Safe Suction (no valve at tank)					

Tank Identification Number:					
Tank No. ____					
5. Piping Material					
Galvanized Steel					
Cathodically Protected					
Fiberglass					
Unknown					
Other (please specify)					
6. Capacity					
7. Substance Currently or Last Stored					
Gasoline					
Diesel					
Kerosene					
Used Oil					
Other (Please Specify)					

I, _____, owner of the tank(s) summarized on this application, request registration of the tank(s) listed for coverage under the State of Nevada Petroleum Fund as allowed by Petroleum Fund Resolutions No. 95-001 and No. 96-002.

I have reviewed Nevada Revised Statue (NRS) 590.870 subsection 2, which requires the listed tanks (and associated piping) to be tested for tightness prior to being eligible for Fund enrollment. I am further aware of the Petroleum Fund regulations outlined in chapter 590 of the NRS and Nevada Administrative Code (NAC), and will comply with them.

Owner's Signature

Date

Please remit an enrollment fee of \$100.00 for each tank. Fiscal years begin October 1st, and end September 30th of each year. Coverage will begin on the date both your payment and passing UST system tightness test results are received. Forward your payment and the original application after making a copy for your files to:

**Nevada Division of Environmental Protection
Bureau of Corrective Actions – Petroleum Fund
901 S Stewart Street, Ste. 4001
Carson City, NV 89701**

Please make checks payable to the:
NDEP – Petroleum Fund
