

**DCNR Supplemental Environmental Project List**

Revised 4/7/15

Location	County	Division	Project Description	Environmental Benefit	Estimated Cost	Notes
<b>NORTHWEST REGION</b>						
Fort Churchill	Lyon	Parks	Stream bank restoration	Pollution (sediment) reduction	\$50,000 - \$500,000	
Fort Churchill	Lyon	Parks	Mitigation of environmental damage from muzzleloader shooting range on land adjacent to Fort Churchill	Habitat restoration and potential contaminant source reduction	\$25,000 - \$40,000	Ready
Lake Tahoe	Carson	Parks	Backcountry road/erosion work	Pollution (sediment) reduction	\$125,000	
Lahontan	Lyon, Churchill	Parks	Re-establishment of cottonwoods, removal of tamarisk	Habitat restoration & pollution reduction through establishment of healthy riparian	\$22,000	
Rye Patch	Pershing	Parks	Re-seeding upland areas/campground	Wildlife habitat restoration	\$8,000	Ready
Rye Patch	Pershing	Parks	East Cove re-seeding	Pollution reduction	\$8,000	Ready
Washoe Lake	Washoe	Parks	Re-seeding	Habitat restoration, ecosystem enhancement	\$6,000	
Washoe Lake	Washoe	Parks	Wetlands surface pump repair	Ecosystem enhancement	\$65,000	Ready
Carson City, Douglas County	Carson, Douglas	Env Prot	Woodstove change-out program will provide "instant rebates" through select woodstove dealers to consumers who relinquish a non-EPA compliant stove and purchase a new compliant stove	Reduce particulate air pollution	\$50,000 - \$250,000	Ready. Project could be phased depending on available funds.
Northern tier of the state, unspecified	Humboldt, Pershing, Elko	Forestry	Sage grouse habitat rehabilitation on 78,000 acres of privately owned land destroyed by wildland fire in 2012	Wildlife habitat restoration	\$50,000 - \$1,000,000	Project could be phased depending on available funds
<b>NORTHEAST REGION</b>						
South Fork	Elko	Parks	South Meadows restoration	Wildlife habitat restoration	\$5,000	
South Fork	Elko	Parks	Modification of near-vertical bank along the southwest shore of South Fork Reservoir to an approximate 3:1 slope	Environmental restoration	\$65,000	Ready
Northern tier of the state, unspecified	Humboldt, Pershing, Elko	Forestry	Sage grouse habitat rehabilitation on 78,000 acres of privately owned land destroyed by wildland fire in 2012	Wildlife habitat restoration	\$50,000 - \$1,000,000	Project could be phased depending on available funds
<b>SOUTHERN REGION</b>						
Big Bend	Clark	Parks	Wash restoration/protection	Pollution (sediment) reduction	\$10,000	Ready/Urgent
Big Bend	Clark	Parks	Beach front erosion remediation	Pollution (sediment) reduction	\$19,000	Match Boating Access Funds applied for
Big Bend	Clark	Parks	Tree planting (Once the tamarisk beetle arrives in the park it is estimated the beetle will kill all the tamarisk with in four years.)	Wildlife habitat restoration	\$22,000	Ready
Spring Mountain	Clark	Parks	Pasture renovation / reseedng	Wildlife habitat restoration	\$12,000	
Spring Mountain Ranch	Clark	Parks	Pruning and tree and soil rehabilitation (compaction) in the picnic area.	Wildlife habitat restoration	\$12,000	Ready
Spring Mountain Ranch	Clark	Parks	Repair unimproved roads in the sandstone canyon including repairing and replacing culverts.	Pollution (sediment) reduction	\$20,000	
Las Vegas NDF Nursery	Clark	Forestry	Solar panel array	Energy conservation/pollution reduction	\$100,000	NV energy has visited the facility and done an assessment and feasibility analysis.
Spring Valley	Lincoln	Parks	Aquatic weed control	Habitat restoration	\$20,000	Ready/Urgent
Spring Valley	Lincoln	Parks	Crested wheat field restoration	Wildlife habitat restoration	\$15,000	Ready
Echo Canyon Reservoir	Lincoln	Parks	Seal or reduce leakage	Water conservation	\$120,000	
Beaver Dam	Lincoln	Parks	Invasive and or native brush in riparian area	Wildlife habitat restoration	\$15,000	
Cathedral, Beaver and Kershaw -Ryan	Lincoln	Parks	Trail improvements once the BLM land is transferred	Wildlife habitat restoration	\$60,000	
Cathedral Gorge	Lincoln	Parks	Tree replacement	Wildlife habitat restoration	\$12,000	Ongoing/Ready
Beaver Dam	Lincoln	Parks	Forest health (NDF is working on it)	Habitat restoration, ecosystem enhancement	\$10,000	

STATEWIDE						
Statewide, unspecified	Unspecified	Env Prot	Mitigation of environmental issues at Abandoned Mine Lands sites	Environmental restoration	\$100,000 - \$1,000,000	Project could be phased depending on available funds
Statewide, unspecified	Unspecified	Forestry	Noxious weed treatment and eradication on state lands	Wildlife habitat restoration	\$10,000 - \$100,000	Project could be phased depending on available funds
Statewide, unspecified	Unspecified	Forestry	Fuels reduction on state owned lands to reduce wildfire risk to critical habitats and watersheds.	Wildlife habitat restoration	\$50,000 - \$500,000	Project could be phased depending on available funds
Statewide, unspecified	Unspecified	Forestry	Implementation of prescribed fires on state lands where needed to improve soil, water and vegetation quality.	Wildlife habitat restoration	\$50,000 - \$500,000	Project could be phased depending on available funds
