Hazardous waste, as defined by State and Federal Regulations.  
PCB waste, as defined by State and Federal Regulations.

**8. The following documents\*, as submitted by Lander County and approved by the Nevada Division of Environmental Protection, also describe and/or restrict the operation of this disposal site, as revised in the October 16, 1997 Response to Technical Review:**

(a) Plan of Operations	(c) Closure Plan	(e) Response to Technical Review dated 10/16/97
(b) Report of Design	(d) Postclosure Plan	

\*The Application for a Permit to Operate a Class II Municipal Landfill is composed of the above documents.

**9. The following conditions are also incorporated as a part of this permit:**

- (a) Compliance with NRS 444.440 through 444.620, inclusive, and NAC 444.570 through 444.7499.
- (b) Special waste disposal conditions:
  - (i) The permittee shall conform to the requirements of NAC 444.976 for the disposal of asbestos.
  - (ii) Quantities of waste tires greater than ten (10) shall be either (a) buried with C&D waste that is disposed of separately from municipal solid waste, or, if codisposed with municipal solid waste, (b) placed in a single layer and covered with a compacted layer of cover material at least as thick as the layer of tires.
  - (iii) Sewage sludge and septic tank pumpings may not be disposed of directly in the landfill, they must be disposed of in accordance with Section 2.7.9 of the *Plan of Operations*.
  - (iv) Household Hazardous Waste and Conditionally Exempt Small Generator Waste may not be disposed of in the C&D material cell.
- (c) Operating records will be maintained at the site in accordance with NAC 444.7025 and reports of the quantity of solid waste recieved will be submitted on a semi-annual basis to the Division.
- (d) Complete documentation of financial assurance in compliance with NAC 444.685 to NAC 444.6859, inclusive, shall be entered into the operating records of the site by April 9, 1998. The Division shall be notified when the documentation has been placed in the record.

**10. Findings:**

- a. This permit is consistent with NRS 444.440 through 444.620, inclusive, and NAC 444.570 through 444.7499, inclusive.
- b. This permit is consistent with Federal landfill regulations found in 40 CFR Part 258.
- c. This facility is compatible with local land use planning.
- d. A municipal solid waste management plan has been approved and modifications to the plan reflect this disposal site.

**11. This permit is approved based on the information given in the permit application, and the Addendum to the permit application approved by the Nevada Division of Environmental Protection. This permit may be modified by the Division if the statutes or regulations upon which the issuance of the permit is based change, or if a modification is otherwise necessary to protect public health and safety and the environment. Any discrepancies between information contained in the permit application and the actual construction and operation of the facility may be grounds for revocation of this permit and appropriate enforcement action. The permittee must inform the Division of any deviation from or change in the information in the application which may affect the permittee's ability to comply with applicable regulations or conditions of the permit. This permit may be revoked if written notice is given by the Division and compliance with permit conditions and applicable statutes and regulations is not maintained.**
