<u>445B.450</u>	Notice and order by Director; hearing; alternative procedures.
<u>445B.460</u>	Injunctive relief.

#### PROGRAM FOR CONTROL OF AIR POLLUTION

<u>445B.500</u>	Establishment and administration of program; contents of program; designation of air pollution control agency of county for purposes of federal act; powers and duties of local air pollution control board; notice of public hearings; delegation of authority to determine violations and levy administrative penalties; cities and smaller counties; regulation of certain electric plants prohibited.
<u>445B.503</u>	Local air pollution control board in county whose population is 700,000 or more: Cooperation with regional planning coalition and regional transportation commission; prerequisites to adoption or amendment of plan, policy or program.
<u>445B.510</u>	Commission may require program for designated area.
<u>445B.520</u>	Commission may establish or supersede county program.
<u>445B.530</u>	Commission may assume jurisdiction over specific classes of air contaminants.
<u>445B.540</u>	Restoration of superseded local program; continuation of existing local program.

**MISCELLANEOUS PROVISIONS**

- 445B.560 Plan or procedure for emergency.
- 445B.570 Confidentiality and use of information obtained by Department; penalty.
- 445B.580 Officer of Department may inspect or search premises; search warrant.
- 445B.595 Governmental sources of air contaminants to comply with state and local provisions regarding air pollution; permit to set fire for training purposes; planning and zoning agencies to consider effects on quality of air.
- 445B.600 Private rights and remedies not affected.
- 445B.610 Provisions for transition in administration.

**PENALTIES**

- 445B.640 Levy and disposition of administrative fines; additional remedies available; penalty.

**TITLE 43 - CHAPTER 485 - MOTOR VEHICLES: INSURANCE AND FINANCIAL RESPONSIBILITY**

**GENERAL PROVISIONS**

- 485.050 Motor vehicle defined.

**TITLE 58 - CHAPTER 704 - REGULATION OF PUBLIC UTILITIES GENERALLY**

**CONSTRUCTION OF UTILITY FACILITIES: UTILITY ENVIRONMENTAL PROTECTION ACT**

- 704.820 Short title.
- 704.825 Declaration of legislative findings and purpose.
- 704.830 Definitions.
- 704.840 Commence to construct.
- 704.845 Local government.
- 704.850 Person.
- 704.855 Public Utility.
- 704.860 Utility facility.
- 704.865 Construction permit: Requirement; transfer; exceptions to requirement.
- 704.870 Construction permit application: Form, contents; filing; service; public notice.
- 704.875 Review of application by state environmental commission.
- 704.880 Hearing on application for permit.
- 704.885 Parties to permit proceeding; appearances; intervention.
- 704.890 Grant or denial of application; required findings; service of copies of order.
- 704.892 Grant, denial, conditioning of permit for plant for generation of electrical energy for export.
- 704.895 Rearing; judicial review.
- 704.900 Cooperation with United States, other states.

**GENERAL ORDER NO. 3- RULES OF PRACTICE AND PROCEDURE BEFORE THE PUBLIC SERVICE COMMISSION**

- Rule 25 Construction Permits- Utility Environmental Protection Act.

Approved Reference:	<b>State Implementation Plan Text of Statutes</b>	<b>FR<sup>2</sup></b>
NRS #		
<b>TITLE 0 - PRELIMINARY CHAPTER - GENERAL PROVISIONS</b>		
0.039	<p><b>“Person” defined.</b> Except as otherwise expressly provided in a particular statute or required by the context, “person” means a natural person, any form of business or social organization and any other nongovernmental legal entity including, but not limited to, a corporation, partnership, association, trust or unincorporated organization. The term does not include a government, governmental agency or political subdivision of a government. (Added to NRS by 1985, 499)</p>	71FR51766 8/31/2006
<b>TITLE 18, CHAPTER 232A – BOARDS, COMMISSIONS AND SIMILAR BODIES</b>		
232A.020	<p><b>Residency requirement for appointment; terms of members; vacancies; qualification of member appointed as representative of general public; gubernatorial appointee prohibited from serving on more than one board, commission or similar body.</b></p> <p>1. Except as otherwise provided in this section, a person appointed to a new term or to fill a vacancy on a board, commission or similar body by the Governor must have, in accordance with the provisions of NRS 281.050, actually, as opposed to constructively, resided, for the 6 months immediately preceding the date of the appointment:</p> <p>(a) In this State; and</p> <p>(b) If current residency in a particular county, district, ward, subdistrict or any other unit is prescribed by the provisions of law that govern the position, also in that county, district, ward, subdistrict or other unit.</p> <p>2. After the Governor’s initial appointments of members to boards, commissions or similar bodies, all such members shall hold office for terms of 3 years or until their successors have been appointed and have qualified.</p> <p>3. A vacancy on a board, commission or similar body occurs when a member dies, resigns, becomes ineligible to hold office or is absent from the State for a period of 6 consecutive months.</p> <p>4. Any vacancy must be filled by the Governor for the remainder of the unexpired term.</p> <p>5. A member appointed to a board, commission or similar body as a representative of the general public must be a person who:</p> <p>(a) Has an interest in and a knowledge of the subject matter which is regulated by the board, commission or similar body; and</p> <p>(b) Does not have a pecuniary interest in any matter which is within the jurisdiction of the board, commission or similar body.</p> <p>6. The Governor shall not appoint a person to a board, commission or similar body if the person is a member of any other board, commission or similar body.</p> <p>7. The provisions of subsection 1 do not apply if:</p> <p>(a) A requirement of law concerning another characteristic or status that a member must possess, including, without limitation, membership in another organization, would make it impossible to fulfill the provisions of subsection 1; or</p>	77FR64737 10/23/2012

<sup>2</sup>Effective March 13, 2012 (77 FR 14862), EPA redesignated 40 CFR § 52.1470 as § 52.1490. Before this date, all of the CFR citations in this document pointed to § 52.1470. The March 13, 2012 action reformatted the Nevada SIP recordation into table format. State regulations approved into the Nevada SIP after this date appear in a table maintained by EPA at 40 CFR § 52.1470(c). In this document, for further information on SIP revisions we provide the Federal Register notice citation for 9-27-12, 10-23-12 revisions.

	(b) The membership of the particular board, commission or similar body includes residents of another state and the provisions of subsection 1 would conflict with a requirement that applies to all members of that body. (Added to NRS by 1977, 1176; A 2005, 1581; 2011, 2992)		
<b>TITLE 23, CHAPTER 281A – ETHICS IN GOVERNMENT GENERAL PROVISIONS</b>			
281A.150	<b>“Public employee” defined.</b> “Public employee” means any person who performs public duties under the direction and control of a public officer for compensation paid by the State or any county, city or other political subdivision. (Added to NRS by 1985, 2121; A 2009, 1047)—(Substituted in revision for NRS 281.436)		77FR64737 10/23/2012
281A.160	<b>“Public officer” defined.</b> 1. “Public officer” means a person elected or appointed to a position which: (a) Is established by the Constitution of the State of Nevada, a statute of this State or a charter or ordinance of any county, city or other political subdivision; and (b) Involves the exercise of a public power, trust or duty. As used in this section, “the exercise of a public power, trust or duty” means: (1) Actions taken in an official capacity which involve a substantial and material exercise of administrative discretion in the formulation of public policy; (2) The expenditure of public money; and (3) The administration of laws and rules of the State or any county, city or other political subdivision. 2. “Public officer” does not include: (a) Any justice, judge or other officer of the court system; (b) Any member of a board, commission or other body whose function is advisory; (c) Any member of a special district whose official duties do not include the formulation of a budget for the district or the authorization of the expenditure of the district’s money; or (d) A county health officer appointed pursuant to NRS 439.290. 3. “Public office” does not include an office held by: (a) Any justice, judge or other officer of the court system; (b) Any member of a board, commission or other body whose function is advisory; (c) Any member of a special district whose official duties do not include the formulation of a budget for the district or the authorization of the expenditure of the district’s money; or (d) A county health officer appointed pursuant to NRS 439.290. (Added to NRS by 1985, 2121; A 1987, 2093; 1999, 883; 2001, 658, 1955, 2288; 2003, 116; 2005, 2302; 2009, 1047)—(Substituted in revision for NRS 281.4365)		77FR64737 10/23/2012
<b>CODE OF ETHICAL STANDARDS</b>			
281A.400	<b>General requirements; exceptions.</b> A code of ethical standards is hereby established to govern the conduct of public officers and employees:		77FR64737 10/23/2012

Approved Reference:	<b>State Implementation Plan Text of Statutes</b>		<b>FR<sup>2</sup></b>
NRS #	<p>1. A public officer or employee shall not seek or accept any gift, service, favor, employment, engagement, emolument or economic opportunity which would tend improperly to influence a reasonable person in the public officer’s or employee’s position to depart from the faithful and impartial discharge of the public officer’s or employee’s public duties.</p> <p>2. A public officer or employee shall not use the public officer’s or employee’s position in government to secure or grant unwarranted privileges, preferences, exemptions or advantages for the public officer or employee, any business entity in which the public officer or employee has a significant pecuniary interest, or any person to whom the public officer or employee has a commitment in a private capacity to the interests of that person. As used in this subsection:</p> <p>(a) “Commitment in a private capacity to the interests of that person” has the meaning ascribed to “commitment in a private capacity to the interests of others” in subsection 8 of NRS 281A.420.</p> <p>(b) “Unwarranted” means without justification or adequate reason.</p> <p>3. A public officer or employee shall not participate as an agent of government in the negotiation or execution of a contract between the government and any business entity in which the public officer or employee has a significant pecuniary interest.</p> <p>4. A public officer or employee shall not accept any salary, retainer, augmentation, expense allowance or other compensation from any private source for the performance of the public officer’s or employee’s duties as a public officer or employee.</p> <p>5. If a public officer or employee acquires, through the public officer’s or employee’s public duties or relationships, any information which by law or practice is not at the time available to people generally, the public officer or employee shall not use the information to further the pecuniary interests of the public officer or employee or any other person or business entity.</p> <p>6. A public officer or employee shall not suppress any governmental report or other document because it might tend to affect unfavorably the public officer’s or employee’s pecuniary interests.</p> <p>7. Except for State Legislators who are subject to the restrictions set forth in subsection 8, a public officer or employee shall not use governmental time, property, equipment or other facility to benefit the public officer’s or employee’s personal or financial interest. This subsection does not prohibit:</p> <p>(a) A limited use of governmental property, equipment or other facility for personal purposes if:</p> <ol style="list-style-type: none"> <li>(1) The public officer who is responsible for and has authority to authorize the use of such property, equipment or other facility has established a policy allowing the use or the use is necessary as a result of emergency circumstances;</li> <li>(2) The use does not interfere with the performance of the public officer’s or employee’s public duties;</li> <li>(3) The cost or value related to the use is nominal; and</li> <li>(4) The use does not create the appearance of impropriety;</li> </ol> <p>(b) The use of mailing lists, computer data or other information lawfully obtained from a governmental agency which is available to members of the general public for nongovernmental purposes; or</p> <p>(c) The use of telephones or other means of communication if there is not a special charge for that use.</p> <p>➤ If a governmental agency incurs a cost as a result of a use that is authorized pursuant to this subsection or would ordinarily charge a member of the general public for the use, the public officer or employee shall promptly reimburse the cost or pay the charge to the governmental agency.</p> <p>8. A State Legislator shall not:</p>

NRS #	<p>judgment of a reasonable person in the public officer’s situation would be materially affected by:</p> <ul style="list-style-type: none"> <li>(a) The public officer’s acceptance of a gift or loan;</li> <li>(b) The public officer’s pecuniary interest; or</li> <li>(c) The public officer’s commitment in a private capacity to the interests of others.</li> </ul> <p>4. In interpreting and applying the provisions of subsection 3:</p> <ul style="list-style-type: none"> <li>(a) It must be presumed that the independence of judgment of a reasonable person in the public officer’s situation would not be materially affected by the public officer’s pecuniary interest or the public officer’s commitment in a private capacity to the interests of others where the resulting benefit or detriment accruing to the public officer, or if the public officer has a commitment in a private capacity to the interests of others, accruing to the other persons, is not greater than that accruing to any other member of the general business, profession, occupation or group that is affected by the matter. The presumption set forth in this paragraph does not affect the applicability of the requirements set forth in subsection 1 relating to the disclosure of the pecuniary interest or commitment in a private capacity to the interests of others.</li> <li>(b) The Commission must give appropriate weight and proper deference to the public policy of this State which favors the right of a public officer to perform the duties for which the public officer was elected or appointed and to vote or otherwise act upon a matter, provided the public officer has properly disclosed the public officer’s acceptance of a gift or loan, the public officer’s pecuniary interest or the public officer’s commitment in a private capacity to the interests of others in the manner required by subsection 1. Because abstention by a public officer disrupts the normal course of representative government and deprives the public and the public officer’s constituents of a voice in governmental affairs, the provisions of this section are intended to require abstention only in clear cases where the independence of judgment of a reasonable person in the public officer’s situation would be materially affected by the public officer’s acceptance of a gift or loan, the public officer’s pecuniary interest or the public officer’s commitment in a private capacity to the interests of others.</li> </ul> <p>5. Except as otherwise provided in NRS 241.0355, if a public officer declares to the body or committee in which the vote is to be taken that the public officer will abstain from voting because of the requirements of this section, the necessary quorum to act upon and the number of votes necessary to act upon the matter, as fixed by any statute, ordinance or rule, is reduced as though the member abstaining were not a member of the body or committee.</p> <p>6. The provisions of this section do not, under any circumstances:</p> <ul style="list-style-type: none"> <li>(a) Prohibit a member of a local legislative body from requesting or introducing a legislative measure; or</li> <li>(b) Require a member of a local legislative body to take any particular action before or while requesting or introducing a legislative measure.</li> </ul> <p>7. The provisions of this section do not, under any circumstances, apply to State Legislators or allow the Commission to exercise jurisdiction or authority over State Legislators. The responsibility of a State Legislator to make disclosures concerning gifts, loans, interests or commitments and the responsibility of a State Legislator to abstain from voting upon or advocating the passage or failure of a matter are governed by the Standing Rules of the Legislative Department of State Government which are adopted, administered and enforced exclusively by the appropriate bodies of the Legislative Department of State Government pursuant to Section 6 of Article 4 of the Nevada Constitution.</p> <p>8. As used in this section:</p> <ul style="list-style-type: none"> <li>(a) “Commitment in a private capacity to the interests of others” means a commitment to a person:</li> </ul>

445B.210 (Supersedes 455.461)	<b>Powers of Commission.</b> The Commission may: 1. Subject to the provisions of NRS 445B.215, adopt regulations consistent with the general intent and purposes of NRS 445B.100 to 445B.640, inclusive, to prevent, abate and control air pollution. 2. Establish standards for air quality. 3. Require access to records relating to emissions which cause or contribute to air pollution. 4. Cooperate with other governmental agencies, including other states and the Federal Government. 5. Establish such requirements for the control of emissions as may be necessary to prevent, abate or control air pollution. 6. By regulation: (a) Designate as a hazardous air pollutant any substance which, on or after October 1, 1993, is on the federal list of hazardous air pollutants pursuant to 42 U.S.C. § 7412(b); and (b) Delete from designation as a hazardous air pollutant any substance which, after October 1, 1993, is deleted from the federal list of hazardous air pollutants pursuant to 42 U.S.C. § 7412(b), ↳ based upon the Commission’s determination of the extent to which such a substance presents a risk to the public health. 7. Hold hearings to carry out the provisions of NRS 445B.100 to 445B.640, inclusive, except as otherwise provided in those sections. 8. Establish fuel standards for both stationary and mobile sources of air contaminants. Fuel standards for mobile sources of air contaminants must be established to achieve air quality standards that protect the health of the residents of the State of Nevada. 9. Require elimination of devices or practices which cannot be reasonably allowed without generation of undue amounts of air contaminants. (Added to NRS by 1971, 1193; A 1973, 1813; 1993, 2852; 1997, 3230)	73FR38124 07/03/2008
445B.220 (Supersedes 445.471)	<b>Additional powers of Commission.</b> In carrying out the purposes of NRS 445B.100 to 445B.640, inclusive, the Commission, in addition to any other action which may be necessary or appropriate to carry out such purposes, may: 1. Cooperate with appropriate federal officers and agencies of the Federal Government, other states, interstate agencies, local governmental agencies and other interested parties in all matters relating to air pollution control in preventing or controlling the pollution of the air in any area. 2. Recommend measures for control of air pollution originating in this state. (Added to NRS by 1971, 1194; A 1973, 1814)—(Substituted in revision for NRS 445.471)	71FR51766 8/31/2006
445B.225 (Supersedes	<b>Power of Commission to require testing of sources.</b> The Commission may require the monitoring or source tests of existing or new stationary sources which can emit an air contaminant.	71FR51766 8/31/2006

NRS #	<p>not attended or testified or produced the books or papers in the hearing. A certified copy of the order shall be served upon the witness. If it appears to the court that the subpoena was regularly issued by the chairman, the court shall thereupon enter an order that the witness appear in the hearing at the time and place fixed in the order and testify or produce the required books or papers, and upon a failure to obey the order the witness shall be dealt with as for contempt of court.</p> <p>4. Witnesses may be compensated in the amounts provided in NRS 50.225. (Added to NRS by 1971, 1195; A 1973, 1816)—(Substituted in revision for NRS 445.486)</p>		
<b>PROVISIONS FOR ENFORCEMENT</b>			
<p>445B.300 (Supersedes 445.491)</p>	<p><b>Operating permit for source of air contaminant; notice and approval of proposed construction; administrative fees; failure of Commission or Department to act.</b></p> <p>1. The Commission shall by regulation:</p> <p>(a) Require the person operating or responsible for the existence of each source of air contaminant, generally or within a specified class or classes, to apply for and obtain an operating permit for the source.</p> <p>(b) Require that written notice be given to the Director before the construction, installation, alteration or establishment of any source of air contaminant or of any specified class or classes of such sources, or the alteration of any device intended primarily to prevent or reduce air pollution. If within the time prescribed by regulation the Director determines that:</p> <p>(1) The proposed construction, installation, alteration or establishment will not be in accordance with the provisions of the plans, specifications and other design material required to be submitted under NRS 445B.100 to 445B.640, inclusive, or applicable regulations; or</p> <p>(2) The design material or the construction itself is of such a nature that it patently cannot bring such source into compliance with NRS 445B.100 to 445B.640, inclusive, or applicable regulations,  ↳ the Director shall issue an order prohibiting the construction, installation, alteration or establishment of the source or sources of air contaminant.</p> <p>2. The Commission shall by regulation provide for:</p> <p>(a) The issuance, renewal, modification, revocation and suspension of operating permits, and charge appropriate fees for their issuance in an amount sufficient to pay the expenses of administering NRS 445B.100 to 445B.640, inclusive, and any regulations adopted pursuant to those sections.</p> <p>(b) The issuance of authorizations for the issuance of building permits pursuant to paragraph (a) of subsection 2 of NRS 445B.320.</p> <p>3. Any failure of the Commission or the Department to issue a regulation or order to prohibit any act does not relieve the person so operating from any legal responsibility for the construction, operation or existence of the source of air contaminant.</p> <p>4. All administrative fees collected by the Commission pursuant to subsection 2 must be accounted for separately and deposited in the State General Fund for credit to the Account for the Management of Air Quality. This subsection does not apply to any fees collected by political subdivisions or their agencies.</p> <p>(Added to NRS by 1971, 1196; A 1973, 1816; 1993, 2853)—(Substituted in revision for NRS 445.491)</p>		<p>71FR51766 8/31/2006</p>
<p>445B.310 (Supersedes 445.493)</p>	<p><b>Limitations on enforcement of federal and state regulations concerning indirect sources.</b></p> <p>1. If any federal regulations relating to indirect sources become effective after January 17, 1977, the authority of a state agency to review new indirect sources may be exercised only:</p>		<p>74FR15219 04/03/2009</p>

NRS #			
	<p>(a) In the enforcement of those federal regulations; and            (b) To the extent enforcement by the state agency is required by the Federal Act.</p> <p>2. The local air pollution control agency may enforce within its jurisdiction against existing indirect sources any federal or state regulations relating to indirect sources or any regulations it adopts relating to indirect sources, to the extent that:</p> <p>(a) Local enforcement is not inconsistent with the requirements of any federal law or regulation; and            (b) Enforcement is necessary to comply with the federal standards for ambient air quality.</p> <p>(Added to NRS by 1975, 1781; A 1977, 1559; 1981, 1539; 1985, 290; 1991, 1380)—(Substituted in revision for NRS 445.493)</p>		
445B.320 (Supersedes 445.496)	<p><b>Approval of plans and specifications required before construction or alteration of structure.</b></p> <p>1. The Commission shall require, with respect to all sources of air contaminant, including indirect sources, that plans, specifications and such other information as the Commission may direct be submitted to the Director not later than a specified interval before the construction or alteration of a building or other structure if such construction or alteration includes the establishment or alteration of a source or indirect source of air contaminant.</p> <p>2. The local government authority, if any, responsible for issuing any required building permit shall not issue such building permit:</p> <p>(a) Until the Department has given its authorization therefor, pursuant to regulation of the Commission.            (b) If a stop order prohibiting such construction or alteration has been issued.</p> <p>(Added to NRS by 1971, 1197; A 1973, 1817; 1977, 1559; 1993, 2854)—(Substituted in revision for NRS 445.496)</p>		71FR51766 8/31/2006
445B.340 (Supersedes 445.498)	<p><b>Appeals to Commission: Notice of appeal.</b> A party aggrieved may file notice of appeal with the Commission within 10 days after the date of notice of action of the Department, except as otherwise provided by law.</p> <p>(Added to NRS by 1973, 1809)—(Substituted in revision for NRS 445.498)</p>		72FR11 01/03/2007
445B.350 (Supersedes 445.499)	<p><b>Appeals to Commission: Hearings.</b></p> <p>1. Within 20 days after receipt of the notice of appeal provided for in NRS 445B.340, the Commission shall hold a hearing.            2. Notice of the hearing shall be given to all affected parties no less than 5 days prior to the date set for the hearing.            3. The Commission may sit en banc or in panels of three or more to conduct hearings.            4. The attendance of witnesses and the production of documents may be subpoenaed by the Commission at the request of any party. Witnesses shall receive the fees and mileage allowed witnesses in civil cases. Costs of subpoenas shall be taxed against the requesting party.            5. All testimony shall be given under oath, and recorded verbatim by human or electronic means.            6. For the purpose of judicial review under NRS 445B.560, the parties may agree upon a statement of facts in lieu of a transcript of testimony.            7. Costs of transcribing proceedings of the Commission shall be taxed against the requesting party.</p> <p>(Added to NRS by 1973, 1809)—(Substituted in revision for NRS 445.499)</p>		72FR11 01/03/2007
445B.360 (Supersedes 445.501)	<p><b>Appeals to Commission: Appealable matters; action by Commission; regulations.</b></p> <p>1. Any person aggrieved by:</p> <p>(a) The issuance, denial, renewal, modification, suspension or revocation of an operating permit; or            (b) The issuance, modification or rescission of any other order,</p> <p>↳ by the Director may appeal to the Commission.</p>		72FR11 01/03/2007

	2. The Commission shall affirm, modify or reverse any action taken by the Director which is the subject of the appeal. 3. The Commission shall provide by regulation for the time and manner in which appeals are to be taken to the Commission. (Added to NRS by 1971, 1197; A 1973, 1818; 1977, 69; 1993, 2854)—(Substituted in revision for NRS 445.501)		
<b>VIOLATIONS</b>			
445B.450 (Supersedes 445.526)	<b>Notice and order by Director; hearing; alternative procedures.</b> 1. Whenever the Director believes that a statute or regulation for the prevention, abatement or control of air pollution has been violated, he shall cause written notice to be served upon the person or persons responsible for the alleged violation. 2. The notice shall specify: (a) The statute or regulation alleged to be violated; and (b) The facts alleged to constitute the violation. 3. The notice may include an order to take corrective action within a reasonable time, which shall be specified. Such an order becomes final unless, within 10 days after service of the notice, a person named in the order requests a hearing before the Commission. 4. With or without the issuance of an order pursuant to subsection 3, or if corrective action is not taken within the time specified: (a) The Director may notify the person or persons responsible for the alleged violation to appear before the Commission at a specified time and place; or (b) The Commission may initiate proceedings for recovery of the appropriate penalty. 5. Nothing in this section prevents the Commission or the Director from making efforts to obtain voluntary compliance through warning, conference or other appropriate means. (Added to NRS by 1971, 1198; A 1973, 1818; 1975, 1405)—(Substituted in revision for NRS 445.526)		72FR11 01/03/2007
445B.460 (Supersedes 445.529)	<b>Injunctive relief.</b> 1. If, in the judgment of the Director, any person is engaged in or is about to engage in any act or practice which constitutes or will constitute a violation of any provision of NRS 445B.100 to 445B.640, inclusive, or any rule, regulation, order or operating permit issued pursuant to NRS 445B.100 to 445B.640, inclusive, the Director may request that the Attorney General apply to the district court for an order enjoining the act or practice, or for an order directing compliance with any provision of NRS 445B.100 to 445B.640, inclusive, or any rule, regulation, order or operating permit issued pursuant to NRS 445B.100 to 445B.640, inclusive. 2. If, in the judgment of the control officer of a local air pollution control board, any person is engaged in or is about to engage in such an act or practice, the control officer may request that the district attorney of the county in which the act or practice is being engaged in or is about to be engaged in apply to the district court for such an order. 3. Upon a showing by the Director or the control officer that a person has engaged in or is about to engage in any such act or practice, a permanent or temporary injunction, restraining order or other appropriate order may be granted by the court. (Added to NRS by 1973, 1809; A 1993, 2854; 2001, 1295)		72FR11 01/03/2007
<b>PROGRAM FOR CONTROL OF AIR POLLUTION</b>			
445B.500 (Supersedes 445.546)	<b>Establishment and administration of program; contents of program; designation of air pollution control agency of county for purposes of federal act; powers and duties of local air pollution control board; notice of public hearings; delegation of authority to determine violations and levy administrative penalties; cities and smaller counties; regulation of certain electric plants prohibited.</b>		77FR64737 10/23/2012

NRS #			
	<p>1. Except as otherwise provided in this section and in NRS 445B.310:</p> <p>(a) The district board of health, county board of health or board of county commissioners in each county whose population is 100,000 or more shall establish a program for the control of air pollution and administer the program within its jurisdiction unless superseded.</p> <p>(b) The program:</p> <p>(1) Must include, without limitation, standards for the control of emissions, emergency procedures and variance procedures established by ordinance or local regulation which are equivalent to or stricter than those established by statute or state regulation;</p> <p>(2) May, in a county whose population is 700,000 or more, include requirements for the creation, receipt and exchange for consideration of credits to reduce and control air contaminants in accordance with NRS 445B.508; and</p> <p>(3) Must provide for adequate administration, enforcement, financing and staff.</p> <p>(c) The district board of health, county board of health or board of county commissioners is designated as the air pollution control agency of the county for the purposes of NRS 445B.100 to 445B.640, inclusive, and the Federal Act insofar as it pertains to local programs, and that agency is authorized to take all action necessary to secure for the county the benefits of the Federal Act.</p> <p>(d) Powers and responsibilities provided for in NRS 445B.210, 445B.240 to 445B.470, inclusive, 445B.560, 445B.570, 445B.580 and 445B.640 are binding upon and inure to the benefit of local air pollution control authorities within their jurisdiction.</p> <p>2. The local air pollution control board shall carry out all provisions of NRS 445B.215 with the exception that notices of public hearings must be given in any newspaper, qualified pursuant to the provisions of chapter 238 of NRS, once a week for 3 weeks. The notice must specify with particularity the reasons for the proposed regulations and provide other informative details. NRS 445B.215 does not apply to the adoption of existing regulations upon transfer of authority as provided in NRS 445B.610.</p> <p>3. In a county whose population is 700,000 or more, the local air pollution control board may delegate to an independent hearing officer or hearing board its authority to determine violations and levy administrative penalties for violations of the provisions of NRS 445B.100 to 445B.450, inclusive, and 445B.500 to 445B.640, inclusive, or any regulation adopted pursuant to those sections. If such a delegation is made, 17.5 percent of any penalty collected must be deposited in the county treasury in an account to be administered by the local air pollution control board to a maximum of \$17,500 per year. The money in the account may only be used to defray the administrative expenses incurred by the local air pollution control board in enforcing the provisions of NRS 445B.100 to 445B.640, inclusive. The remainder of the penalty must be deposited in the county school district fund of the county where the violation occurred and must be accounted for separately in the fund. A school district may spend the money received pursuant to this section only in accordance with an annual spending plan that is approved by the local air pollution control board and shall submit an annual report to that board detailing the expenditures of the school district under the plan. A local air pollution control board shall approve an annual spending plan if the proposed expenditures set forth in the plan are reasonable and limited to:</p> <p>(a) Programs of education on topics relating to air quality; and</p> <p>(b) Projects to improve air quality, including, without limitation, the purchase and installation of equipment to retrofit school buses of the school district to use biodiesel, compressed natural gas or a similar fuel formulated to reduce emissions from the amount of emissions produced by the use of traditional fuels such as gasoline and diesel fuel,</p> <p>↳ which are consistent with the state implementation plan adopted by this State pursuant to 42 U.S.C. §§ 7410 and 7502.</p>

	<p>4. Any county whose population is less than 100,000 or any city may meet the requirements of this section for administration and enforcement through cooperative or interlocal agreement with one or more other counties, or through agreement with the State, or may establish its own program for the control of air pollution. If the county establishes such a program, it is subject to the approval of the Commission.</p> <p>5. No district board of health, county board of health or board of county commissioners may adopt any regulation or establish a compliance schedule, variance order or other enforcement action relating to the control of emissions from plants which generate electricity by using steam produced by the burning of fossil fuel.</p> <p>6. As used in this section, “plants which generate electricity by using steam produced by the burning of fossil fuel” means plants that burn fossil fuels in a boiler to produce steam for the production of electricity. The term does not include any plant which uses technology for a simple or combined cycle combustion turbine, regardless of whether the plant includes duct burners.</p> <p>(Added to NRS by 1971, 1199; A 1973, 1819; 1975, 1126, 1782; 1977, 1559; 1979, 546; 1985, 291; 1991, 2161; 1993, 175; 1997, 1999; 1999, 1976; 2001, 1296, 1515; 2003, 44; 2007, 319; 2011, 1262)</p>	
445B.503	<p><b>Local air pollution control board in county whose population is 700,000 or more: Cooperation with regional planning coalition and regional transportation commission; prerequisites to adoption or amendment of plan, policy or program.</b></p> <p>1. In addition to the duties set forth in NRS 445B.500, the local air pollution control board in a county whose population is 700,000 or more shall cooperate with the regional planning coalition and the regional transportation commission in the county in which it is located to:</p> <p>(a) Ensure that the plans, policies and programs adopted by each of them are consistent to the greatest extent practicable.</p> <p>(b) Establish and carry out a program of integrated, long-range planning that conserves the economic, financial and natural resources of the region and supports a common vision of desired future conditions.</p> <p>2. Before adopting or amending a plan, policy or program, a local air pollution control board shall:</p> <p>(a) Consult with the regional planning coalition and the regional transportation commission; and</p> <p>(b) Conduct hearings to solicit public comment on the consistency of the plan, policy or program with:</p> <p>(1) The plans, policies and programs adopted or proposed to be adopted by the regional planning coalition and the regional transportation commission; and</p> <p>(2) Plans for capital improvements that have been prepared pursuant to NRS 278.0226.</p> <p>3. As used in this section:</p> <p>(a) “Local air pollution control board” means a board that establishes a program for the control of air pollution pursuant to NRS 445B.500.</p> <p>(b) “Regional planning coalition” has the meaning ascribed to it in NRS 278.0172.</p> <p>(c) “Regional transportation commission” means a regional transportation commission created and organized in accordance with chapter 277A of NRS.</p> <p>(Added to NRS by 1999, 1975; A 2011, 1264)</p>	77FR64737 10/23/2012
445B.510 (Supersedes 445.551)	<p><b>Commission may require program for designated area.</b></p> <p>1. If the Commission finds that:</p> <p>(a) The location, character or extent of particular concentrations of population or sources of air contaminant;</p>	71FR51766 8/31/2006

NRS #		
	<p>(b) Geographic, topographic or meteorological considerations; or  (c) Any combination of these factors,  ↳ makes impracticable the maintenance of appropriate levels of air quality without an areawide air pollution control program, it shall after a public hearing define the area so affected.</p> <p>2. If an areawide air pollution control program is not established by cooperative or interlocal agreement within a time specified by the Commission, the Commission shall establish such a program, which shall be a charge on the counties, and may supersede any local program within the area.  (Added to NRS by 1971, 1200)—(Substituted in revision for NRS 445.551)</p>	
445B.520 (Supersedes 445.556)	<p><b>Commission may establish or supersede county program.</b></p> <p>1. If a county required to establish or participate in an air pollution control program fails to do so, or if the Commission believes that a program previously approved is inadequate, it shall hold a public hearing. If it finds that an adequate program has not been adopted or that a program has become inadequate, it shall fix a time within which necessary corrective measures are to be taken.</p> <p>2. If the prescribed measures are not so taken, the Commission shall direct the Department to administer an adequate air pollution control program within the county, which shall be a charge on the county, and may supersede any existing county air pollution control program.  (Added to NRS by 1971, 1200; A 1973, 1820)—(Substituted in revision for NRS 445.556)</p>	71FR51766 8/31/2006
445B.530 (Supersedes 445.561)	<p><b>Commission may assume jurisdiction over specific classes of air contaminants.</b></p> <p>1. If the Commission finds that the control of a particular class of sources of air contaminant because of its complexity or magnitude is beyond the reasonable capability of one or more local air pollution control authorities, it may assume and retain jurisdiction over that class in the county or counties so affected.</p> <p>2. Sources may be classified for the purpose of this section on the basis of their nature or their size relative to the county in which they are located.  (Added to NRS by 1971, 1200)—(Substituted in revision for NRS 445.561)</p>	71FR51766 8/31/2006
445B.540 (Supersedes 445.566)	<p><b>Restoration of superseded local program; continuation of existing local program.</b></p> <p>1. A county or area whose local jurisdiction over air pollution control has been superseded may establish or restore a local air pollution control program if such program is approved as adequate by the Commission.</p> <p>2. A district, county or city which has an air pollution control program in operation on July 1, 1971, may continue its program if within 1 year after July 1, 1971, the program is approved as adequate by the Commission. Such approval shall be deemed granted unless the Commission specifically disapproves the program after a public hearing. Nothing in NRS 445B.100 to 445B.640, inclusive, is to be construed as invalidating any rule, regulation, enforcement action, variance, permit, cease and desist order, compliance schedule, or any other legal action taken by any existing air pollution control authority pursuant to former NRS 445.400 to 445.595, inclusive, on or before July 1, 1971, unless it is specifically repealed, superseded or disapproved, pursuant to NRS 445B.215.  (Added to NRS by 1971, 1200)—(Substituted in revision for NRS 445.566)</p>	71FR51766 8/31/2006
<b>MISCELLANEOUS PROVISIONS</b>		
445B.560	<b>Plan or procedure for emergency.</b>	71FR51766

Approved Reference:	<b>State Implementation Plan Text of Statutes</b>	<b>FR<sup>2</sup></b>
NRS #		
(Supersedes 445.571)	<p>1. The Commission may provide by rules and regulations for alert, warning, and emergency standards and abatement procedures relative to air pollution episodes or emergencies constituting, or likely to constitute, an imminent and substantial danger to the health of persons.</p> <p>2. Any person responsible for the operation of a source of air contaminants which is designated by the Director shall prepare and submit emergency plans for reducing or eliminating the emissions of air contaminants during such periods of air stagnation or air pollution episodes or emergencies as may be declared by the Director. The emergency plans shall be subject to review and approval by the Director. If, in the opinion of the Director, an emergency plan does not effectively carry out the objective of reducing or eliminating the emissions of air contaminants during periods of air stagnation or air pollution episodes or emergencies, the Director shall disapprove it, state the reason for disapproval, and order the preparation and submission of an amended emergency plan within the time period specified in the order. If an approvable emergency plan is not prepared and submitted within the time period specified in the order, the Director shall issue an emergency plan applicable to that person. Persons subject to the emergency plan shall obey the plan during periods of air stagnation or air pollution episodes or emergencies declared by the Director. The provisions of NRS 445B.360 with respect to appeals do not apply to this subsection.</p> <p>3. Any other provisions of law to the contrary notwithstanding, if the Director finds that a generalized condition of air pollution exists or that emissions from one or more air contaminant sources occur and that the condition or sources create, or are likely to create, an imminent and substantial danger to health requiring immediate action to protect human health and safety, the Director shall order persons causing or contributing to the air pollution or responsible for the operation of the source to reduce or discontinue immediately the emission of air contaminants. Any person subject to the order may appeal directly to the district court or request a hearing before the Commission.</p> <p>4. This section does not limit any power of any other state officer to declare an emergency and to act on the basis of such declaration. (Added to NRS by 1971, 1201; A 1973, 1820)—(Substituted in revision for NRS 445.571)</p>	8/31/2006
445B.570 (Supersedes 445.576)	<p><b>Confidentiality and use of information obtained by Department; penalty.</b></p> <p>1. Any information which the Department obtains in the course of the performance of its duties pursuant to the provisions of this chapter is public information unless otherwise designated as confidential information pursuant to the provisions of this section.</p> <p>2. The emission of an air contaminant which has an ambient air quality standard or emission standard or has been designated as a hazardous air pollutant by regulation of the Commission cannot be certified as being confidential.</p> <p>3. Any confidential information received by the Commission, the Director or any local control authority which is certified in writing to the recipient as confidential by the owner or operator disclosing the information and verified and approved in writing as confidential by the recipient must, unless the owner expressly agrees to its publication or availability to the public, be used only:</p> <p>(a) In the administration or formulation of air pollution controls;</p> <p>(b) In compiling or publishing analyses or summaries relating to the condition of the outdoor atmosphere which do not identify any owner or operator or reveal any confidential information; or</p> <p>(c) In complying with federal statutes, rules and regulations.</p> <p>4. This section does not prohibit the use of confidential information in a prosecution for the violation of any statute, ordinance or regulation for the control of air pollution.</p> <p>5. A person who discloses or knowingly uses confidential information in violation of this section is guilty of a misdemeanor, and is liable in tort for any damages which may result from such disclosure or use.</p> <p>6. As used in this section, “confidential information” means information or records which:</p>	72FR11 01/03/2007

NRS #		
	<p>(a) Relate to dollar amounts of production or sales;            (b) Relate to processes or production unique to the owner or operator; or            (c) If disclosed, would tend to affect adversely the competitive position of the owner or operator.            (Added to NRS by 1971, 1201; A 1973, 1821; 1975, 1405; 1993, 2855)—(Substituted in revision for NRS 445.576)</p>	
445B.580 (Supersedes 445.581)	<p><b>Officer of Department may inspect or search premises; search warrant.</b>            1. It is a condition of the issuance of any operating permit required by the Commission or pursuant to any local ordinance for the control of air pollution that the holder of the operating permit agrees to permit inspection of the premises to which the permit relates by any authorized officer of the Department at any time during the holder's hours of operation without prior notice. This condition must be stated on each application form and operating permit.            2. If a source of air contaminant exists or is constructed or operated without an operating permit, such an officer may inspect it at any reasonable time, and may enter any premises to search for such a source. If entry is refused, or before attempting to enter, such an officer may apply to any magistrate for a search warrant. The magistrate shall issue the warrant if he believes from the supporting affidavit or affidavits that there is probable cause to believe that a source of air contaminant exists or is being constructed or operated on the premises to be searched.            (Added to NRS by 1971, 1202; A 1973, 1822; 1993, 2855)—(Substituted in revision for NRS 445.581)</p>	72FR11 01/03/2007
445B.595 (Supersedes 445.586)	<p><b>Governmental sources of air contaminants to comply with state and local provisions regarding air pollution; permit to set fire for training purposes; planning and zoning agencies to consider effects on quality of air.</b>            1. Except as otherwise provided by subsection 2, all governmental sources of air contaminants shall comply with all local and state air pollution laws, regulations and ordinances.            2. A fire department, county fire protection district, fire protection training academy or training center may, after obtaining a permit for a specific site, set a fire at that site for training purposes so long as the site is not within an area in which an air pollution episode or emergency constituting, or likely to constitute, an imminent and substantial danger to the health of persons exists. The permit must be obtained from:                (a) The county air pollution control agency, if one has been designated pursuant to NRS 445B.500; or                (b) The Director, if an agency has not been so designated.            3. All planning commissions, zoning boards of adjustment, and governing bodies of unincorporated towns, incorporated cities and counties shall in the performance of their duties imposed by chapter 278 of NRS or other statutes relating to planning and zoning consider the effects of possible air pollution and shall submit to the Department for evaluation a concise statement of the effects on air quality by complex sources.            (Added to NRS by 1971, 1202; A 1973, 1822; 1975, 1406; 1989, 584)—(Substituted in revision for NRS 445.586)</p>	71FR51766 8/31/2006
445B.600 (Supersedes 445.596)	<p><b>Private rights and remedies not affected.</b> NRS 445B.100 to 445B.595, inclusive, does not abridge, limit, impair, create, enlarge or otherwise affect substantively or procedurally the right of any person to damages or other relief on account of injury to persons or property and to maintain any action or other appropriate proceeding therefor in the courts of this state or the courts of the United States on a tort claim against the United States or a federal agency as authorized by federal statutes.            (Added to NRS by 1971, 1202; A 1985, 292)—(Substituted in revision for NRS 445.596)</p>	72FR11 01/03/2007

NRS #			
445B.610 (Supersedes 445.598)	<p><b>Provisions for transition in administration.</b></p> <p>1. All rules, regulations and standards promulgated by the State Commission of Environmental Protection pertaining to air pollution control in force on July 1, 1973, shall remain in effect until such time as revised by the State Environmental Commission pursuant to NRS 445B.100 to 445B.640, inclusive.</p> <p>2. Any and all action taken by the State Commission of Environmental Protection, including but not limited to existing orders, notices of violation, variances, permits, cease and desist orders and compliance schedules, shall remain in full force and effect and binding upon the State Environmental Commission, the Director, the Department and all persons to whom such action may apply on or after July 1, 1973.</p> <p>3. In the event that a local air pollution control program described in NRS 445B.500 is transferred in whole or in part from an existing air pollution control agency to another agency, all rules and regulations adopted by the existing agency may be readopted as amended to reflect the transfer of authorities by the new agency immediately upon such transfer, and the provisions of NRS 445B.215 shall not apply to such readoption.</p> <p>4. If a transfer of local authority as described in subsection 3 occurs, all orders, notices of violation, variances, cease and desist orders, compliance schedules and other legal action taken by the existing air pollution control board, control officer, or hearing board shall remain in full force and effect, and shall not be invalidated by reason of such transfer. (Added to NRS by 1973, 1810)—(Substituted in revision for NRS 445.598)</p>		72FR11 01/03/2007
<b>PENALTIES</b>			
445B.640 (Supersedes 445.601)	<p><b>Levy and disposition of administrative fines; additional remedies available; penalty.</b></p> <p>1. Except as otherwise provided in subsection 4 and NRS 445C.010 to 445C.120, inclusive, any person who violates any provision of NRS 445B.100 to 445B.450, inclusive, and 445B.470 to 445B.640, inclusive, or any regulation in force pursuant thereto, other than NRS 445B.570 on confidential information, is guilty of a civil offense and shall pay an administrative fine levied by the Commission of not more than \$10,000 per day per offense. Each day of violation constitutes a separate offense.</p> <p>2. The Commission shall by regulation establish a schedule of administrative fines not exceeding \$500 for lesser violations of any provision of NRS 445B.100 to 445B.450, inclusive, and 445B.470 to 445B.640, inclusive, or any regulation in force pursuant thereto.</p> <p>3. Action pursuant to subsection 1 or 2 is not a bar to enforcement of the provisions of NRS 445B.100 to 445B.450, inclusive, and 445B.470 to 445B.640, inclusive, regulations in force pursuant thereto, and orders made pursuant to NRS 445B.100 to 445B.450, inclusive, and 445B.470 to 445B.640, inclusive, by injunction or other appropriate remedy, and the Commission or the Director may institute and maintain in the name of the State of Nevada any such enforcement proceedings.</p> <p>4. Any person who fails to pay a fine levied pursuant to subsection 1 or 2 within 30 days after the fine is imposed is guilty of a misdemeanor. The provisions of this subsection do not apply to persons found by the court to be indigent.</p> <p>5. All administrative fines collected by the Commission pursuant to this section must be deposited in the county school district fund of the county where the violation occurred. (Added to NRS by 1971, 1202; A 1973, 1822; 1975, 1406; 1977, 70; 1989, 736; 1993, 2856; 1997, 1080)</p>		72FR11 01/03/2007

 445B.091 Local air pollution control agency defined.  
 Art. 1-Definitions: No. 2-LAER  
 Lowest achievable emission rate.  
 445B.093 Major modification defined.  
 445B.094 Major source defined.  
 445B.0945 Major stationary source defined.  
 445B.095 Malfunction defined.  
 445B.097 Maximum allowable throughput defined.  
 445B.099 Modification defined.  
 445B.103 Monitoring device defined.  
 445B.104 Motor vehicle defined.  
 445B.106 Multiple-chamber incinerator defined.  
 445B.107 Nearby defined.  
 Art. 1.114 New source.  
 445B.108 New stationary source defined.  
 445B.109 Nitrogen oxides defined.  
 445B.112 Nonattainment area defined.  
 445B.113 Nonroad engine defined.  
 445B.1135 Nonroad vehicle defined.  
 445B.116 Odor defined.

445B.117 Offset defined.  
 445B.119 One-hour period defined.  
 445B.121 Opacity defined.  
 445B.122 Open burning defined.  
 445B.123 Operating permit defined.  
 445B.124 Operating permit to construct defined.  
 445B.125 Ore defined.  
 445B.127 Owner or operator defined.  
 445B.129 Particulate matter defined.  
 445B.130 Pathological wastes defined.  
 445B.134 Person defined.  
 445.565 Petroleum defined.  
 445B.1345 Plantwide applicability limitation defined.  
 445B.135 PM (10) defined.  
 Art. 1.131 Point source.  
 445.570 Portland cement plant defined.  
 445B.138 Potential to emit defined.  
 445.574 Precious metal defined.  
 445.575 Precious metal processing plant defined.  
 445B.142 Prevention of significant deterioration of air quality defined.  
 445B.144 Process equipment defined.  
 445B.145 Process weight defined.  
 445.585 Process weight rate defined.  
 445B.147 Program defined.  
 445B.151 Reference conditions defined.  
 445B.152 Reference method defined.  
 445.592 Registration certificate defined.  
 445B.153 Regulated air pollutant defined.  
 445B.154 Renewal of an operating permit defined.  
 445B.156 Responsible official defined.  
 445B.157 Revision of an operating permit defined.  
 445.597 Roaster defined.  
 445B.161 Run defined.  
 445B.163 Salvage operation defined.  
 445B.167 Shutdown defined.  
 445B.168 Single-chamber incinerator defined.  
 Art. 1.171 Single source.  
 445B.172 Six-minute period defined.  
 445.618 Slag defined.  
 445B.174 Smoke defined.  
 445B.176 Solid waste defined.  
 445B.177 Source defined.  
 445B.179 Special mobile equipment defined.  
 445B.180 Stack and chimney defined.  
 445B.182 Standard defined.  
 445B.185 Start-up defined.  
 445B.187 Stationary source defined.  
 445B.190 Stop order defined.  
 445.633 Submerged fill pipe defined.  
 445B.194 Temporary source defined.  
 445B.198 Uncombined water defined.  
 445B.200 Violation defined.  
 445B.202 Volatile organic compound defined.  
 445B.205 Waste defined.  
 445B.207 Wet garbage defined.

445B.209 Year defined.  
445B.211 Abbreviations.

### General Provisions

445B.220 Severability.  
445B.22017 Visible emissions: Maximum opacity; determination.  
445B.2202 Visible emissions: Exceptions for stationary sources.  
Art. 16.3.3 Standard for opacity  
Art. 16.3.3.2 No person shall cause, suffer, allow, or permit the discharge from any clinker cooler which exhibit greater than 10 percent opacity  
Art. 16.3.3.3 On or after the date on which the performance test required by Article 2.6 is completed . . .  
445.729 Process weight rate for calculating emission rates.  
445.730 Colemanite flotation processing plants.  
445B.22027 Emissions of particulate matter: Maximum allowable throughput for calculating emissions rates.  
445B.2203 Emissions of particulate matter: Fuel-burning equipment.  
445B.22033 Emissions of particulate matter: Sources not otherwise limited.  
445B.22037 Emissions of particulate matter: Fugitive dust.  
Art. 7.2.5.1 The maximum allowable weight of particulates which may be discharged per hour from the first barite grinding mill  
445.808 1. This section applies to those systems of the facilities described in subsection 2 . . .  
445.816 1. This section applies to those systems of the facilities described in subsection 2 . . .  
Art. 8.2.1 No person shall cause, suffer, allow or permit the emission of sulfur compounds . . .  
Art. 8.2.2 For purposes of Article 8, "sulfur emission" means . . .  
445B.2204 Sulfur emission defined.  
445B.22043 Sulfur emissions: Calculation of total feed sulfur.  
445B.22047 Sulfur emissions: Fuel-burning equipment.  
445B.2205 Sulfur emissions: Other processes which emit sulfur.  
445B.22067 Open burning.  
445B.2207 Incinerator burning.  
445B.22083 Construction, major modification or relocation of plants to generate electricity using steam produced by burning of fossil fuels.  
445B.2209 Reduction of animal matter.  
445B.22093 Organic solvents and other volatile compounds.  
445B.22095 Emission limitation for BART.  
445B.22096 Control measures constituting BART; limitations on emissions.  
445B.22097 Standards of quality for ambient air.  
445B.225 Prohibited Conduct: Concealment of emissions.  
445B.227 Prohibited Conduct: Operation of source without required equipment; removal or modification of required equipment; modification of required procedure.  
445B.229 Hazardous emissions: Order for reduction or discontinuance.  
445B.230 Plan for reduction of emissions.  
445.667 Excess emissions: Scheduled maintenance; testing; malfunctions.  
Art. 2.5 Scheduled maintenance, testing, and breakdown or upset  
Art. 2.5.4 Breakdown or upset, determined by the Director to be unavoidable and not the result of careless or marginal operations, shall not be considered a violation of these regulations.  
445B.250 Notification of planned construction or reconstruction.  
445B.252 Testing and sampling.  
445B.256 Monitoring systems: Calibration, operation and maintenance of equipment.  
445B.257 Monitoring systems: Location.  
445B.258 Monitoring systems: Verification of operational status.  
445B.259 Monitoring systems: Performance evaluations.  
445B.260 Monitoring systems: Components contracted for before September 11, 1974.  
445B.261 Monitoring systems: Adjustments.

445B.262	Monitoring systems: Measurement of opacity.
445B.263	Monitoring systems: Frequency of operation.
445B.264	Monitoring systems: Recordation of data.
445B.265	Monitoring systems: Records; reports.
445B.267	Alternative monitoring procedures or requirements.
445B.275	Violations: Acts constituting; notice.
445B.277	Stop orders.
445.694	Emission discharge information.
445.699	Violations: Administrative fines.
445.764	Reduction of employees' pay because of use of system prohibited.

### Operating Permits Generally

445B.287	Operating permits: General requirements; exception; restrictions on transfers.
445B.288	Operating permits: Exemptions from requirements; insignificant activities.
445B.295	Application: General requirements.
445B.297	Application: Submission; certification; additional information.
445B.298	Application: Official date of submittal.
445B.305	Operating permits: Imposition of more stringent standards for emissions.
445B.308	Prerequisites and conditions for issuance of certain operating permits; compliance with applicable state implementation plan.
Art. 13.1	General provisions for the review of new sources.
Art. 13.1.1	Prior to the issuance of any registration certificates in accordance with . . .
Art. 13.1.3	The Director shall not issue a registration certificate for any point source if: . . .
Art. 13.2	The following new single sources or modifications to an existing single source . . .
Art. 13.2.1	Any single source which can cause, allow or permit the emission of an air . . .
Art. 13.2.2	Any combination of single sources located at a single premise which can cause, . . .
445B.310	Environmental evaluation: Applicable sources and other subjects; exemption.
445B.311	Environmental evaluation: Contents; consideration of good engineering practice stack height.
445B.313	Method for determining maximum heat input: Class I sources.
445B.3135	Method for determining heat input: Class II sources.
445B.314	Method for determining heat input: Class III sources.
445B.315	Contents of operating permits: Exception for operating permits to construct; required conditions.
445B.318	Operating permits: Requirement for each source; form of application; issuance or denial; posting.
445B.319	Operating permits: Administrative amendment.
445B.325	Operating permits: Termination, reopening and revision, revision, or revocation and reissuance.
445B.331	Request for change of location of emission unit.

### Class I Operating Permits

445B.3361	General requirements.
445B.3363	Operating permit to construct: Application.
445B.33637	Operating permit to construct for approval of plantwide applicability limitation: Application.
445B.3364	Operating permit to construct: Action by Director on application; notice; public comment and hearing.
445B.3365	Operating permit to construct: Contents; noncompliance with conditions.
445B.33656	Operating permit to construct for approval of plantwide applicability limitation: Contents; noncompliance with conditions.
445B.3366	Expiration and extension of operating permit to construct; expiration and renewal of plantwide applicability limitation.

445B.3368 Additional requirements for application; exception.  
445B.3375 Class I-B application: Filing requirement.  
445B.3395 Action by Director on application; notice; public comment and hearing; objection by Administrator; expiration of permit.  
445B.340 Prerequisites to issuance, revision or renewal of permit.  
445B.342 Certain changes authorized without revision of permit; notification of authorized changes.  
445B.3425 Minor revision of permit.  
445B.344 Significant revision of permit.  
445B.3441 Administrative revision of permit to incorporate conditions of certain permits to construct.  
445B.3443 Renewal of permit.  
445B.3447 Class I general permit.

#### Class II Operating Permits

445B.3453 Application: General requirements.  
445B.3457 Action by Director on application; notice; public comment and hearing; expiration of permit.  
445B.346 Required contents of permit.  
445B.3465 Application for revision.  
445B.3473 Renewal of permit.  
445B.3477 Class II general permit.

#### Class III Operating Permits

445B.3485 Application: General requirements  
445B.3487 Action by Director on application; expiration of permit.  
445B.3489 Required contents of permit.  
445B.3493 Application for revision.  
445B.3497 Renewal of permit.

<b>Definitions</b>			
	445B.001 (Supersedes 445.430)	<b>Definitions.</b> As used in <u>NAC 445B.001</u> to <u>445B.3791</u> , inclusive, unless the context otherwise requires, the words and terms defined in <u>NAC 445B.002</u> to <u>445B.211</u> , inclusive, have the meanings ascribed to them in those sections. (Supplied in codification; A by Environmental Comm'n, 12-5-84; 10-15-85; 8-22-86; 9-25-87; 10-22-87; 12-15-88; 12-8-89; 9-13-91; 12-26-91; 9-4-92; 10-29-93; 12-13-93; 3-29-94, eff. 11-15-94; R105-97, 3-5-98; R117-00, 6-1-2001; R040-01, 10-25-2001; R103-02, 12-17-2002; R125-04, 9-24-2004; R096-05, 10-31-2005; R189-05, 5-4-2006; R162-06, 9-18-2006; R154-06, 11-13-2006, eff. 1-1-2007)	(c)(66)(i)(A)(3) ) 73FR 19144 4/09/2008
	445.431	"Acid mist" defined. "Acid mist" means sulfuric acid mist, as measured by Method 8 of 40 C.F.R. S 60, Appendix A, or an equivalent or alternative method. [Environmental Comm'n, Air Quality Reg. 1.1, eff. 12-4-76; A 8-28-79]	(c)(25)(i)(A) 49 FR 11626 3/27/1984
	445B.002 (Supersedes 445.432)	<b>"Act" defined.</b> "Act" means the Clean Air Act, 42 U.S.C. §§ 7401 et seq., as amended. [Environmental Comm'n, Air Quality Reg. § 1.2, eff. 12-4-76; A 8-28-79]—(Substituted in revision for NAC 445.432)	(c)(56)(i)(A) 71FR15040 3/27/2006
	445B. 003	<b>"Adjacent properties" defined.</b> "Adjacent properties" means parcels of land that lie near each other or in close proximity. (Added to NAC by Environmental Comm'n, eff. 12-13-93)—(Substituted in revision for NAC 445.4325)	77FR59321 9/27/2012
	445B.0035	<b>"Administrative revision to a Class I operating permit" defined.</b> "Administrative revision to a Class I operating permit" means a revision of an existing Class I operating permit that incorporates the relevant conditions of an operating permit to construct. (Added to NAC by Environmental Comm'n by R125-04, eff. 9-24-2004)	77FR59321 9/27/2012
	445B.004 (Supersedes 445.433)	<b>"Administrator" defined.</b> "Administrator" means the Administrator of the United States Environmental Protection Agency or the Administrator's representative or delegate. [Environmental Comm'n, Air Quality Reg. § 1.2.5, eff. 10-16-80]—(NAC A 10-14-82)—(Substituted in revision for NAC 445.433)	(c)(56)(i)(A) 71FR15040 3/27/2006
	445B.005 (Supersedes 445.434)	<b>"Affected facility" defined.</b> "Affected facility" means, with reference to a stationary or temporary source, any apparatus to which a standard is applicable. [Environmental Comm'n, Air Quality Reg. § 1.3, eff. 12-4-76; A 8-28-79]—(NAC A 10-22-87; 10-30-95)	(c)(56)(i)(A) 71FR15040 3/27/2006
	445B.006	<b>"Affected source" defined.</b> "Affected source" means a stationary source subject to the requirements relating to acid rain set	(c)(56)(i)(A)

<sup>2</sup> Effective March 13, 2012 (77 FR 14862), EPA redesignated 40 CFR § 52.1470 as § 52.1490. Before this date, all of the CFR citations in this document pointed to § 52.1470. The March 13, 2012 action reformatted the Nevada SIP recordation into table format. State regulations approved into the Nevada SIP after this date appear in a table maintained by EPA at 40 CFR § 52.1470(c). In this document, for further information on SIP revisions made after March 13, 2012, we provide the Federal Register notice citation.

Article #	NAC #		
		forth in 42 U.S.C. §§ 7651 to 7651o, inclusive. (Added to NAC by Environmental Comm'n, 12-13-93, eff. 11-15-94; A 10-30-95; R040-01, 10-25-2001)	71FR15040 3/27/2006
	445B.007	<b>"Affected state" defined.</b> "Affected state" means a state that is within 50 miles of a Class I source located in this State, or a state that is contiguous to this State whose air quality may be affected by emissions from a Class I source located in this State. (Added to NAC by Environmental Comm'n, 12-13-93, eff. 11-15-94)—(Substituted in revision for NAC 445.4346)	77FR59321 9/27/2012
	445B.009 (Supersedes 445B.435)	<b>"Air-conditioning equipment" defined.</b> "Air-conditioning equipment" means equipment utilized to heat or cool the interior of a building or structure. [Environmental Comm'n, Air Quality Reg. § 1.1, eff. 11-7-75; renumbered as § 1.4, 12-4-76; A 8-28-79]—(Substituted in revision for NAC 445.435)	(c)(56)(i)(A) 71FR15040 3/27/2006
	445.436	"Air contaminant" defined. "Air contaminant" means any substance discharged into the atmosphere except water vapor and water droplets. [Environmental Comm'n, Air Quality Reg. 1.2, eff. 11-7-75; renumbered as 1.5, 12-4-76; A 8-28-79]	(c)(25)(i)(A)
	445B.011 (Supersedes 445.437)	<b>"Air pollution" defined.</b> "Air pollution" has the meaning ascribed to it in NRS 445B.115. [Environmental Comm'n, Air Quality Reg. §§ 1.3-1.3.3, eff. 11-7-75; renumbered as § 1.6, 12-4-76; A 8-28-79]—(NAC A R105-97, 3-5-98)	(c)(56)(i)(A) 71FR15040 3/27/2006
	445B.013	<b>"Allowable emissions" defined.</b> "Allowable emissions" means the emissions from a stationary source at its designed maximum capacity or at its actual maximum capacity, whichever is greater, except as reduced by any federally enforceable limitations on its emissions which are established: 1. By Nevada laws or regulations; 2. By any applicable requirement; or 3. By conditions of the stationary source's operating permit, imposed on the emission rate, the type or amount of materials combusted or processed, the operating rates, the hours of operation, or any other factor limiting production or emission, whichever is most stringent. [Environmental Comm'n, Air Quality Reg. § 1.6.5, eff. 10-16-80]—(NAC A 10-22-87; 12-13-93; 10-30-95; R096-05, 10-31-2005)	77FR59321 9/27/2012
	445B.014	<b>"Alteration" defined.</b> "Alteration" means any addition to, or enlargement, replacement, modification or change of the design, capacity, process, arrangement, operating hours or control apparatus that will affect the kind or amount of regulated air pollutants emitted. (Added to NAC by Environmental Comm'n, eff. 12-8-89; A 10-30-95)	77FR59321 9/27/2012
	445B.015 (Supersedes 445.439)	<b>"Alternative method" defined.</b> "Alternative method" means any method of sampling and analyzing for a regulated air pollutant which is not a reference or equivalent method, but which has been demonstrated to the satisfaction of the director that, in specific cases, it produces results adequate to determine compliance. [Environmental Comm'n, Air Quality Reg. § 1.7, eff. 12-4-76; A 8-28-79]—(NAC A 10-30-95)	(c)(56)(i)(A) 71FR71486 12/11/2006
	445B.016	<b>"Alternative operating scenarios" defined.</b> "Alternative operating scenarios" means two or more modes or types of	77FR59321

Approved Reference:		State Implementation Plan Text of Regulations and Articles:	Cite: 40 CFR 52.1490 and or FR <sup>2</sup>
Article #	NAC #		
		operation specifically identified by a stationary source in its application and approved by the Director as a condition or as conditions of the source's operating permit. (Added to NAC by Environmental Comm'n, 12-13-93, eff. 11-15-94; A 10-30-95)	9/27/2012
	445B.018 (Supersedes 445.441)	<b>"Ambient air" defined.</b> "Ambient air" means that portion of the atmosphere which is external to buildings, structures, facilities or installations to which the public has access. [Environmental Comm'n, Air Quality Reg. § 1.4, eff. 11-7-75; renumbered as § 1.9, 12-4-76; A 8-28-79]—(NAC A 10-22-87)—(Substituted in revision for NAC 445.441)	(c)(56)(i)(A) 71FR15040 3/27/2006
	445B.019	<b>"Applicable requirement" defined.</b> "Applicable requirement" means, as applied to a stationary source: 1. Any standard or other relevant requirement: (a) Provided in <u>NRS 445B.100</u> to <u>445B.640</u> , inclusive, and <u>NAC 445B.001</u> to <u>445B.3689</u> , inclusive, except for the standards for ambient air established in <u>NAC 445B.22097</u> ; (b) Provided in the applicable implementation plan approved or adopted by the EPA pursuant to 42 U.S.C. §§ 7401 to 7515, inclusive; (c) For a hazardous air pollutant adopted pursuant to 42 U.S.C. § 7412, including any requirement regarding the prevention of accidental releases; (d) For a program to control acid rain adopted pursuant to 42 U.S.C. §§ 7651 to 7651o, inclusive; (e) For enhanced monitoring or for compliance certification adopted pursuant to 42 U.S.C. § 7413(a)(3) or 7661c(b); (f) For solid waste incineration units adopted pursuant to 42 U.S.C. § 7429; (g) For consumer and commercial products or tank vessels adopted pursuant to 42 U.S.C. § 7511b; and (h) For the protection of stratospheric ozone adopted pursuant to 42 U.S.C. §§ 7671 to 7671q, inclusive, unless the Administrator determines that such provisions are not required in an operating permit; 2. A new source performance standard adopted pursuant to 42 U.S.C. § 7411; 3. Any term or condition of any permit issued pursuant to the requirements of 42 U.S.C. §§ 7401 to 7515, inclusive, including provisions regarding the prevention of significant deterioration of air quality and new source review; and 4. Any national ambient air quality standard or requirement regarding increments or visibility adopted pursuant to 42 U.S.C. §§ 7470 to 7492, inclusive, as the standard applies to a temporary source for which the owner or operator has applied for and obtained an operating permit pursuant to <u>NAC 445B.287</u> to <u>445B.3497</u> , inclusive. (Added to NAC by Environmental Comm'n, 12-13-93, eff. 1-11-96; A 10-30-95, eff. 1-11-96; R105-97, 3-5-98; R040-10, eff. 7-22-2010)	77FR59321 9/27/2012
	445B.022 (Supersedes 445.444)	<b>"Atmosphere" defined.</b> "Atmosphere" means all the air surrounding the earth and external to buildings and structures. [Environmental Comm'n, Air Quality Reg. § 1.7, eff. 11-7-75; renumbered as § 1.14, 12-4-76; A and renumbered as § 1.13, 8-28-79]—(Substituted in revision for NAC 445.444)	(c)(56)(i)(A) 71FR15040 3/27/2006
	445.445	"Barite" defined. "Barite" means a naturally occurring sulfate of barium, BaSO <sub>4</sub> , which is transparent to opaque and is whitish in color.	(c)(25)(i)(A)

		[Environmental Comm'n, Air Quality Reg. Art. 1 § 1, eff. 1-25-79; renumbered as 1.14, 8-28-79]	
	445.447	"Barite grinding mill" defined. "Barite grinding mill" means any single source designed to reduce crude barite to a finished product. [Environmental Comm'n, Air Quality Reg. Art. 1 § 2, eff. 1-25-79]	(c)(25)(i)(A)
	445B.029	<b>"Best available retrofit technology" defined.</b> "Best available retrofit technology" means an emission limitation based on the degree of reduction achievable through the application of the best system of continuous emission reduction for each pollutant that is emitted by an existing stationary facility as defined in 40 C.F.R. § 51.301. (Added to NAC by Environmental Comm'n by R190-08, eff. 4-23-2009)	77FR17334 3/26/2012
	445B.030 (Supersedes 445.457)	<b>"British thermal units" defined.</b> "British thermal units (Btu)" means that quantity of heat required to raise the temperature of one pound of water from 60 degrees Fahrenheit to 61 degrees Fahrenheit at a constant, absolute pressure of 14.7 pounds per square inch (29.92 inches of mercury). [Environmental Comm'n, Air Quality Reg. § 1.9, eff. 11-7-75; A and renumbered as § 1.21, 12-4-76]—(NAC A 10-22-87)—(Substituted in revision for NAC 445.457)	(c)(56)(i)(A) 71FR15040 3/27/2006
	445.458	"Calcine" defined. "Calcine" means the solid materials produced by a roaster. [Environmental Comm'n, Air Quality Reg. 1.22, eff. 12-4-76]	(c)(25)(i)(A)
	445B.035	<b>"Class I-B application" defined.</b> "Class I-B application" means an application for a Class I operating permit that is required for any new stationary source or significant modification to an existing stationary source which is subject to the requirements of 42 U.S.C. §§ 7661 to 7661f, inclusive. (Added to NAC by Environmental Comm'n, 12-13-93, eff. 1-11-96; A 10-30-95, eff. 1-11-96)	77FR59321 9/27/2012
	445B.036	<b>"Class I source" defined.</b> "Class I source" means any stationary source: 1. Which is subject to the requirements of 42 U.S.C. §§ 7661 to 7661f, inclusive; 2. For which the owner or operator has proposed the construction of a major modification; or 3. Which is a major stationary source. (Added to NAC by Environmental Comm'n, 12-13-93, eff. 1-11-96; A 10-30-95, eff. 1-11-96; R125-04, 9-24-2004)	77FR59321 9/27/2012
	445B.037	<b>"Class II source" defined.</b> "Class II source" means any stationary source which is not subject to the requirements of 42 U.S.C. §§ 7661 to 7661f, inclusive, but which is otherwise subject to the requirements of <u>NAC 445B.001 to 445B.3689</u> , inclusive. The term does not include a stationary source that is operating under a Class III operating permit issued pursuant to <u>NAC 445B.001 to 445B.3689</u> , inclusive. (Added to NAC by Environmental Comm'n, 12-13-93, eff. 1-11-96; A 10-30-95, eff. 1-11-96; R040-01, 10-25-2001; R040-1-, eff. 7-22-2010)	77FR59321 9/27/2012
	445B.038	<b>"Class III source" defined.</b> "Class III source" means a stationary source which is subject to the requirements set forth in <u>NAC 445B.001 to 445B.3689</u> , inclusive, and: 1. Which emits or has the potential to emit, individually or in combination, a total of not more than 5 tons per year of	77FR59321 9/27/2012

Article #	NAC #		
		"Converter" means any vessel in which lead concentrate or bullion is charged and refined. [Environmental Comm'n, Air Quality Reg. 1.46, eff. 12-4-76]	
	445B.051 (Supersedes 445.486)	<b>"Day" defined.</b> "Day" means a 24-hour period which begins at midnight. [Environmental Comm'n, Air Quality Reg. § 1.51, eff. 12-4-76]—(NAC A 10-22-87)—(Substituted in revision for NAC 445.486)	(c)(56)(i)(A) 71FR15040 3/27/2006
	445B.053 (Supersedes 445.488)	<b>"Director" defined.</b> "Director" means the Director of the State Department of Conservation and Natural Resources or his designee or a person designated by or pursuant to a county or city ordinance or regional agreement or regulation to enforce local air pollution control ordinances and regulations. [Environmental Comm'n, Air Quality Reg. § 1.19, eff. 11-7-75; renumbered as § 1.53, 12-4-76; A 12-15-77]—(Substituted in revision for NAC 445.488)	(c)(56)(i)(A) 71FR15040 3/27/2006
	445B.054	<b>"Dispersion technique" defined.</b> 1. "Dispersion technique" means any technique that attempts to affect the concentration of a pollutant in the ambient air by: (a) Using that portion of a stack which exceeds good engineering practice stack height; (b) Varying the rate of emission of a pollutant according to atmospheric conditions or ambient concentrations of that pollutant; or (c) Increasing final exhaust gas plume rise by manipulating source process parameters, exhaust gas parameters or stack parameters, combining exhaust gases from several existing stacks into one stack or other selective handling of exhaust gas streams so as to increase the exhaust gas plume rise. 2. The term does not include: (a) The reheating of a gas stream, following use of a pollution control system, for the purpose of returning the gas to the temperature at which it was originally discharged from the facility generating the gas stream. (b) The merging of exhaust gas streams where: (1) The source owner or operator demonstrates that the facility was originally designed and constructed with such merged gas streams; (2) After July 8, 1985, such merging is part of a change in operation at the facility that includes the installation of pollution controls and is accompanied by a net reduction in the allowable emissions of a pollutant. This exclusion from the definition of "dispersion techniques" applies only to the emission limitation for the pollutant affected by such a change in operation; or (3) Before July 8, 1985, such merging was part of a change in operation at the facility that included the installation of emissions control equipment or was carried out for sound economic or engineering reasons. Where there was an increase in the emission limitation or, in the event that no emission limitation was in existence before the merging, an increase in the quantity of pollutants actually emitted before the merging, the Director shall presume that merging was significantly motivated by an intent to gain emissions credit for greater dispersion. Absent a demonstration by the source owner or operator that merging	77FR59321 9/27/2012

Article #	NAC #		
		was not significantly motivated by such an intent, the Director shall deny credit for the effects of such merging in calculating the allowable emissions for the source. (c) Smoke management in agricultural or silvicultural prescribed burning programs. (d) Episodic restrictions on residential woodburning and open burning. (e) Techniques under paragraph (c) of subsection 1 which increase final exhaust gas plume rise where the resulting allowable emissions of sulfur dioxide from the facility do not exceed 5,000 tons per year. (Added to NAC by Environmental Comm'n by R096-05, eff. 10-31-2005)	
	445.492	"Dryer" defined. "Dryer" means any facility in which a charge of a copper sulfide ore concentrate is heated in the presence of air to eliminate a portion of the moisture from the charge, provided less than 5 percent of the sulfur contained in the charge is eliminated in the facility. [Environmental Comm'n, Air Quality Reg. 1.57, eff. 12-4-76]	(c)(25)(i)(A)
1.60		Effective date. Upon the filing of the regulations with the Secretary of State, or as specified in the exceptions contained in NRS 233B.070.	(c)(14)(vii)
	445B.055	<b>"Effective date of the program" defined.</b> "Effective date of the program" means the date on which the Administrator approves the program. (Added to NAC by Environmental Comm'n, eff. 12-13-93)—(Substituted in revision for NAC 445.4915)	(c)(56)(i)(A) 71FR15040 3/27/2006
	445B.056	<b>"Emergency" defined.</b> "Emergency" means any situation arising from a sudden and reasonably unforeseeable event beyond the control of the owner or operator, including an act of God, that requires immediate corrective action to restore normal operation, and that causes the source to exceed an emission limitation contained in the operating permit which is based on a specific type of technology. The term does not include the failure to comply with emission limitations because of the improper design of the source, the lack of preventative maintenance, the careless or improper operation of the source, or any error by the operator. (Added to NAC by Environmental Comm'n, 12-13-93, eff. 11-15-94)—(Substituted in revision for NAC 445.4955)	(c)(56)(i)(A) 71FR15040 3/27/2006
	445B.058 (Supersedes 445.499)	<b>"Emission" defined.</b> 1. "Emission" means the act of passing into the atmosphere a regulated air pollutant or a gas stream which contains, or may contain, a regulated air pollutant. 2. The term includes the material passed to the atmosphere. [Environmental Comm'n, Air Quality Reg. § 1.22, eff. 11-7-75; renumbered as § 1.65, 12-4-76]—(NAC A by R105-97, 3-5-98)	(c)(56)(i)(A) 71FR15040 3/27/2006
	445B.059 (Supersedes 445.500)	<b>"Emission unit" defined.</b> "Emission unit" means a part of a stationary source which emits or has the potential to emit any regulated air pollutant. [Environmental Comm'n, Air Quality Reg. § 1.57.5, eff. 10-16-80]—(NAC A 10-22-87; 3-29-94, eff. 11-15-94; 10-30-95)	(c)(56)(i)(A) 71FR15040 3/27/2006
	445B.060	<b>"Enforceable" defined.</b> "Enforceable" means enforceable under federal, state or local law.	(c)(56)(i)(A)

		(Added to NAC by Environmental Comm'n, eff. 10-14-82)—(Substituted in revision for NAC 445.5005)	71FR15040 3/27/2006
	445B.061	<b>“EPA” defined.</b> “EPA” means the United States Environmental Protection Agency. (Added to NAC by Environmental Comm'n, eff. 12-13-93)—(Substituted in revision for NAC 445.5008)	(c)(56)(i)(A) 71FR15040 3/27/2006
	445B.062 (Supersedes 445.501)	<b>“Equivalent method” defined.</b> “Equivalent method” means any method of sampling and analyzing for a regulated air pollutant which has been demonstrated to the director’s satisfaction to have a consistent and quantitatively known relationship to the reference method under specified conditions. [Environmental Comm’n, Air Quality Reg. § 1.67, eff. 12-4-76]—(NAC A 10-30-95)	(c)(56)(i)(A) 71FR71486 12/11/2006
	445B.063 (Supersedes 445.504)	<b>“Excess emissions” defined.</b> “Excess emissions” means any emission which exceeds any applicable emission limitation prescribed by <u>NAC 445B.001</u> to <u>445B.3791</u> , inclusive, or that is contained in an operating permit. The averaging time and test procedures for determining excess emissions must be as specified in the relevant condition or conditions of the operating permit, except that this does not preclude the use, including the exclusive use, of any credible evidence or information relevant to the determination of whether a source would have been in compliance with the applicable requirements if the appropriate performance or compliance test or procedure had been performed to determine excess emissions. [Environmental Comm’n, Air Quality Reg. Art. 1 § 1, eff. 8-29-79]—(NAC A 10-22-87; 12-13-93; R096-05, 10-31-2005)	(c)(66)(i)(A)(3) ) 73FR19144 04/09/2008
	445B.064	<b>“Excessive concentration” defined.</b> “Excessive concentration” means, for the purpose of determining good engineering practice stack height: 1. For sources seeking credit for stack height exceeding that established under paragraph (b) of subsection 1 of <u>NAC 445B.083</u> , a maximum ground-level concentration due to emissions from a stack due in whole or part to downwash, wakes and eddy effects produced by nearby structures or nearby terrain features which individually is at least 40 percent in excess of the maximum concentration experienced in the absence of such downwash, wakes or eddy effects and which contributes to a total concentration due to emissions from all sources that is greater than an ambient air quality standard. For sources subject to 40 C.F.R. § 52.21, an excessive concentration alternatively means a maximum ground-level concentration due to emissions from a stack due in whole or part to downwash, wakes or eddy effects produced by nearby structures or nearby terrain features which individually is at least 40 percent in excess of the maximum concentration experienced in the absence of such downwash, wakes or eddy effects and greater than a prevention of significant deterioration increment. The allowable emission rate to be used in making demonstrations pursuant to <u>NAC 445B.001</u> to <u>445B.3689</u> , inclusive, must be prescribed by the new source performance standard that is applicable to the source category unless the owner or operator demonstrates that this emission rate is infeasible. Where such demonstrations are approved by the Director, an alternative emission rate must be established in consultation with the source owner or operator. 2. For sources seeking credit after October 11, 1983, for increases in existing stack heights up to the heights established under paragraph (b) of subsection 1 of <u>NAC 445B.083</u> , either: (a) A maximum ground-level concentration due in whole or part to downwash, wakes or eddy effects as provided in	77FR59321 9/27/2012

1- Definitions : No. 2- LAER		“Lowest achievable emission rate” means the emission rate for any source for which an environmental evaluation must be prepared which reflects: a. The most stringent emission rate in the approve implementation plan of any state for any class or category or source, unless the owner or operator of the source demonstrates that such an emission limitation is not achievable; or b. The most stringent emission limitation which is achieved in practice by such class or category or source, whichever is more stringent so long as it is not less stringent than the emission rate allowed by any applicable emission standard established in these regulations.	(c)(16)(i)
	445B.093	“ <b>Major modification</b> ” defined. “Major modification” has the meaning ascribed to it in 40 C.F.R. § 52.21. (Added to NAC by Environmental Comm’n by R125-04, eff. 9-24-2004)	77FR59321 9/27/2012
	445B.094	“ <b>Major source</b> ” defined. 1. Except as otherwise provided in subsection 3, “major source” means any stationary source that: (a) Is located on one or more contiguous or adjacent properties; (b) Is under the common control of the same person or persons; (c) Belongs to a single major industrial grouping as described in the <i>Standard Industrial Classification Manual</i> , as incorporated by reference in <u>NAC 445B.221</u> ; and (d) Meets one of the following conditions: (1) Is located in a nonattainment area and is required to obtain an operating permit pursuant to 42 U.S.C. §§ 7501 to 7515, inclusive; (2) Directly emits or has the potential to emit: (I) One hundred tons per year or more of any regulated air pollutant, excluding particulate matter more than 10 microns in diameter; or (II) Ten tons per year or more of a hazardous air pollutant or 25 tons per year or more of any combination of hazardous air pollutants or a lesser quantity as established by the Commission; or (3) Is located in a particulate matter (PM <sub>10</sub> ) “serious” nonattainment area and directly emits or has the potential to emit 70 tons per year or more of PM <sub>10</sub> . ↪ The Director shall consider fugitive emissions in determining whether a stationary source is major for any source category listed in 40 C.F.R. § 52.21(b)(1)(iii), as adopted by reference pursuant to <u>NAC 445B.221</u> , or whether a stationary source of a hazardous air pollutant is a major source. To determine whether a stationary source is a major source of hazardous air pollutants under 42 U.S.C. § 7412, emissions from any oil or gas exploration or production well, with its associated equipment, and emissions from any pipeline compressor or pump station must not be aggregated with emissions from other similar units, whether or not such units are in a contiguous area or under common control.	77FR59321 9/27/2012

[Environmental Comm'n, Air Quality Reg. § 1.48, eff. 11-7-75; renumbered as § 1.125, 12-4-76]—(NAC A 10-30-95)	(c)(56)(i)(A) 71FR15040 3/27/2006
	445B.134 (Superseded 445.564)	<b>“Person” defined.</b> “Person” has the meaning ascribed to it in NRS 0.039 and includes the State of Nevada, political subdivisions, administrative agencies and public or quasi-public corporations. [Environmental Comm'n, Air Quality Reg. § 1.49, eff. 11-7-75; renumbered as § 1.126, 12-4-76]—(NAC A by R151-06, 9-18-2006)	(c)(62)(i)(A)(1) 72FR19801 4/20/2007
	445.565	"Petroleum" defined. "Petroleum" means the crude oil removed from the earth and the oils derived from tar sands, shale and coal. [Environmental Comm'n, Air Quality Reg. 1.127, eff. 12-4-76]	(c)(25)(i)(A)
	445B.1345	<b>“Plantwide applicability limitation” defined.</b> “Plantwide applicability limitation” means a plantwide applicability limitation as defined in 40 C.F.R. § 52.21(aa)(2)(v) that has been approved by the Director and authorized in an operating permit to construct pursuant to <u>NAC 445B.001</u> to <u>445B.3689</u> , inclusive. (Added to NAC by Environmental Comm'n by R125-04, eff. 9-24-2004; R040-10, eff. 7-22-2010)	77FR59321 9/27/2012
	445B.135	<b>“PM<sub>10</sub>” defined.</b> “PM <sub>10</sub> ” means any particulate matter in the atmosphere with an aerodynamic diameter less than or equal to a nominal 10 micrometers as measured by an approved reference method or equivalent method based on 40 C.F.R. Part 50, Appendix J and designated in accordance with 40 C.F.R. Part 53. (Added to NAC by Environmental Comm'n, eff. 12-26-91)—(Substituted in revision for NAC 445.5655)	(c)(56)(i)(A) 71FR15040 3/27/2006
1.131		Point source. Any stationary source causing emission in excess of 23 metric tons (25 tons) per year of any pollutant for which there is ambient air standard, or without regard to amount of emission, stationary sources such as those listed in 40 CFR 51, Appendix C.	(c)(12)
	445B.138	<b>“Potential to emit” defined.</b> “Potential to emit” means the maximum capacity of a stationary source to emit a regulated air pollutant under its physical and operational design. Any physical or operational limitation on the capacity of a stationary source to emit a regulated air pollutant, including equipment for the control of air pollution and any restrictions on the hours of operation of the stationary source or on the type or amount of material combusted, stored or processed, may be treated as part of its design for the purposes of determining its potential to emit if the limitation is federally enforceable. [Environmental Comm'n, Air Quality Reg. part § 1.115.5, eff. 10-16-80]—(NAC A 12-13-93; 10-30-95; 5-3-96; R126-10, 12-16-2010)	77FR59321 9/27/2012

Article #	NAC #		
	445.570 (proposed)	"Portland cement plant" defined. "Portland cement plant" means any facility manufacturing portland cement by either the wet or dry process. [Environmental Comm'n, Air Quality Reg. 1.132, eff. 12-4-76]	(c)(25)(i)(A)
	445.574	"Precious metal" defined. "Precious metal" means a metal of the gold, silver or platinum metal group. [Environmental Comm'n, Air Quality Reg. Art. 1, § 1, eff. 1-25-79; A 8-28-79]	(c)(25)(i)(A)
	445.575	"Precious metal processing plant" defined. "Precious metal processing plant" means a facility which is primarily engaged in crushing, screening, grinding, handling, loading, transferring or storing any precious metal or precious metal ore. [Environmental Comm'n, Air Quality Reg. Art. 1, § 2, eff. 1-25-79; A 8-28-79]	(c)(25)(i)(A)
	445B.142	<b>"Prevention of significant deterioration of air quality" defined.</b> "Prevention of significant deterioration of air quality" has the meaning ascribed to it in 40 C.F.R. § 52.21. (Added to NAC by Environmental Comm'n, eff. 12-13-93)—(Substituted in revision for NAC 445.5795)	77FR59321 9/27/2012
	445B.144 (Superseded 445.581)	<b>"Process equipment" defined.</b> "Process equipment" means any equipment used for storing, handling, transporting, processing or changing any material, excluding that equipment specifically defined in NAC 445B.001 to 445B.601, inclusive, as fuel-burning equipment or incinerators. [Environmental Comm'n, Air Quality Reg. § 1.52, eff. 11-7-75; renumbered as § 1.140, 12-4-76]—(Substituted in revision for NAC 445.581)	(c)(56)(i)(A) 71FR15040 3/27/2006
	445B.145 (Superseded 445.584)	<b>"Process weight" defined.</b> "Process weight" means the total weight of all materials introduced into an emission unit including solid fuels, but excluding liquids and gases used solely as fuels and air introduced for purposes of combustion of the fuel. [Environmental Comm'n, Air Quality Reg. § 1.50, eff. 11-7-75; renumbered as § 1.143, 12-4-76; A and renumbered as § 1.140, 8-28-79]—(NAC A 10-30-95)	(c)(56)(i)(A) 71FR15040 3/27/2006
	445.585	"Process weight rate" defined. "Process weight rate" means a rate established as follows: 1. For continuous or long-run steady-rate operations, the total process weight for the entire period of continuous operation or for a typical portion thereof, divided by the number of hours of the period or portions thereof. 2. For cyclical or batch unit operations or unit processes, the total process weight for a period that covers a complete operation or an integral number of cycles divided by the number of hours of actual process operation during such a period. 3. Where the nature of any process or operation or the design of any equipment is such as to permit more than one interpretation of this section, the interpretation that results in the minimum value of allowable emission applies. [Environmental Comm'n, Air Quality Reg. 1.51-1.51.3, eff. 11-7-75; renumbered as 1.144, 12-4-76; A and renumbered as 1.141, 8-28-79]	(c)(25)(i)(A)
	445B.147	<b>"Program" defined.</b> "Program" means the program for issuing operating permits to Class I sources which the Administrator has approved as complying with the requirements of 40 C.F.R. Part 70.	77FR59321 9/27/2012

		(Added to NAC by Environmental Comm'n, 12-13-93, eff. 11-15-94)—(Substituted in revision for NAC 445.5855)	
	445B.151 (Superseded 445.589)	<b>“Reference conditions” defined.</b> “Reference conditions” means that all measurements of ambient air quality are corrected to a reference temperature of 77°F (25°C) and to a reference pressure of 29.92 inches (760 millimeters, 1,013.2 millibars) of mercury. [Environmental Comm'n, Air Quality Reg. § 1.53, eff. 11-7-75; A and renumbered as § 1.147, 12-4-76; A and renumbered as § 1.144, 8-28-79]—(NAC A 10-22-87)—(Substituted in revision for NAC 445.589)	(c)(56)(i)(A) 71FR15040 3/27/2006
	445B.152 (Superseded 445.590)	<b>“Reference method” defined.</b> “Reference method” means any method of sampling and analyzing for a regulated air pollutant as described in Appendix A of 40 C.F.R. § 60. [Environmental Comm'n, Air Quality Reg. § 1.148, eff. 12-4-76; A and renumbered as § 1.145, 8-28-79]—(NAC A 10-30-95)	(c)(56)(i)(A) 71FR15040 3/27/2006
	445.592	"Registration certificate" defined. "Registration certificate" means a document issued and signed by the director certifying that: 1. Adequate empirical data for a single source has been received and constitutes approval of location; or 2. An environmental evaluation has been submitted for a point source and that all portions of NAC 445.707 to 445.711, inclusive, and any other provisions of NAC 445.430 to 445.945, inclusive, have been complied with and constitutes approval of location and for construction. [Environmental Comm'n, Air Quality Reg. 1.55, eff. 11-7-75; renumbered as 1.151, 12-4-76; A and renumbered as 1.147, 8-28-79]	(c)(25)(i)(A)
	445B.153	<b>“Regulated air pollutant” defined.</b> “Regulated air pollutant” means: 1. Nitrogen oxides or any volatile organic compounds; 2. Any pollutant subject to: (a) A national ambient air quality standard and any constituents or precursors for such pollutants identified by the Administrator; (b) A standard or requirement adopted pursuant to 42 U.S.C. § 7411; or (c) A standard established pursuant to <u>NAC 445B.22097</u> ; 3. Any Class I or Class II substance subject to a standard adopted pursuant to 42 U.S.C. §§ 7671 to 7671q, inclusive; or 4. Any pollutant that otherwise is subject to regulation under the Act, except that any hazardous air pollutant regulated under 42 U.S.C. § 7412 is not a regulated air pollutant unless the hazardous air pollutant is also regulated as a constituent or precursor of an air pollutant listed pursuant to 42 U.S.C. § 7408. (Added to NAC by Environmental Comm'n, 12-13-93, eff. 11-15-94; A 10-30-95; R096-05, 10-31-2005)	(c)(66)(i)(A)(3) ) 73FR 19144 4/09/2008
	445B.154	<b>“Renewal of an operating permit” defined.</b> “Renewal of an operating permit” means the process by which a holder of an operating permit applies for and the Director reissues the operating permit at the end of its term. (Added to NAC by Environmental Comm'n, eff. 12-13-93)—(Substituted in revision for NAC 445.5915)	77FR59321 9/27/2012
	445B.156	<b>“Responsible official” defined.</b> “Responsible official” means:	77FR59321

		[Environmental Comm'n, Air Quality Reg. § 1.213, eff. 12-4-76; A and renumbered as § 1.209, 8-28-79]—(NAC A 10-15-85; R105-97, 3-5-98; R040-01, 10-25-2001; R125-04, 9-24-2004)	
<b>General Provisions</b>			
	445B.220 (Superseded 445.660)	<b>Severability.</b> If any of the provisions of <u>NAC 445B.001</u> to <u>445B.3791</u> , inclusive, or any application thereof to any person, thing or circumstance is held invalid, it is intended that such invalidity not affect the remaining provisions, or their application, that can be given effect without the invalid provision or application. [Environmental Comm'n, Air Quality Reg. § 2.1.1, eff. 11-7-75]—(NAC A by R105-97, 3-5-98; R189-05, 5-4-2006; R154-06, 11-13-2006, eff. 1-1-2007)	(c)(66)(i)(A) 73FR19144 4/9/2008
	445B.22017 (Superseded 445.721)	<b>Visible emissions: Maximum opacity; determination and monitoring of opacity.</b> 1. Except as otherwise provided in this section and <u>NAC 445B.2202</u> , no owner or operator may cause or permit the discharge into the atmosphere from any emission unit which is of an opacity equal to or greater than 20 percent. Opacity must be determined by one of the following methods: (a) If opacity is determined by a visual measurement, it must be determined as set forth in Reference Method 9 in Appendix A of 40 C.F.R. Part 60. (b) If a source uses a continuous monitoring system for the measurement of opacity, the data must be reduced to 6-minute averages as set forth in 40 C.F.R. § 60.13(h). 2. The provisions of this section and <u>NAC 445B.2202</u> do not apply to that part of the opacity that consists of uncombined water. The burden of proof to establish the application of this exemption is upon the person seeking to come within the exemption. 3. If the provisions of 40 C.F.R. Part 60, Subpart D or Da apply to an emission unit, the emission unit must be allowed one 6-minute period per hour of not more than 27 percent opacity as set forth in 40 C.F.R. § 60.42(a)(2) and 40 C.F.R. § 60.42a(b). 4. The continuous monitoring system for monitoring opacity at a facility must be operated and maintained by the owner or operator specified in the permit for the facility in accordance with <u>NAC 445B.256</u> to <u>445B.267</u> , inclusive. 16.3.3		Standard for Opacity	(c)(14)(viii)
16.3.3.2		No person shall cause, suffer, allow, or permit the discharge from any clinker cooler which exhibit greater than 10 percent opacity.	(c)(14)(viii)
16.3.3.3		On or after the date on which the performance test required by Article 2.6 is completed, no owner or operator subject to the provision of Article 16.3 shall cause to be discharged into the atmosphere from any affect facility other than the kiln and clinker cooler any gases which exhibit 10% opacity or greater.	(c)(14)(viii)
	445.729	Process weight rate for calculating emission rates. For purposes of NAC 445.729 to 445.737, inclusive, the process weight rate to be used to calculate allowable emission rates must be the weight rates for single sources. [Environmental Comm'n, Air Quality Reg. 7.2.4, eff. 11-7-75; A 12-4-76]	(c)(25)(i)(A)
	445.730	Colemanite flotation processing plants. 1. The maximum amount of particulate matter which may be emitted in an hour by any colemanite flotation processing plant and the formulas by which the amount will be determined are: (a) For a crushing, screening or grinding plant, a maximum of 2.5 pounds (1.13 kilograms) per hour as calculated by: $E = 0.02 \times 10^{-3} P (0.04P)$ . (b) For a storage bin for ore or an ore product, a maximum of 0.55 pounds (0.25 kilogram) per hour as calculated by: $E = 0.01 \times 10^{-3} P (0.02P)$ . (c) For a dryer and calciner, a maximum of 10.50 pounds (4.75 kilograms) per hour as calculated by: $E = 0.31 \times 10^{-3} P (0.62P)$ . 2. For the purposes of subsection 1: (a) "E" means the maximum emission rate allowed in pounds (kilograms) per hour. (b) "P" means the process weight rate in tons (kilograms) per hour. [Environmental Comm'n, Air Quality Reg. 7.2.8.1-7.2.8.3, eff. 11-17-78]	(c)(25)(i)(A)
	445B.22027	<b>Emissions of particulate matter: Maximum allowable throughput for calculating emissions rates.</b> For purposes of NAC 445B.22027 to 445B.22037, inclusive, the maximum allowable throughput to be used to calculate allowable emission rates must be the maximum process weight for an emission unit. [Environmental Comm'n, Air Quality Reg. § 7.2.4, eff. 11-7-75; A 12-4-76]—(NAC A 10-22-87; 12-26-91; R105-97, 3-5-98)—(Substituted in revision for NAC 445B.360)	(c)(56)(i)(A)(3) ) 72FR25972 5/8/2007
	445B.2203 (Superseded 445.731)	<b>Emissions of particulate matter: Fuel-burning equipment.</b> 1. No person may cause or permit the emission of PM <sub>10</sub> resulting from the combustion of fuel in fuel-burning equipment in excess of the quantity set forth in the following formulas: (a) For maximum input of heat equal to or greater than 4 million Btu's per hour, but less than or equal to 10 million Btu's	(c)(56)(i)(A)(3) ) 72FR25972 5/8/2007

		<p>Notes:</p> <p>Note A: The Director shall use the Nevada standards in considering whether to issue a permit for a stationary source and shall ensure that the stationary source will not cause the Nevada standards to be exceeded in areas where the general public has access.</p> <p>Note B: These standards, other than for ozone, particulate matter, and those based on annual averages, must not be exceeded more than once per year. The 1-hour ozone standard is attained when the expected number of days per calendar year with a maximum hourly average concentration above the standard is equal to or less than one. The PM<sub>10</sub> 24-hour standard is attained when the expected number of days per calendar year with a 24-hour average concentration above the standard, rounded to the nearest 10 µg/m<sup>3</sup>, is equal to or less than one. The expected number of days per calendar year is generally based on an average of the number of times the standard has been exceeded per year for the last 3 years. The National standards are to be used in determinations of attainment or nonattainment.</p> <p>Note C: Where applicable, concentration is expressed first in units in which it was adopted. All measurements of air quality that are expressed as mass per unit volume, such as micrograms per cubic meter, must be corrected to a reference temperature of 25°C and a reference pressure of 760 mm of Hg (1,013.2 millibars); “ppm” in this table refers to parts per million by volume, or micromoles of regulated air pollutant per mole of gas; “µg/m<sup>3</sup>” refers to micrograms per cubic meter.</p> <p>Note D: Any reference method specified in accordance with 40 C.F.R. Part 50 or any reference method or equivalent method designated in accordance with 40 C.F.R. Part 53 may be substituted.</p> <p>Note E: National primary standards are the levels of air quality necessary, with an adequate margin of safety, to protect the public health.</p> <p>Note F: National secondary standards are the levels of air quality necessary to protect the public welfare from any known or anticipated adverse effects of a regulated air pollutant.</p> <p>Note G: The ambient air quality standard for hydrogen sulfide does not include naturally occurring background concentrations.</p> <p>2. These standards of quality for ambient air are minimum goals, and it is the intent of the Commission in this section to protect the existing quality of Nevada’s air to the extent that it is economically and technically feasible. 	(Superseded 445.682)	<p>1. To determine compliance with NAC 445B.001 to 445B.3497, inclusive, before the approval or the continuance of an operating permit or similar class of permits, the director may either conduct or order the owner of any stationary source to conduct or have conducted such testing and sampling as the director determines necessary. Testing and sampling or either of them must be conducted and the results submitted to the director within 60 days after achieving the maximum rate of production at which the affected facility will be operated, but not later than 180 days after initial start-up of the facility and at such other times as may be required by the director.</p> <p>2. Tests of performance must be conducted and data reduced in accordance with the methods and procedures of the test contained in each applicable subsection of this section unless the director:</p> <p>(a) Specifies or approves, in specific cases, the use of a method of reference with minor changes in methodology; or</p> <p>(d) Waives the requirement for tests of performance because the owner or operator of a stationary source has demonstrated by other means to the director's satisfaction that the affected facility is in compliance with the standard.</p> <p>3. Tests of performance must be conducted under such conditions as the director specifies to the operator of the plant based on representative performance of the affected facility. The owner or operator shall make available to the director such records as may be necessary to determine the conditions of the test of performance. Operations during periods of start-up, shutdown and malfunction must not constitute representative conditions of a test of performance unless otherwise specified in the applicable standard.</p> <p>4. The owner or operator of an affected facility shall give notice to the director 30 days before the test of performance to allow the director to have an observer present. A written testing procedure for the test of performance must be submitted to the director at least 30 days before the test of performance to allow the director to review the proposed testing procedures.</p> <p>5. Each test of performance must consist of at least three separate runs using the applicable method for that test. Each run must be conducted for the time and under the conditions specified in the applicable standard. For the purpose of determining compliance with an applicable standard, the arithmetic means of results of the runs apply. In the event of forced shutdown, failure of an irreplaceable portion of the sampling train, extreme meteorological conditions or other circumstances with less than three valid samples being obtained, compliance may be determined using the arithmetic mean of the results of the other two runs upon the director's approval.</p> <p>7. The cost of all testing and sampling and the cost of all sampling holes, scaffolding, electric power and other pertinent allied facilities as may be required and specified in writing by the director must be provided and paid for by the owner of the stationary source.</p> <p>8. All information and analytical results of testing and sampling must be certified as to their truth and accuracy and as to their compliance with all provisions of these regulations, and copies of these results must be provided to the director no later than 60 days after the testing or sampling, or both.</p> <p>9. Notwithstanding the provisions of subsection 2, the Director shall not approve an equivalent method or alternative method to determine compliance with a standard or emission limitation contained in Part 60, 61 or 63 of Title 40 of the Code of Federal Regulations for:</p>	73FR20536 4/16/2008

		(a) Opacity of emissions must comply with Performance Specification 1. (b) Nitrogen oxides emissions must comply with Performance Specification 2. (c) Sulfur dioxide emissions must comply with Performance Specification 2. (d) The oxygen and carbon dioxide content of effluent gases must comply with Performance Specification 3. [Environmental Comm'n, Air Quality Reg. §§ 2.17.3 & 2.17.3.1, eff. 12-4-76]—(NAC A by R151-06, 9-18-2006)	
	445B.260 (Superseded 445.687)	<b>Monitoring systems: Components contracted for before September 11, 1974.</b> 1. Except as otherwise provided in subsection 2, an owner or operator who, before September 11, 1974, entered into a binding contractual obligation to purchase specific continuous monitoring system components shall comply with the following requirements: (a) Continuous monitoring systems for measuring opacity of emissions must be capable of measuring, with a confidence level of 95 percent, emission levels within $\pm 20$ percent of the mean value of the data obtained using the applicable reference method set forth in terms of the units of the emission standard. The calibration drift test and associated calculation procedures set forth in Performance Specification 1 in Appendix B of 40 C.F.R. Part 60 must be used for demonstrating compliance with this specification. (b) Continuous monitoring systems for measurement of nitrogen oxides or sulfur dioxide must be capable of measuring, with a confidence level of 95 percent, emission levels within $\pm 20$ percent of the mean value of the data obtained using the applicable reference method set forth in terms of the units of the emission standard. The calibration drift test, the relative accuracy test and associated operating and calculation procedures set forth in Performance Specification 2 in Appendix B of 40 C.F.R. Part 60 must be used for demonstrating compliance with this specification. 2. Owners or operators of all continuous monitoring systems installed on an affected facility before October 6, 1975, are not required to conduct tests under paragraphs (a) and (b) of subsection 1 unless requested by the Director. 3. All continuous monitoring systems referred to in subsection 1 must be upgraded or replaced, if necessary, with new continuous monitoring systems, and such improved systems must be demonstrated to comply with applicable performance specifications under NAC 445B.259 by September 11, 1979. [Environmental Comm'n, Air Quality Reg. §§ 2.17.3.2 & 2.17.3.3, eff. 12-4-76; A 12-4-77]—(NAC A by R151-06, 9-18-2006)	(c)(62)(i)(A)(1) ) 72FR19801 4/20/2007
	445B.261 (Superseded 445.688)	<b>Monitoring systems: Adjustments.</b> Owners or operators of all continuous monitoring systems installed in accordance with the provisions of NAC 445B.256 to 445B.267, inclusive, shall check the zero and span drift at least once daily in accordance with the method prescribed by the manufacturer of the systems unless the manufacturer recommends adjustments at shorter intervals, in which case the recommendations must be followed. The zero and span must, as a minimum, be adjusted whenever the 24-hour zero drift or 24-hour calibration drift limits of the applicable performance specifications in Appendix B of 40 C.F.R. § 60 are exceeded. [Environmental Comm'n, Air Quality Reg. part § 2.17.4, eff. 12-4-76; A 12-15-77]—(Substituted in revision for NAC 445.688)	(c)(56)(i)(A) 71FR71486 12/11/2006

	445B.262 (Superseded 445.689)	<p><b>Monitoring systems: Measurement of opacity.</b></p> <p>1. For continuous monitoring systems measuring opacity of emissions, the optical surfaces exposed to the effluent gases must be cleaned before performing the zero or span drift adjustments, except that for systems using automatic zero adjustments, the optical surfaces must be cleaned when the cumulative automatic zero compensation exceeds 4 percent opacity. Unless otherwise approved by the director, the following procedures, as applicable, must be followed:</p> <p>(a) For extractive continuous monitoring systems measuring gases, minimum procedures must include introducing applicable zero and span gas mixtures into the measurement system as near the probe as is practical. Span and zero gases certified by their manufacturer to be traceable to National Institute of Standards and Technology reference gases must be used whenever these reference gases are available. The span and zero gas mixtures must be the same composition as specified in Appendix B of 40 C.F.R. Part 60. Every 6 months after the date of manufacture, span and zero gases must be reanalyzed by conducting triplicate analyses with Reference Methods 6 for SO<sub>2</sub>, 7 for NO, and 3 for O<sub>2</sub> and CO<sub>2</sub>, respectively. The gases may be analyzed at less frequent intervals if longer shelf lives are guaranteed by the manufacturer.</p> <p>(b) For nonextractive continuous monitoring systems measuring gases, minimum procedures include upscale checks using a certified calibration gas cell or test cell which is functionally equivalent to a known gas concentration. The zero check may be performed by computing the zero value from upscale measurements or by mechanically producing a zero condition.</p> <p>(c) For continuous monitoring systems measuring opacity of emissions, minimum procedures include a method for producing a simulated zero opacity condition and an upscale (span) opacity condition using a certified neutral density filter or other related technique to produce a known obscuration of the light beam. These procedures must provide a system check of the analyzer internal optical surfaces and all electronic circuitry including the lamp and photodetector assembly.</p> <p>2. Notwithstanding the provisions of subsection 1, the Director shall not approve an equivalent method or alternative method to determine compliance with a standard or emission limitation contained in Part 60, 61 or 63 of Title 40 of the Code of Federal Regulations for:</p> <p>(a) An emission unit that is subject to a testing requirement pursuant to Part 60, 61 or 63 of Title 40 of the Code of Federal Regulations; or</p> <p>(b) An affected source.</p> <p>[Environmental Comm'n, Air Quality Reg. part § 2.17.4, eff. 12-4-76; § 2.17.4.1, eff. 12-4-76; A 12-15-77; §§ 2.17.4.2 &amp; 2.17.4.3, eff. 12-4-76]—(NAC A by R065-03, 10-30-2003)</p>	(c)(56)(i)(A) 71FR71486 12/11/2006

Article #	NAC #		
		<p>2. The Director shall not issue an operating permit or a revision of an operating permit for any stationary source if the environmental evaluation submitted by the applicant shows, or if the Director determines, in accordance with the provisions of this section, that the stationary source:</p> <p>(a) Will prevent the attainment and maintenance of the state or national ambient air quality standards. For the purposes of this paragraph, only those ambient air quality standards that have been established in <u>NAC 445B.22097</u> need to be considered in the environmental evaluation.</p> <p>(b) Will cause a violation of the applicable state implementation plan.</p> <p>(c) Will cause a violation of any applicable requirement.</p> <p>3. The Director shall not issue an operating permit or a revision of an operating permit for any stationary source if the Director determines, in accordance with subsection 3 of NAC 445B.311, that the degree of emission limitation required for control of an air pollutant under this section is affected by that amount of the stack height of any source as exceeds good engineering practice stack height, including a good engineering practice stack height demonstrated by a fluid model or a field study approved by the Director in accordance with paragraph (c) of subsection 1 of NAC 445B.083, or any other dispersion technique.</p> <p>6. To be issued an operating permit or a revision of an operating permit, the owner or operator of a major stationary source or major modification who proposes to construct in any area designated as attainment or unclassifiable under 42 U.S.C. § 7407(d) must comply with the provisions of 40 C.F.R. § 52.21, as adopted by reference in <u>NAC 445B.221</u>.</p> <p>7. The Director may impose any reasonable conditions on his approval, including conditions requiring the owner or operator of the stationary source to:</p> <p>(a) Conduct monitoring of the quality of the ambient air at the facility site for a reasonable period before the commencement of construction or modification and for any specified period after operation has begun at the stationary source; and</p> <p>(b) Meet standards for emissions that are more stringent than those found in <u>NAC 445B.001</u> to <u>445B.3689</u>, inclusive.</p> <p>8. If a proposed stationary source located on contiguous property is constructed or modified in phases which individually are not subject to review as provided in <u>NAC 445B.308</u> to <u>445B.314</u>, inclusive, all phases occurring since November 7, 1975, must be added together for determining the applicability of those sections.</p> <p>9. Approval and issuance of an operating permit or a revision of an operating permit for any stationary source does not affect the responsibilities of the owner or owners to comply with any other portion of the applicable state implementation plan. [Environmental Comm'n, Air Quality Reg. § 13.1.1, eff. 11-7-75; A 8-28-79; § 13.1.3, eff. 11-7-75; A 8-28-79; 2-28-80; §§ 13.1.4-13.1.7, eff. 11-7-75]—(NAC A 10-22-87; 9-19-90; 11-23-92; 12-13-93, eff. 11-15-94; 3-29-94, eff. 11-15-94; 10-30-95; R105-97, 3-5-98; R103-02, 12-17-2002; R125-04, 9-24-2004; R096-05, 10-31-2005; R139-06 &amp; R151-06, 9-18-2006; R142-07, 4-17-2008)</p>	
13.1		General Provisions for the Review of New Sources	(c)(16)(viii)
13.1.1		Prior to the issuance of any registration certificates in accordance with this Article the applicant shall submit to the Director an	(c)(16)(viii)

		environmental evaluation and any other information the Director may deem necessary to make an independent air quality impact assessment.	
13.1.3		The Director shall not issue a registration certificate for any point source if: 2. The source is located in any designated nonattainment area and: a. The lowest achievable emission rate for each nonattainment pollutant from the source is not defined and adopted as an emission limitation for the source; b. Any other source within this state which is owned, operated or controlled by the applicant is not in compliance or on a schedule of compliance with these regulations and all other applicable emission limitations or variances as provided in NRS 445.506 to 445.521, inclusive; c. The total allowable emissions of each nonattainment pollutant from (1) the existing sources in the area, (2) those sources in the area which have received their respective registration certificates and (3) the proposed source will not be sufficiently less, by the time the proposed source is to commence operation, than the total emissions from (1) the existing sources and (2) those sources in the area which have received their respective registration certificates before the proposed source makes application for its registration certificate, so that reasonable further progress is achieved; d. The emissions from the source will cause or contribute to emission levels which exceed the allowance permitted for such a pollutant for the nonattainment area.	(c)(18)(i)
13.2		A user of any of the following new single sources or modifications to an existing single source which would cause increases to existing single sources as specified below shall submit an evaluation with its application or applications for registration.	(c)(16)(viii)
13.2.1		Any single source which is allowed an emission of an air contaminant of greater than 10.5 kilograms (23 pounds) per hour.	(c)(16)(viii)
13.2.2		Any combination of single sources located at a single premise which is allowed emission of an air contaminant of greater than 10.5 kilograms (23 pounds) per hour	(c)(16)(viii)
	445B.310	<b>Environmental evaluation: Applicable sources and other subjects; exemption.</b> 1. An applicant for an operating permit, a revision to an operating permit or a request for a change of location, which is not subject to the provisions of 40 C.F.R. § 52.21, as adopted by reference in <u>NAC 445B.221</u> , must submit with the application an environmental evaluation for: (a) A new stationary source which emits, or has the potential to emit, greater than 25 tons of a regulated air pollutant per year; (b) A modification to an existing stationary source that meets the following criteria: (1) The existing stationary source has the potential to emit greater than 25 tons of a regulated air pollutant per year; and (2) The proposed modification has the potential to emit greater than 10 tons of a regulated air pollutant per year; (c) The approval of a plantwide applicability limitation or the approval to allow a plantwide applicability limitation to expire and not be renewed; or (d) Upon written notice from the Director, any other source or combination of sources. 2. An owner or operator of a Class II source may request an exemption from the requirement to submit an environmental	77FR59321 9/27/2012

Article #	NAC #		
		<p>showing that the extension is justified.</p> <p>3. An operating permit to construct issued to a new major stationary source or issued for a major modification to an existing stationary source that is subject to the permitting requirements set forth in 40 C.F.R. § 52.21 is subject to the expiration requirements established in 40 C.F.R. § 52.21(r)(2).</p> <p>4. Except as otherwise provided in this subsection, an operating permit to construct expires if a complete application for a Class I operating permit or modification of an existing Class I operating permit is not submitted within 12 months after the date of initial start-up. The provisions of this subsection do not apply to a Class I operating permit to construct for the approval of a plantwide applicability limitation.</p> <p>5. A plantwide applicability limitation expires at the end of the plantwide applicability limitation effective period in accordance with 40 C.F.R. § 52.21(aa)(9), unless the plantwide applicability limitation is renewed pursuant to subsection 3 of <u>NAC 445B.33637</u>. If the owner or operator is not going to renew the plantwide applicability limitation, the operating permit for the Class I stationary source must be revised to incorporate the redistribution of the emissions allowed by the plantwide applicability limitation that is expiring in accordance with subsection 2 of <u>NAC 445B.33637</u>. For the purposes of this subsection, “plantwide applicability limitation effective period” means the “PAL effective period” as that term is defined in 40 C.F.R. § 52.21(aa)(2)(vii).</p> <p>(Added to NAC by Environmental Comm’n by R103-02, eff. 12-17-2002; A by R125-04, 9-24-2004; R139-06, 9-18-2006)</p>	
	445B.3368	<p><b>Additional requirements for application; exception.</b></p> <p>1. The information otherwise required by this section is not required if the owner or operator applied for an operating permit to construct and no changes have been made to the facility. The information provided in the application for the operating permit to construct must be resubmitted as part of the Class I operating permit application.</p> <p>2. In addition to the information required pursuant to <u>NAC 445B.295</u>, an application for a Class I operating permit must include:</p> <p>(a) Descriptions of all emissions of any pollutants for which the source is major and all emissions of regulated air pollutants from all emission units.</p> <p>(b) An identification and a description of all points of emissions and all activities which may generate emissions of the regulated air pollutants described pursuant to paragraph (a) in sufficient detail to establish the basis for the applicability of standards and fees.</p> <p>(c) The emission rates of all regulated air pollutants that are subject to an emissions limitation pursuant to an applicable requirement. The emission rates must be described in tons per year and in such terms as are necessary to establish compliance using the applicable standard reference test method.</p> <p>(d) Any other information required by any applicable requirement.</p> <p>(e) The calculations on which the information in this subsection and subsection 1 are based.</p> <p>(f) Citations to and a description of all applicable requirements.</p> <p>(g) A reference to any applicable test method used for determining compliance with each applicable requirement.</p>	77FR59321 9/27/2012

		<p>revision of a Class I operating permit is received, the Director shall determine whether the application is complete. If substantial additional information is required, the Director shall determine that the application is incomplete and return the application to the applicant. If substantial additional information is not required, the Director shall determine that the application is complete. Unless the Director determines that the application is incomplete within 60 days after the date of receipt, the official date of submittal shall be deemed to be the date on which the Director determines that the application is complete or 61 days after the date of receipt, whichever is earlier.</p> <p>2. For sources subject to the permitting requirements set forth in 40 C.F.R. § 52.21, within 30 days after the date of receipt of an application for a Class I operating permit or for the revision of a Class I operating permit, the Director shall determine whether the application contains adequate information to process the application. The official date of submittal of the application shall be deemed to be 31 days after the date of receipt, unless the Director determines before that date that substantial additional information is required. If the Director determines that substantial additional information is required, the Director shall return the application to the applicant. The Director shall require the applicant to submit a new application or the applicant may formally withdraw the application.</p> <p>3. If, after the official date of submittal, the Director discovers that additional information is required to act on the application, the Director may request such additional information that is necessary to determine whether the proposed operation will comply with all the requirements set forth in <u>NAC 445B.001</u> to <u>445B.3689</u>, inclusive. The applicant must provide in writing any additional information that the Director requests within the time specified in the request of the Director. Any delay in the submittal of the requested information will result in a corresponding delay in the action of the Director on the application submitted to the Director pursuant to subsection 1 or 2.</p> <p>4. Except as otherwise provided in this section, within 180 days after the official date of submittal of an application for a Class I operating permit or for the revision of a Class I operating permit, the Director shall make a preliminary determination to issue or deny the Class I operating permit or the revision of the Class I operating permit. The Director shall give preliminary notice of his intent to issue or deny the Class I operating permit or the revision of the Class I operating permit within 180 days after the official date of submittal.</p> <p>5. Within 10 working days after the receipt of an application for a minor revision of a Class I operating permit, the Director shall determine whether the application is complete. If substantial additional information is required, the Director shall determine the application to be incomplete and return the application to the applicant. If substantial additional information is not required, the Director shall determine the application to be complete. Unless the Director determines that the application is incomplete within 10 working days after the date on which the Director receives the application, the official date of submittal is the date on which the Director determines that the application is complete or 11 working days after the date of receipt, whichever is earlier.</p> <p>6. The Director's review and preliminary intent to issue or deny a Class I operating permit or the revision of a Class I operating permit and the proposed conditions for the Class I operating permit must be made public and maintained on file with the Director during normal business hours at 901 South Stewart Street, Suite 4001, Carson City, Nevada 89701-5249 and in</p>

		<p>contained in NAC 445B.22097 and the applicable state implementation plan.</p> <p>6. A Class II general permit must set forth the criteria by which stationary sources may qualify for the Class II general permit.</p> <p>7. After the effective date of a Class II general permit, the owner or operator of any stationary source that meets the criteria set forth in the Class II general permit may request authority to operate under the Class II general permit. The request must be in writing and must include all the information required by the Class II general permit.</p> <p>8. The Director shall grant or deny authority to operate under a Class II general permit within 30 days after his receipt of a request for such authority. The Director's decision to grant or deny an application for authority to operate under the terms of a Class II general permit is not subject to the requirements of <u>NAC 445B.3457</u>.</p> <p>9. A person may challenge the provisions of a Class II general permit only at the time the Class II general permit is issued. The Director's grant or denial of authority to operate under a Class II general permit to a stationary source or stationary sources does not provide an opportunity for an administrative review or a judicial review of the Class II general permit.</p> <p>10. The Director shall not grant authority to operate under a Class II general permit to an affected source.</p> <p>11. The term of a Class II general permit is 5 years.</p> <p>12. The authority to operate under a Class II general permit expires after 5 years. An owner or operator of a stationary source operating under the authority of a Class II general permit shall apply to renew his authority to operate under the Class II general permit at least 30 days before his authorization expires.</p> <p>13. A stationary source which obtains authorization to operate under a Class II general permit but is later determined not to qualify under the conditions of the Class II general permit may be subject to an action enforcing the prohibition against operating without a permit.</p> <p>(Added to NAC by Environmental Comm'n by R103-02, eff. 12-17-2002; R142-07, 4-17-2008)</p>	
<b>Class III Operating Permits</b>			
	445B.3485	<p><b>Application: General requirements.</b></p> <p>1. If a stationary source operating under a Class II operating permit meets the requirements for a Class III source, the owner or operator of the stationary source may submit an application with the appropriate fee and obtain a Class III operating permit for the stationary source.</p> <p>2. If a new stationary source meets the requirements for a Class III source, the owner or operator of the new stationary source may submit an application with the appropriate fee and obtain a Class III operating permit for the new stationary source. An operating permit must be obtained before commencing construction on a new stationary source.</p> <p>3. An owner or operator of a proposed modification to a stationary source that meets the requirements for a Class III source may submit an application with the appropriate fee and obtain a revised Class III operating permit for the proposed modification to the stationary source. Such an owner or operator shall not commence construction of the proposed modification to the stationary source before filing an application for and obtaining a revised Class III operating permit.</p> <p>(Added to NAC by Environmental Comm'n by R040-01, eff. 10-25-2001; A by R103-02, 12-17-2002; R151-06, 9-18-</p>	77FR59321 9/27/2012

		2006)	
	445B.3487 (Superseded 445.707(3), (5) and (6))	<p><b>Action by Director on application; expiration of permit.</b></p> <p>1. Except as otherwise provided in <u>NAC 445B.319</u> and <u>445B.342</u>, within 10 working days after the date of receipt of an application for a Class III operating permit or for the revision of a Class III operating permit, the Director shall determine if the application is complete. If substantial additional information is required, the Director shall determine that the application is incomplete and return the application to the applicant. If substantial additional information is not required, the Director shall determine the application to be complete. Unless the Director determines that the application is incomplete within 10 working days after the date of receipt of the application, the official date of submittal of the application shall be deemed to be the date on which the Director determines that the application is complete or 11 working days after the date of receipt, whichever is earlier. The Director shall issue or deny a Class III operating permit or the revision of a Class III operating permit within 30 days after the official date of submittal of the application.</p> <p>2. If, after the official date of submittal, the Director discovers that additional information is required to act on the application, the Director may request additional information necessary to determine whether the proposed operation will comply with all of the requirements set forth in <u>NAC 445B.001</u> to <u>445B.3689</u>, inclusive. The applicant must provide in writing any additional information that the Director requests within the time specified in the request of the Director. Any delay in the submittal of the requested information will result in a corresponding delay in the action of the Director on the application submitted to the Director.</p> <p>3. If construction will occur in one phase, a Class III operating permit or the revision of a Class III operating permit for a new or modified stationary source expires if construction is not commenced within 18 months after the date of issuance thereof or construction of the facility is delayed for 18 months or more after the construction begins. The Director may extend the date on which the construction may be commenced upon a showing that the extension is justified.</p> <p>4. If construction will occur in more than one phase, the projected date of commencement of construction of each phase must be approved by the Director. A Class III operating permit or the revision of a Class III operating permit for a new or modified stationary source expires if the initial phase of construction is not commenced within 18 months after the projected date of the commencement of construction approved by the Director. The Director may extend only the date on which the initial phase of construction may be commenced upon a showing that the extension is justified.</p> <p>(Added to NAC by Environmental Comm'n by R103-02, eff. 12-17-2002; A by R151-06, 9-18-2006)</p>	77FR59321 9/27/2012

## **Overview**

The monitoring program of the Nevada Division of Environmental Protection (NDEP) operates an ambient air quality monitoring network of gaseous and particulate pollutant monitors. The monitors are located in small communities throughout rural Nevada. In the metropolitan areas of Reno and Las Vegas; the Washoe County District Health Department, Air Quality Management Division and the Clark County Department of Air Quality and Environmental Management operate and maintain their respective monitoring networks separate from NDEP and submit their Network Plan independently to the United States Environmental Protection Agency (USEPA).

NDEP regulates air quality to protect public health and the environment. Monitoring data is a crucial component of regulations used to determine compliance with the USEPA primary and secondary air quality standards. Other important uses of these monitors include: support and issuance of air quality forecasts, support of long-term health assessments, and tracking long-term air quality both to gauge effectiveness of emission control and abatement strategies and to quantify accuracy of ambient pollutant monitoring.

## **Goals**

NDEP created an ambient air quality monitoring program to provide useful and accurate information on air quality, which is used to evaluate the success of the State's air quality programs. The Clean Air Act of 1970, and subsequent amendments, defines air quality standards for various air pollutants necessary to protect the public from injurious pollution concentrations. Air pollution concentrations that exceed the National Ambient Air Quality Standard (NAAQS) can cause a public health hazard, nuisance, annoyance, or damage to flora, fauna and personal property.

The NAAQS, published by the USEPA, can be found in 40 Code of Federal Regulations (CFR) Part 50, which defines the levels of air quality necessary to protect human health and welfare. An area is considered to be in nonattainment for a pollutant if it has violated the NAAQS for that pollutant. The CFR includes procedures for evaluating measured air quality

against the NAAQS. State air quality standards can be found in Nevada Administrative Code (NAC) 445B.22097.

## **Background**

The State of Nevada has three jurisdictions which independently manage their own air programs as designated by statute: Department of Conservation and Natural Resources (DCNR), Division of Environmental Protection (NDEP), Bureau of Air Quality Planning (BAQP); Washoe County District Health Department, Air Quality Management Division; and Clark County Department of Air Quality and Environmental Management.

State agencies that conduct ambient air monitoring using State and Local Air Monitoring Stations (SLAMS) or Special Purpose Monitoring Stations (SPMS), must use Federal Reference Methods (FRM) or Federal Equivalent Methods (FEM) that comply with federal quality assurance requirements listed in 40 CFR 58, Appendix A. In conjunction with the Network Plan, a BAQP quality assurance plan was developed to form the framework for planning, implementing, assessing and reporting work performed by the BAQP and for implementing quality assurance and quality control protocols.

The Ambient Air Monitoring Program Quality Assurance Project Plan (QAPP) was developed to address quality management as well as quality assurance. The QAPP defines the policies, procedures, specifications, standards, and documentation necessary to: 1) provide data of adequate quality to meet monitoring objectives, and 2) minimize loss of air quality data due to malfunctions or out-of-control conditions. As part of the QAPP, the Quality Management Plan (QMP) describes the organizational structure, functional responsibilities of management and staff, lines of authority, and required interfaces between planning, implementing, assessing and reporting activities involving environmental data operations.

Additionally, the BAQP has developed ambient monitoring guidelines in order to ensure that ambient air quality data collected, at regulated facilities in the State, are of the highest quality and conform to federal requirements for quality assurance listed under 40 CFR 58.

Ambient air quality monitoring data must be certified on an annual basis as accurate and complete. The certification process begins with the complete submittal of all SLAMS data to the federal Air Quality System (AQS) for the calendar year. Submittal of data into AQS for 2010 has been accomplished. BAQP is planning on completing the entry of 2011 data into AQS by the May 1, 2012, deadline. Precision and accuracy reports and certification of that data should also be submitted within that time frame.

## **Network Design**

There are currently nine ambient air quality monitoring stations in Nevada under the jurisdiction of NDEP. Air quality monitoring is represented entirely by SLAMS. The ozone monitoring conducted by NDEP is done on a seasonal basis from April 1 to October 31 of each year. The EPA's approval of a seasonal ozone monitoring schedule for NDEP is documented in Appendix A. There are two meteorological stations, one in Carson City and the other in Pahrump. These are used to confirm the local meteorological data from the monitoring stations.

In addition to these three independent monitoring networks, air quality monitoring is conducted through the Interagency Monitoring of Protected Visual Environments (IMPROVE) network by the federal land management agencies. There are two IMPROVE monitoring sites in Nevada, at the Jarbidge Wilderness area and Great Basin National Park, Lehman Caves.

The following table shows the locations and types of monitors operated by NDEP.

**Table 1: NDEP’S Ambient Air Monitoring Network**

Location	Ozone	Carbon Monoxide	PM10
Elko			1 (SLAMS)
Fallon	1 (SLAMS)		
Stateline- Harvey’s		1 (SLAMS)

SLAMS – State and Local Air Monitoring Station

### **Minimum Monitoring Requirements**

The USEPA provides minimum site requirements for ozone and particulate matter based on metropolitan statistical area (MSA) population. The NDEP’s air monitoring network meets or, in most cases, exceeds the minimum network requirements. The monitors currently required in the NDEP monitoring network by the USEPA are located in Stateline (CO), Carson City (O<sub>3</sub>), Fallon (O<sub>3</sub>), Fernley (O<sub>3</sub>) and Pahrump (PM<sub>10</sub>). The Stateline monitoring site is a continuation of a highest concentration site started by the California Air Resources Board (CARB). Through a Maintenance Plan with USEPA, monitoring and maintenance of this site was assumed by NDEP in August 2006. The four PM<sub>10</sub> monitoring sites in Pahrump are required through a Memorandum of Understanding (MOU) between NDEP, USEPA, Nye County and the Town of Pahrump. Otherwise, according to 40 CFR Part 58 Appendix D: Tables D-4 and D-5; sections 4.2, 4.3.2, 4.3.3, 4.4.2 and 4.5, additional monitoring for criteria pollutants is not presently required. The following table outlines the minimum required monitors within the NDEP ambient air monitoring network.

**Table 2: Minimum Monitoring Requirements by Pollutant**

Pollutant	Minimum # of Monitors Required	# of Monitors Active	# of Monitors needed	Location	MSA/CSA	County(ies)	County Pop. (2009)	Design Values
Ozone	3	3	0	Carson City	Carson City MSA	Carson City	55,176	66 ppb (2009-2011)
				Fallon	Fallon MSA	Churchill	24,897	59 ppb (2009-2011)
				Fernley	Rural	Lyon	52, 641	64 ppb (2009-2011)
CO	1	1	0	South Lake Tahoe	Sacramento-Arden-Truckee CSA	Douglas	45, 464	3.1 ppm (2010-2011)
Lead*	0	0	0	N/A	N/A	N/A	N/A	N/A
SO2*	0	0	0	N/A	N/A	N/A	N/A	N/A
NO2*	0	0	0	N/A	N/A	N/A	N/A	N/A
PM10	4	5	0	Elko (1)	Elko MSA	Elko	47,896	0.8 (2009-2011)
				Pahrump (4)	Pahrump MSA/Las Vegas-Paradise-Pahrump CSA	Nye	44,324	Manse = 2.5 Church = 0.0 Glen Oaks = N/A Linda Street = 0.0 (2009-2011)
Total	8	9	0					

\*Based on 40 CFR Part 58 Appendix D: Tables D-4 and D-5; sections 4.2, 4.3.2, 4.3.3, 4.4.2 and 4.5, additional monitoring for criteria pollutants is not presently required. Additionally, based on the 2008 Lead NAAQS Final Rule, 2010 SO<sub>2</sub> NAAQS Final Rule and the 2010 NO<sub>2</sub> NAAQS Final Rule, NDEP is not required to monitor for these criteria pollutants.

### Changes in Monitoring Network

Over the next 12 months, two significant changes will occur throughout the monitoring network that will impact data submittal for the 2012 year. NDEP will be relocating the ozone monitor currently located at the Carson City Maintenance Yard, to a comparable location 2.5 miles west at a vacant lot with access from Carson Street. This move is necessitated by the city of Carson City re-purposing use of this location. Currently, there are plans and agreements for NDEP to begin moving equipment to this new site with objective to gain 9 months of collocated data until March 2013, which is the approximate date that the NDEP must move from the Carson City Maintenance Yard. The USEPA will be notified when data collection and submittal at the new monitoring site is commenced. The second change will be the removal of the Stateline CO monitor. The NDEP plans to discontinue CO monitoring

at Stateline (located at Harvey's Resort and Hotel on Hwy 50) by June 30, 2012. The NDEP concludes that 33 years of clean data, all of it under 80 percent of the NAAQS and most recently at 34 percent, with on-going downward trends is sufficient evidence of continued attainment through 2024 and satisfies 40 CFR 58.14 requirements for discontinuance.

In 2011, NDEP was informed that we had to relocate our PM<sub>10</sub> monitor located at the Manse School in Pahrump due to the school closing. In February 2011, NDEP submitted a letter to the EPA requesting approval to relocate the monitor. In March of 2011, NDEP received approval to move the existing monitor to the Nye County School District building. However, the Pahrump School District found a new use for the school allowing NDEP to remain at the existing site. At this time, NDEP will continue to monitor at the Manse School. If needed, NDEP has access to the Nye County School District building for our back-up site.

For the next year, NDEP will be evaluating the need to establish a PM<sub>2.5</sub> monitoring network. Over the next five years, through 2017, NDEP will evaluate our current network to determine if any new sites or monitors need to be added to the existing monitoring network.

### **Purpose of Monitors**

The purpose of the Nevada Air Monitoring Network is to provide useful and accurate information on air quality, which is used to evaluate the success of the State's air quality programs. To accomplish this task, the NAAQS is used to identify the criteria pollutants: CO (Carbon Monoxide), Pb (Lead), NO<sub>2</sub> (Nitrogen Dioxide), O<sub>3</sub> (Ozone), particulate matter (PM<sub>10</sub> and PM<sub>2.5</sub>), and SO<sub>2</sub> (Sulfur Dioxide). Measuring pollutant concentrations in outdoor air and comparing the measured concentrations to corresponding standards help to classify ambient air quality status of an area as either attainment or nonattainment. The NAAQS is broken down into primary and secondary standards. Primary standards are those established to protect public health. Secondary standards are those established to protect the public welfare from adverse pollution effects on soils, water, vegetation, man-made materials, animals, weather, visibility, climate, property, and the economy. The scientific criteria upon which the standards are based are reviewed periodically by the USEPA, who may reestablish or change the standards according to its findings.

A pollutant measurement that is greater than the ambient air quality standard for its specific averaging time is called an exceedance. This is not necessarily a synonym for a violation; for each pollutant there are specific rules about how many exceedances are allowed in a given time period before a pattern of exceedances is considered to be a violation of the NAAQS. A violation may result in regulatory action to clean-up the area's air. Exceptions are made to allow for certain limited exceedances of the standard that may occur, for example, during an unusual weather pattern or wildfire (exceptional events). Regulatory action is typically reserved for cases where the exceedances are too large or too frequent.

Historically, ambient air quality monitoring by BAQP has looked at trends in air quality to aid in the local planning process. Traffic, wood burning stoves, and growth related activities have prompted air quality monitoring in specific areas around the State. Data from these sites has led to public education and outreach to communities identifying the potential health effects caused by air pollutants in the environment. Ordinances controlling surface area disturbances and other related activities that produce dust have also been implemented with the help of the monitoring sites.

## **Overview of Monitored Parameters**

### **Carbon Monoxide (CO)**

CO is a poisonous gas that, when introduced into the bloodstream, inhibits the delivery of oxygen to body tissue. The health risk is greatest for individuals with cardiovascular disease.

### **Ozone (O<sub>3</sub>)**

Ground-level ozone, or photochemical smog, is not emitted into the atmosphere as ozone, but rather is formed by the reactions of other pollutants. The primary pollutants entering into this reaction, VOCs and oxides of nitrogen, create ozone in the presence of sunlight. Ozone is a strong irritant of the upper respiratory system and also causes damage to crops.

### **Particulate Matter (PM<sub>10</sub>)**

Particulate matter with an aerodynamic diameter of 10 microns or less is emitted from transportation and industrial sources. Exposure to particle pollution is linked to a variety of significant health problems ranging from aggravated asthma to premature death in people with heart and lung disease.

**Fine Particulate Matter (PM<sub>2.5</sub>)**

Fine particulate matter with a diameter of 2.5 microns or less is created primarily from industrial processes and fuel combustion. These particles are breathed deeply into the lungs. Exposure to particle pollution is linked to a variety of significant health problems ranging from aggravated asthma to premature death in people with heart and lung disease.

## Elko: Detailed Site Information

Prior to 1992 the location for this sampler was the fire station at 723 Railroad Street (ID #32-007-003) in a commercial area. In November of 1992 this continuous PM<sub>10</sub> monitoring site was relocated to the roof of the State offices at 850 Elm Street in a predominantly residential area. The monitoring objective was to determine typical concentration/population oriented. The manual sampler was replaced with a continuous (TEOM) PM<sub>10</sub> monitor in December 1998. In September 2008, the TEOM monitor was closed and a new BAM 1020 monitor was sited at the Elko Grammar School #2.

## Fallon: Detailed Site Information

The ozone monitoring site at 280 South Russell Street is at the West End Elementary School in a residential neighborhood that may be affected by agricultural operations surrounding the City of Fallon. The monitoring objective is to determine typical concentration/population orientation. PM<sub>10</sub> sampling commenced at this site in May 1993 and was discontinued at the end of June 1998. Monitoring for ozone began in October 1999 as an ozone transport site downwind of Reno and Fernley

## Harvey's Casino and Resort: Detailed Site Information

This is a "micro-scale" monitoring site for carbon monoxide in the core of the Stateline casino hotel area at Lake Tahoe. The site is designed to monitor the highest CO concentrations at Lake Tahoe, and is, taken to be representative of the California and Nevada sides of the south shore casino district. Monitoring at this site began in October 1999 and was previously conducted by the California Air Resources Board by multi-agency cooperative agreement. Starting in July of 2006, NDEP took over the monitoring responsibility for this site under a maintenance agreement with EPA.

## Fernley Intermediate School: Detailed Site Information

Ozone monitoring is done at the Fernley Intermediate School which is located at 320 Hardie Lane. This is an area of mainly residential and agricultural use. There has recently been a large growth of industry both upwind and downwind of this site. Monitoring for PM<sub>10</sub> at this site commenced on May 1995, to determine the agricultural and industrial source impacts and population exposure. PM<sub>10</sub> sampling was discontinued in November 1998. Ozone monitoring began at this site July 2007. However, ozone monitoring (SPMS) was previously conducted at the Fernley Volunteer Fire Department starting in October 1997 and discontinued on October 2003.

### 3300 E. 5<sup>th</sup> Street: Detailed Site Information

This site is located at 3300 East Fifth Street near the Carson City Public Works Department maintenance yard in a transition area, adjacent to wetlands, the City yard, sewage treatment plant, residential neighborhood and the new highway extension of US 395. The pollutants monitored included carbon monoxide and ozone (through 1989) and PM<sub>10</sub> (March 1991- February 1997). The monitoring objective is to determine typical concentration/population oriented. In 2007, an existing meteorological station was restarted, and as previously stated, the ozone monitor from Long Street site was relocated to East Fifth Street. At the end of 2009, the PM<sub>2.5</sub> was relocated to this monitoring site.

## Church: Detailed Site Information

The Church Site began operation in 2004 to complement the existing three other sites in the Pahrump monitoring network. Monitoring is accomplished with a continuous beta attenuated monitor located in the southeast corner of the Catholic Church. This site represents the southern-most monitoring in Pahrump Valley. The monitoring objective of this site is a significant source of PM<sub>10</sub>. The surrounding area represents residential with little commercial, some native desert with a mix of dirt and paved roads.

## Manse Elementary: Site Detailed Information

The Manse site represents the monitoring objective for highest concentrations of PM<sub>10</sub> in Pahrump. This site replaces the Community Pool site, which at the time it was operating, represented the highest concentrations of PM<sub>10</sub> in Pahrump. Located at 1020 E. Wilson Road, the Manse Elementary site is located on the roof of the school and monitors for PM<sub>10</sub> using the continuous beta attenuation monitor. The area adjacent to this site represents mostly commercial, some residential, and is adjacent to the busiest activity area of Pahrump. This site is located downwind from residential construction developments that have cleared large parcels of ground for building, as well as agricultural areas that cultivate large areas of farm-ground and raise livestock. Roads surrounding this site are both paved and dirt.

<b>Site Name</b>	<b>Manse Elementary</b>

## Glen Oaks: Site Detailed Information

The Willow Creek site was started in 2003 and was located at 1500 Red Butte on the roof of a building in which irrigation equipment for the golf course is housed. The monitoring objective of this site was to measure typical concentrations/population oriented of PM<sub>10</sub> using the beta attenuated monitor. The surrounding area adjacent to this site is fairway/golf course and residential structures. Due to closure of the golf course, the Willow Creek site was relocated to the Glen Oaks sewer treatment plant in 2009. The Glen Oaks site is a short distance away from the existing golf course site and the monitoring objective did not change.

## Linda Street: Site Detailed Information

The Linda Street site was started in 2003 and is located at 8825 North Linda Street. The beta attenuated monitor is located on the roof of an old railroad box car and represents not only the northern-most site in the Pahrump monitoring network, but the most rural area. There is some residential surrounding this site, but mainly native desert vegetation with little or no surface disturbances. The monitoring objective for this site is general background levels of PM<sub>10</sub> in Pahrump.

Ozone Seasonality Approval Letter

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY  
REGION IX  
75 Hawthorne Street  
San Francisco, CA 94105-3901

FEBRUARY 6, 2002

Mr. Chester Sergent, Supervisor  
Ambient Air Monitoring Branch  
Bureau of Air Quality Planning  
Division of Environmental Protection  
Department of Conservation and Natural Resources  
333 W. Nye Lane, Room 138  
Carson City, NV 89706

Dear Mr. <sup>Chest</sup>Sergent:

I have received your letter of January 29, 2002 requesting permission to adjust the ozone monitoring season from year round to April 1 through October 31. We have reviewed the information you provided and approve your request to reduce the ozone monitoring season.

One issue that needs to be addressed is ensuring that EPA's AIRS database is updated to reflect this change in the ozone monitoring season. Failure to do so will result in AIRS showing incomplete ozone data capture rates for the Carson City, Fernley and Fallon monitoring sites. Please have your staff contact our AIRS database manager, Jim Forrest, at (415) 947-4135 to discuss the appropriate procedure for making this change. Please feel free to contact me at (415) 947-4128 if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "R. S. Pallarino".

Carson City, NV 89701

RE: Response to discontinuation and relocation request of Manse Elementary SLAMS PM<sub>10</sub> monitor (AQS ID: 32-023-0014-81102-1)

Dear Mr. Winkelman: <sup>Daren</sup>

On February 24, 2011 we received your official request for the discontinuation of the PM<sub>10</sub> monitor at Manse Elementary School (AQS ID: 32-023-0014-81102-1) and the subsequent relocation of the PM<sub>10</sub> monitor to the nearby Nye County School District office.

After a visit to the proposed relocation site and upon our review of the documentation you have provided, pursuant to 40 CFR 58.14, we approve your selection of the Nye School District building for replacement of the current Manse Elementary School site. Specifically, we have determined that your request meets the provisions under 40 CFR 58.14(c)(6), namely that logistical problems beyond NDEP's control make it impossible to continue operation at the current site and that the replacement site is a nearby location with the same scale of representation. We request that you list the official site address as 208 Dahlia Street, Pahrump, NV 89048 with GPS coordinates (in decimal degrees): 36.212989, -115.996875.

Thank you for your cooperation throughout this process and please feel free to contact Elfego Felix (415) 947-4141 from my staff or myself (415) 972-3851 with any questions or concerns in regards to this matter.

Sincerely,

Matthew Lakin, Manager  
Air Quality Analysis Office

## **Appendix C. Comment Submittal Information**

The proposed 2012 Ambient Air Monitoring Network Plan is posted on the NDEP website for review and comment for thirty (30) days.

Dear Mr. Nastri:

Nevada Revised Statutes 445B.205 designates the Department of Conservation and Natural Resources (Department) as the air pollution control agency for the State of Nevada for the purposes of the Clean Air Act insofar as it pertains to State programs. Within the Department, the Division of Environmental Protection has responsibility to manage the air quality planning and air pollution control programs for the State of Nevada. Therefore, pursuant to Nevada Administrative Code 445B.053, I am hereby assigning the Administrator of the Nevada Division of Environmental Protection, or the Deputy Administrator acting on his behalf, to be my official designee for the purposes of the Clean Air Act, including, but not limited to, adoption, revision and submittal of state plans and state implementation plans.

Sincerely,

Handwritten signature of Allen Biaggi in black ink, with a stylized flourish at the end.

#### Chapter 445B, Air Controls (August 2012 codification):

##### **NAC 445B.221 Adoption by reference and applicability of certain provisions of federal law and regulations. ([NRS 445B.210](#))**

1. Title 40 C.F.R. §§ 51.100(s), 51.100(nn) and 51.301 and Appendix S of 40 C.F.R. Part 51 are hereby adopted by reference as they existed on July 1, 2010.
2. Title 40 C.F.R. § 51.165 is hereby adopted by reference as it existed on July 1, 2002.
3. Appendices M and W of 40 C.F.R. Part 51 are hereby adopted by reference as they existed on July 1, 2010.
4. Title 40 C.F.R. § 52.21 is hereby adopted by reference as it existed on July 18, 2011.
5. Appendix E of 40 C.F.R. Part 52 is hereby adopted by reference as it existed on July 1, 2011.
6. The following subparts of 40 C.F.R. Part 60 are hereby adopted by reference:
  - (a) Subpart A, except §§ 60.4, 60.8(b)(2), 60.8(b)(3), 60.8(g) and 60.11(e), as it existed on July 1, 2011;
  - (b) Section 60.21 of Subpart B, as it existed on July 1, 2011;
  - (c) Subparts C, Cb, Cc, Cd, Ce, D, Da, Db, Dc, E, Ea, Eb, Ec, F, G, H, I, J, K, Ka, Kb, L, M, N, Na, O, P, Q, R, S, T, U, V, W, X, Y, Z, AA, AAa, BB, CC, DD, EE, GG, HH, KK, LL, MM, NN, PP, QQ, RR, SS, TT, UU, VV, VVa, WW, XX, BBB, DDD, FFF, GGG, GGGa, HHH, III, JJJ, KKK, LLL, NNN, OOO, PPP, QQQ, RRR, SSS, TTT, UUU, VVV, AAAA, CCCC, DDDD, EEEE, FFFF and KKKK as they existed on July 1, 2011;
  - (d) Subpart HHHH, except §§ 60.4105(b)(2), 60.4106, 60.4120 to 60.4142, inclusive, 60.4153(a) and (b) and 60.4176, as it existed on June 9, 2006; and
  - (e) Subparts IIII and JJJJ as they existed on August 29, 2011.
7. Appendices A, B and F of 40 C.F.R. Part 60 are hereby adopted by reference:
  - (a) Appendix A as it existed on July 1, 2010; and
  - (b) Appendices B and F as they existed on July 1, 2011.
8. Subparts A, C, D, E, F, H, I, J, K, L, N, O, P, Q, R, T, V, W, Y, BB and FF of 40 C.F.R. Part 61 are hereby adopted by reference as they existed on July 1, 2010.
9. Appendix B of 40 C.F.R. Part 61 is hereby adopted by reference as it existed on July 1, 2010.
10. The following subparts of 40 C.F.R. Part 63 are hereby adopted by reference:
  - (a) Subpart A as it existed on July 1, 2010;
  - (b) Subparts B, C, F, G, H, I, J, L, M, N, O, Q, R, S, T, U, W, X, Y, AA, BB, CC, DD, EE, GG, HH, II, JJ, KK, LL, MM, OO, PP, QQ, RR, SS, TT, UU, VV, WW, XX, YY, CCC, DDD, EEE, GGG, HHH, III, JJJ, LLL, MMM, NNN, OOO, PPP, QQQ, RRR, TTT, UUU, VVV, XXX, AAAA, CCCC, DDDD, EEEE, FFFF, GGGG, HHHH, IIII, JJJJ, KKKK, MMMM, NNNN, OOOO, PPPP, QQQQ, RRRR, SSSS, TTTT, UUUU, VVVV, WWW, XXXX, YYYY, ZZZZ, AAAAA, BBBB, CCCC, DDDD, EEEE, FFFF, GGGG, HHHH, JJJJ, KKKK, LLLL, MMMM, NNNN, PPPP, QQQQ, SSSS, WWWWW, YYYYY, ZZZZ, BBBB, CCCC, DDDD, EEEE, FFFF, GGGG, HHHH, JJJJ, LLLL, MMMM, NNNN, OOOO, PPPP, QQQQ, RRRR, SSSS, TTTT, VVVV, XXXXX, ZZZZ, AAAAA, BBBB, CCCC, DDDD, EEEE, as they existed on July 1, 2011; and
  - (c) Subpart WWWWW as it existed on October 19, 2011.
11. Appendix A of 40 C.F.R. Part 63 is hereby adopted by reference as it existed on July 1, 2011.
12. Title 40 C.F.R. Part 72 is hereby adopted by reference as it existed on July 1, 2011. If the provisions of 40 C.F.R. Part 72 conflict with or are not included in [NAC 445B.001](#) to [445B.3689](#), inclusive, the provisions of 40 C.F.R. Part 72 apply.

13. Title 40 C.F.R. Part 76 is hereby adopted by reference as it existed on July 1, 2011. If the provisions of 40 C.F.R. Part 76 conflict with or are not included in [NAC 445B.001](#) to [445B.3689](#), inclusive, the provisions of 40 C.F.R. Part 76 apply.

14. Title 42 of the United States Code, section 7412(b), List of Hazardous Air Pollutants, is hereby adopted by reference as it existed on October 1, 1993.

15. The *Standard Industrial Classification Manual*, 1987 edition, published by the United States Office of Management and Budget, is hereby adopted by reference. A copy of the manual may be obtained, free of charge, from the United States Department of Labor at the Internet address <http://www.dol.gov>.

16. A copy of the publications which contain the provisions adopted by reference in subsections 1 to 14, inclusive, may be obtained from the:

(a) Division of State Library and Archives of the Department of Administration for 10 cents per page.

(b) Government Printing Office, free of charge, at the Internet address <http://www.gpoaccess.gov/nara/index.html>.

17. The following standards of ASTM International are hereby adopted by reference:

(a) ASTM D5504, "Standard Test Method for Determination of Sulfur Compounds in Natural Gas and Gaseous Fuels by Gas Chromatography and Chemiluminescence," set forth in Volume 05.06 of the *2008 Annual Book of ASTM Standards*. A copy of ASTM D5504 is available by mail from ASTM International, 100 Barr Harbor Drive, West Conshohocken, Pennsylvania 19428-2959, by telephone at (610) 832-9585 or at the Internet address <http://www.astm.org>, for the price of \$40.

(b) ASTM D2234 and D2234M, "Standard Practice for Collection of a Gross Sample of Coal," set forth in Volume 05.06 of the *2008 Annual Book of ASTM Standards*. A copy of ASTM D2234 and D2234M is available by mail from ASTM International, 100 Barr Harbor Drive, West Conshohocken, Pennsylvania 19428-2959, by telephone at (610) 832-9585 or at the Internet address <http://www.astm.org>, for the price of \$40.

(c) ASTM D2013, "Standard Practice for Preparing Coal Samples for Analysis," set forth in Volume 05.06 of the *2008 Annual Book of ASTM Standards*. A copy of ASTM D2013 is available by mail from ASTM International, 100 Barr Harbor Drive, West Conshohocken, Pennsylvania 19428-2959, by telephone at (610) 832-9585 or at the Internet address <http://www.astm.org>, for the price of \$46.

(d) ASTM D6784, "Standard Test Method for Elemental, Oxidized, Particle-Bound and Total Mercury in Flue Gas Generated from Coal-Fired Stationary Sources (Ontario Hydro Method)," set forth in Volume 11.07 of the *2008 Annual Book of ASTM Standards*. A copy of ASTM D6784 is available by mail from ASTM International, 100 Barr Harbor Drive, West Conshohocken, Pennsylvania 19428-2959, by telephone at (610) 832-9585 or at the Internet address <http://www.astm.org>, for the price of \$46.

(e) ASTM D2015, "Standard Test Method for Gross Calorific Value of Coal and Coke by the Adiabatic Bomb Calorimeter," dated April 10, 2000. A copy of ASTM D2015 is available for purchase at the IHS Standards Store, 15 Inverness Way East, M/S A110B, Englewood, Colorado 80112, or at the Internet address <http://global.ihs.com>, for the price of \$56.

(f) ASTM D3286, "Standard Test Method for Gross Calorific Value of Coal and Coke by the Isoperibol Bomb Calorimeter," dated July 10, 1996. A copy of ASTM D3286 is available for purchase at the IHS Standards Store, 15 Inverness Way East, M/S A110B, Englewood, Colorado 80112, or at the Internet address <http://global.ihs.com>, for the price of \$56.

(g) ASTM D1989, "Standard Test Method for Gross Calorific Value of Coal and Coke by Microprocessor Controlled Isoperibol Calorimeters," dated July 10, 1997. A copy of ASTM D1989 is available for purchase at the IHS Standards Store, 15 Inverness Way East, M/S A110B, Englewood, Colorado 80112, or at the Internet address <http://global.ihs.com>, for the price of \$56.

18. For the purposes of the provisions of 40 C.F.R. Parts 60, 61 and 63, adopted by reference pursuant to this section, the Director may not approve alternate or equivalent test methods or alternative standards or work practices.

19. Except as otherwise provided in subsections 12 and 13, the provisions adopted by reference in this section supersede the requirements of [NAC 445B.001](#) to [445B.3689](#), inclusive, for all stationary sources subject to the provisions adopted by reference only if those requirements adopted by reference are more stringent.

20. For the purposes of this section, "administrator" as used in the provisions of 40 C.F.R. Part 60, except Subpart B § 60.21 and Subpart HHHH §§ 60.4101 to 60.4105, inclusive, 60.4107 to 60.4114, inclusive, 60.4151 to 60.4173, inclusive, and 60.4175, and Parts 61 and 63, adopted by reference pursuant to this section, means the Director.

## **Nevada Revised Statutes**

### **Title 18 Chapter 233B, Nevada Administrative Procedure Act:**

#### **NRS 233B.060 Notice of adoption, amendment or repeal of permanent or temporary regulation; adoption of permanent regulation after adoption of temporary regulation.**

1. Except as otherwise provided in subsection 2 and [NRS 233B.061](#), before adopting, amending or repealing:
  - (a) A permanent regulation, the agency must, after receiving the approved or revised text of the proposed regulation prepared by the Legislative Counsel pursuant to [NRS 233B.063](#), give at least 30 days' notice of its intended action, unless a shorter period of notice is specifically permitted by statute.
  - (b) A temporary regulation, the agency must give at least 30 days' notice of its intended action, unless a shorter period of notice is specifically permitted by statute.
2. Except as otherwise provided in subsection 3, if an agency has adopted a temporary regulation after notice and the opportunity for a hearing as provided in this chapter, it may adopt, after providing a second notice and the opportunity for a hearing, a permanent regulation, but the language of the permanent regulation must first be approved or revised by the Legislative Counsel and the adopted regulation must be approved by the Legislative Commission or the Subcommittee to Review Regulations appointed pursuant to subsection 6 of [NRS 233B.067](#).
3. If the Public Utilities Commission of Nevada has adopted a temporary regulation after notice and the opportunity for a hearing as provided in this chapter, it may adopt a substantively equivalent permanent regulation without further notice or hearing, but the language of the permanent regulation must first be approved or revised by the Legislative Counsel and the adopted regulation must be approved by the Legislative Commission or the Subcommittee to Review Regulations.

(Added to NRS by 1965, 964; A 1973, 621; 1975, 1157, 1413; 1977, 1386, 1547, 1549; 1981, 186; 1983, 1123, 1244; 1995, 130; [1997, 1973](#); [2007, 871](#); [2009, 2284](#))

#### **NRS 233B.0603 Contents and form of notice of intent to adopt, amend or repeal permanent or temporary regulation; solicitation of comments from public or affected businesses.**

1. The notice of intent to act upon a regulation required pursuant to [NRS 233B.060](#) must:
  - (a) Include:
    - (1) A statement of the need for and purpose of the proposed regulation.
    - (2) If the proposed regulation is a temporary regulation, either the terms or substance of the proposed regulation or a description of the subjects and issues involved.
    - (3) If the proposed regulation is a permanent regulation, a statement explaining how to obtain the approved or revised text of the proposed regulation prepared by the Legislative Counsel pursuant to [NRS 233B.063](#).
    - (4) A statement of the estimated economic effect of the regulation on the business which it is to regulate and on the public. These must be stated separately and in each case must include:
      - (I) Both adverse and beneficial effects; and
      - (II) Both immediate and long-term effects.
    - (5) A statement identifying the methods used by the agency in determining the impact on a small business prepared pursuant to subsection 3 of [NRS 233B.0608](#).
    - (6) The estimated cost to the agency for enforcement of the proposed regulation.
    - (7) A description of any regulations of other state or local governmental agencies which the proposed regulation overlaps or duplicates and a statement explaining why the duplication or overlapping is necessary. If the regulation overlaps or duplicates a federal regulation, the notice must include the name of the regulating federal agency.
    - (8) If the regulation is required pursuant to federal law, a citation and description of the federal law.

(9) If the regulation includes provisions which are more stringent than a federal regulation that regulates the same activity, a summary of such provisions.

(10) The time when, the place where and the manner in which interested persons may present their views regarding the proposed regulation.

(b) If the proposed regulation is a temporary regulation, state each address at which the text of the proposed regulation may be inspected and copied.

(c) Include an exact copy of the provisions of subsection 2 of [NRS 233B.064](#).

(d) Include a statement indicating whether the regulation establishes a new fee or increases an existing fee.

(e) Be mailed to all persons who have requested in writing that they be placed upon a mailing list, which must be kept by the agency for that purpose.

(f) Be submitted to the Legislative Counsel Bureau for inclusion in the Register of Administrative Regulations created pursuant to [NRS 233B.0653](#). The publication of a notice of intent to act upon a regulation in the Register does not satisfy the requirements for notice set forth in paragraph (e).

2. The Attorney General may by regulation prescribe the form of notice to be used.

3. In addition to distributing the notice to each recipient of the agency's regulations, the agency shall also solicit comment generally from the public and from businesses to be affected by the proposed regulation.

(Added to NRS by 1983, 1124; A 1995, 130, 239; [1997, 184, 1390](#); [2005, 1479](#); [2007, 872](#))

### **NRS 233B.061 Proposed permanent or temporary regulation: Public comment; workshop; public hearing; applicability of Open Meeting Law.**

1. All interested persons must be afforded a reasonable opportunity to submit data, views or arguments upon a proposed regulation, orally or in writing.

2. Before holding the public hearing required pursuant to subsection 3, an agency shall conduct at least one workshop to solicit comments from interested persons on one or more general topics to be addressed in a proposed regulation. Not less than 15 days before the workshop, the agency shall provide notice of the time and place set for the workshop:

(a) In writing to each person who has requested to be placed on a mailing list; and

(b) In any other manner reasonably calculated to provide such notice to the general public and any business that may be affected by a proposed regulation which addresses the general topics to be considered at the workshop.

3. With respect to substantive regulations, the agency shall set a time and place for an oral public hearing, but if no one appears who will be directly affected by the proposed regulation and requests an oral hearing, the agency may proceed immediately to act upon any written submissions. The agency shall consider fully all written and oral submissions respecting the proposed regulation.

4. An agency shall not hold the public hearing required pursuant to subsection 3 on the same day that the agency holds the workshop required pursuant to subsection 2.

5. Each workshop and public hearing required pursuant to subsections 2 and 3 must be conducted in accordance with the provisions of [chapter 241](#) of NRS.

(Added to NRS by 1983, 1125; A 1989, 571; [1997, 185](#); [2005, 1407](#); [2007, 873](#); [2009, 2284](#))

## **Title 40 Chapter 445B, Air Pollution:**

### **NRS 445B.100 Declaration of public policy.**

1. It is the public policy of the State of Nevada and the purpose of [NRS 445B.100](#) to [445B.640](#), inclusive, to achieve and maintain levels of air quality which will protect human health and safety, prevent injury to plant and animal life, prevent damage to property, and preserve visibility and scenic, esthetic and historic values of the State.

2. It is the intent of [NRS 445B.100](#) to [445B.640](#), inclusive, to:

(a) Require the use of reasonably available methods to prevent, reduce or control air pollution throughout the State of Nevada;

(b) Maintain cooperative programs between the State and its local governments; and

(c) Facilitate cooperation across jurisdictional lines in dealing with problems of air pollution not confined within a single jurisdiction.

3. The quality of air is declared to be affected with the public interest, and [NRS 445B.100](#) to [445B.640](#), inclusive, are enacted in the exercise of the police power of this State to protect the health, peace, safety and general welfare of its people.

4. It is also the public policy of this State:

(a) To provide for the integration of all programs for the prevention of accidents in this State involving chemicals, including, without limitation, accidents involving hazardous air pollutants, highly hazardous chemicals, highly hazardous substances and extremely hazardous substances; and

(b) Periodically to retire a portion of the emission credits or allocations specified in [NRS 445B.235](#) that may otherwise be available for banking or for sale pursuant to that section.

(Added to NRS by 1971, 1191; A 1993, 2851; [2007, 1023, 3311](#))

**APPENDIX F**

**EVIDENCE OF PUBLIC PARTICIPATION**

**(This page left intentionally blank.)**

## NOTICE OF PUBLIC COMMENT PERIOD BEGINNING DECEMBER 14, 2012 AND A PUBLIC HEARING ON JANUARY 15, 2013, IF REQUESTED

Conducted by the Nevada Division of Environmental Protection  
Bureau of Air Quality Planning

Pursuant to the public hearing requirements in Title 40 of the Code of Federal Regulations Part 51 section 102, the Nevada Division of Environmental Protection (NDEP) is issuing the following notice and is taking comment on a proposed certification that the existing Nevada State Implementation Plan (SIP) is adequate for implementation of the 2010 nitrogen dioxide national ambient air quality standard (NAAQS).

On February 9, 2010, the United States Environmental Protection Agency (US EPA) published (75 FR 6474) a new 1-hour NAAQS for oxides of nitrogen as measured by nitrogen dioxide (NO<sub>2</sub>) to supplement the existing annual standard, effective April 12, 2010. When US EPA promulgates a new standard or revises an existing standard, Clean Air Act section 110(a)(1) requires each state to submit a plan showing they have the authority and programs needed to implement, maintain, and enforce the standard, regardless of designation status. This documentation is submitted to US EPA for approval and is generally referred to as an "infrastructure SIP." States must submit an infrastructure SIP within three years after a federal standard is adopted or revised. Nevada's NO<sub>2</sub> infrastructure SIP will be submitted to US EPA by January 22, 2013, the submittal deadline.

The NDEP is responsible for developing and implementing state plans in the 15 rural counties of Nevada. Clark County and Washoe County have their own air quality agencies, which are responsible for their respective counties. The NDEP has prepared a draft NO<sub>2</sub> plan demonstrating that Nevada's existing authority and programs meet the requirements of the Clean Air Act. The NDEP's draft infrastructure SIP and related materials are available on the NDEP website at <http://ndep.nv.gov/admin/public.htm>, click on "Air Quality Planning." Access to the draft document may also be obtained by contacting Frank Forsgren at NDEP, 901 S. Stewart Street, Suite 4001, Carson City, NV 89701; (775) 687-9364; or e-mail to [fforsgre@ndep.nv.gov](mailto:fforsgre@ndep.nv.gov).

Persons wishing to comment on the proposed Nevada Clean Air Act section 110(a)(2) submittal or to request a public hearing should submit their comments or request **in writing** either in person or by mail or fax to Frank Forsgren at the above address or by fax at (775) 687-6396. ***A request for a hearing must be received by January 7, 2013. Written comments will be received by the NDEP until 5:00 PM PST, January 15, 2013 and will be retained and considered.***

Upon receipt of a valid written request, the NDEP will hold a public hearing in Carson City on:

January 15, 2013  
10:00 a.m. to 12:00 p.m.  
Great Basin Conference Room, 4<sup>th</sup> Floor  
901 South Stewart Street  
Carson City, Nevada

An agenda will be posted on the NDEP web site at least 3 working days before the hearing. Oral comments will be received at the Hearing. If no request for a public hearing is received by January 7, 2013, the hearing will be cancelled. Persons may check on the status of the hearing on the NDEP web site at <http://ndep.nv.gov/admin/public.htm>, click on "Air Quality Planning," or you may call the NDEP Bureau of Air Quality Planning at (775) 687-9349.

*This notice has been published in the Las Vegas Review-Journal and the Reno Gazette Journal newspapers. It has been posted at the NDEP offices in Carson City and Las Vegas, at the State Library in Carson City and at County libraries throughout Nevada. Members of the public who are disabled and require special accommodations or assistance at the hearing are requested to notify Frank Forsgren or Cathy Douglas (775-687-9349) no later than 3 working days before the hearing.*

## NOTICE OF CANCELLATION OF PUBLIC HEARING ON January 15, 2013

Nevada Division of Environmental Protection  
Bureau of Air Quality Planning

Pursuant to the public hearing provisions in Title 40 of the Code of Federal Regulations Part 51 section 102, the Nevada Division of Environmental Protection (NDEP) is cancelling the following public hearing because no request for a hearing was received:

**January 15, 2013**

**10:00 a.m. to 12:00 p.m.**

**Great Basin Conference Room, 4<sup>th</sup> Floor**

**901 South Stewart Street**

**Carson City, Nevada**

The NDEP's draft NO<sub>2</sub> Infrastructure State Implementation Plan (SIP) and related materials are available on the NDEP website at <http://ndep.nv.gov/admin/public.htm>, click on "Air Quality Planning." Persons may also check on the status of Nevada's NO<sub>2</sub> Infrastructure SIP revision by telephone at (775) 687-9364.
