

State of Nevada Solid Waste Disposal Site Permit Revision #1

Permit Number: SW0809601

Class I Disposal Site

Class II Disposal Site

Class III Disposal Site

2. Owner and Legal Description of the Facility:
 Humboldt County
 N½NE¼ Sec.1, T36N, R37E and
 S½ SE¼ Sec.36, T37N, R37E

3. Name and Mailing Address of Permittee:
 Humboldt County
 Humboldt County Courthouse
 Room 205
 Winnemucca, NV 89445

4. Name and Mailing Address of Operator (if different from permittee):
 DeLong Construction and Drilling
 833 East Fourth Street
 Winnemucca, NV 89446

5. Permitted Design Parameters:
 Disposal Area (in acres) 27.3 Maximum Elevation (feet *AMSL): approx. 5104
 Disposal Capacity (in cubic yards) 2,010,000 Maximum Depth (feet *AMSL): approx. 4920
 * Above Mean Sea Level

6. Solid Waste Permitted for Disposal:
 Household waste Commercial waste Industrial waste (specify below) Special Wastes (specify below)
Specific industrial and special wastes permitted for disposal:
 Inert construction and demolition debris and other non-hazardous industrial waste as specified in the Plan of Operations.
Special wastes permitted for disposal: Medical wastes, waste tires, household hazardous waste.
 Other wastes that are permitted for disposal: asbestos, yard waste, animal carcasses, and petroleum hydrocarbon contaminated soils.

7. Prohibitions:
 The permittee shall restrict the types and amounts of liquids disposed of according to NAC 444.692. The permittee is prohibited from accepting the following wastes:
 Hazardous waste, as defined by State and Federal Regulations, PCB wastes, bulk liquid wastes. Sewage sludge and solidified septic tank pumpings will no longer be accepted after September 1, 2000.

8. The following documents*, as submitted by Humboldt County and approved by the Nevada Division of Environmental Protection, also describe and/or restrict the operation of this disposal site:

(a) Plan of Operations	(d) Plan for Closure
(b) Report of Design	(e) Plan for Postclosure Care
(c) Groundwater Monitoring and Liner Waiver Application	(f) Addendum to Waiver Application

*The Application for a Permit to Operate a Class I Municipal Landfill is composed of the above documents.

9. The following conditions are also incorporated as a part of this permit:
 (a) Compliance with NRS 444.440 through 444.620, inclusive, and NAC 444.570 through 444.7499.
 (b) Special waste disposal conditions:
 (i) The permittee shall conform to the requirements of NAC 444.976 for the disposal of asbestos.
 (ii) Quantities of waste tires greater than ten (10) shall be either (a) buried with C&D waste that is disposed of separate from municipal solid waste, or, if codisposed with municipal solid waste, (b) placed in a single layer and covered with a compacted layer of cover material at least as thick as the layer of tires.
 (iii) Petroleum hydrocarbon contaminated soils may only be disposed of in accordance with the management plan (amendment to the Operating Plan) submitted on May 1, 2000.
 (c) Operating records will be maintained at the site in accordance with NAC 444.7025 and reports of the quantity of solid waste received will be submitted on a quarterly basis to the Division.
 (d) Complete documentation of financial assurance in compliance with NAC 444.685 to NAC 444.6859, inclusive, shall be entered into the operating records of the site by April 9, 1997. The Division shall be notified when the documentation has been placed in the record.

10. Findings:
 a. This permit is consistent with NRS 444.440 through 444.620, inclusive, and NAC 444.570 through 444.7499, inclusive.
 b. This permit is consistent with Federal landfill regulations found in 40 CFR Part 258.
 c. This facility is compatible with local land use planning.
 d. A municipal solid waste management plan has been approved and the plan reflects this disposal site.

11. This permit is approved based on the information given in the permit application, and the Addendum to the permit application approved by the Nevada Division of Environmental Protection. This permit may be modified by the Division if the statutes or regulations upon which the issuance of the permit is based change, or if a modification is otherwise necessary to protect public health and safety and the environment. Any discrepancies between information contained in the permit application and the actual construction and operation of the facility may be grounds for revocation of this permit and appropriate enforcement action. The permittee must inform the Division of any deviation from or change in the information in the application which may affect the permittee's ability to comply with applicable regulations or conditions of the permit. This permit may be revoked if written notice is given by the Division and compliance with permit conditions and applicable statutes and regulations is not maintained.

Signature of Approving Officer:

Name and Title of Approving Officer:

David Emme
Bureau Chief

Date of Permit Issuance:

6/13/00
