Approved UST Operator Trainers

The State of Nevada Division of Environmental Protection, Bureau of Corrective Actions, has approved the training programs listed below for Class A, Class B, and/or Class C operator certifications. Operator training certifications will be verified onsite at the time of UST compliance inspections, and must also be made available upon request by an UST compliance inspector.

(866) 301-8265
www.USTtraining.com

Operator/Trainer:

Proof of training or retraining—A paper or electronic record that, at a minimum includes name of trainee, date trained, and operator class. In addition, records from classroom or field training programs or comparable examination, must be signed by the trainer or examiner and include the printed name of the trainer or examiner, company name, address, and phone number. Records from computer –based training, at a minimum, must include the name of the training program and web address (if internet-based). Records of retraining must include those areas on which the class A or B operator was retrained. Records of training and/or retraining must be maintained as long as the Class A, Class B, and Class C operators are designed at the facility.

Facility:

Maintain a list of designated Class A, B, and C operators for each UST facility— Include operator names, operator class trained, date assumed duties, date completed initial training, and/or date of any retraining. These records must be maintained for all Class A, B, and C operators at the facility or provided upon request of the implementing agency. The facility may use NDEP's [Designated Operator](#) form to meet this requirement.
