**2010 Census did not collect MHI data.**

**State MHI (Median Household Income)** is \$55,726 based on 2006-2010 American Community Survey conducted by US Census.

**PWS MHI** is based on 2006-2010 American Community Survey where data are available unless an approve income survey done in the past 5 years is available. If data are not available for a community in the 2006-2010 Survey, 2000 Census or individual income survey was used. Current MHI will always be reviewed before a loan is recommended for approval.
