12. Current property tax rate for the area serviced by this water system:

\$ _____ / \$100 Assessed

13. The date on which the publicly owned community water system, publicly owned non-transient water system, or other utility began service:

14. Include a complete and legible legal description of the entire area of service for the capital improvement, including a map showing the layout of the capital improvement, and the location and number of persons served by the capital improvement in relation to maps of the United States Public Lands Survey, assessor's maps, or aerial or other similar maps showing sections and townships.

15. Include a description of how the capital improvements planned by the applicant, if any, makes the community water system or non-transient water system comply with the Bureau of Safe Drinking Water requirements and/or Safe Drinking Water Act for public water systems.

16. Include a description of future capital improvements planned by the applicant, if any, which are not part of the capital improvements included in this letter of intent.

17. It is the intent of the Board for Financing Water Projects to be the last funding source from which a water utility receives funding. Regardless of any other grants a water utility may have received, the water utility must attempt to obtain a loan from the Drinking Water State Revolving Fund, the U.S. Department of Agriculture, Rural Development, and/or other loan sources for the maximum amount possible that will not cause an increase in water rates to exceed 1.5% of the median household income. Include documentation concerning the inability of the applicant to finance the project, including, but not limited to: Letters from local lending institutions; letters from financial advisors, accountants or fiscal agent, if applicable; copies of applications and letters approving or denying approval to governmental loaning agencies including the Safe Drinking Water Revolving Loan Fund, Clean Water Revolving Loan Fund and Federal loan and grant programs.
18. Include a list of previously approved loans to the applicant within the past ten years, including, without limitation, the terms and conditions of payment and a statement of the remaining balances of any outstanding loans.
19. Include three (3) years of audited (or public) financial statements.
20. Include the most recently adopted budget.
21. The estimated cost of operation and maintenance for the capital improvement.
22. Include relevant financial information showing that the community water system, non transient water system or other public utility will be viable upon completion of the project. Attach additional supporting information as necessary.
23. List all necessary planning and zoning permits, including special use permits and variances. If they have been obtained, submit a photocopy or a written authorization to proceed from the agency issuing the permit.
24. Include a statement that a plan for water conservation, adopted pursuant to NRS 540.131, has been approved or will be approved by the Division of Water Resources prior to the submission of a grant application. If a plan has been adopted, include a copy of the plan, the most recent schedule established by the applicant for carrying out the plan, and an analysis of the effectiveness of the plan.
25. Discuss the options available if a grant is not approved for funding by the Board for Financing Water Projects.

26. Provide a time frame for the project – start to finish. Discuss the individual components driving the timeline.
27. Can the applicant fund the capital replacement account required by Board Policy for this project? Please explain.
28. Attach any other information or data deemed necessary by the Division.
29. NAC 349.525 requires the Board, or its designated representative, to hold a public meeting on the proposed project and to provide reasonable notice to members to the public who may be affected by the project. Provide the names and addresses of members of the public who may be affected by the project, if any, to whom the Board should give mailed notice.
30. Submit a signed copy of this application with a copy of the preliminary engineering report and all other supporting materials to:
The Board for Financing Water Projects
Attn: Michelle Stamates, Engineer to the Board
901 South Stewart Street, Ste 4001
Carson City, Nevada 89701

The division may request additional copies if needed.

31. Letters of Intent must be received by the deadline set by the Division. Deadlines are available on the Division's website at <http://ndep.nv.gov/bffwp/bffwp.htm> or by contacting the Division directly at (775) 687-9331.

Please note that per NAC 349.485 Subsection 4: "The approval of a letter of intent by the Board does not guarantee or ensure that any proposed capital improvement will be provided a grant." It is strongly suggested that the applicant review the statues, regulations, and Board policies that govern this grant program.
