

State of Nevada Solid Waste Disposal Site Permit		1. Permit Number: SW1300001								
<input type="checkbox"/> Class I Disposal Site	<input type="checkbox"/> Class II Disposal Site	<input checked="" type="checkbox"/> Class III Disposal Site								
2. Owner and Legal Description of the Facility: U.S. Department of Energy N 20451324 feet to N 20451826 feet E 1849131 feet to E 1848949 Nevada State Plane Grid- Central Zone, North American Datum, 1983	3. Name and Mailing Address of Permittee: U.S. Department of Energy Nevada Operations Office P.O. Box 98518 Las Vegas, Nevada 89193-8518	4. Name and Mailing Address of Operator (if different from permittee): Bechtel Nevada P.O. Box 98521 Las Vegas, NV 89193-8521								
5. Permitted Design Parameters: <table border="0" style="width: 100%;"> <tr> <td style="width: 33%;">Disposal Area (in acres)</td> <td style="width: 33%; text-align: center;"><u>0.88</u></td> <td style="width: 33%;">Maximum Elevation (feet *AMSL):</td> <td style="text-align: right;"><u>approx. 3,185</u></td> </tr> <tr> <td>Disposal Capacity (in cubic yards)</td> <td style="text-align: center;"><u>5,831</u></td> <td>Maximum Depth (feet *AMSL):</td> <td style="text-align: right;"><u>approx. 3,160</u></td> </tr> </table> <p style="text-align: right;">* Above Mean Sea Level</p>			Disposal Area (in acres)	<u>0.88</u>	Maximum Elevation (feet *AMSL):	<u>approx. 3,185</u>	Disposal Capacity (in cubic yards)	<u>5,831</u>	Maximum Depth (feet *AMSL):	<u>approx. 3,160</u>
Disposal Area (in acres)	<u>0.88</u>	Maximum Elevation (feet *AMSL):	<u>approx. 3,185</u>							
Disposal Capacity (in cubic yards)	<u>5,831</u>	Maximum Depth (feet *AMSL):	<u>approx. 3,160</u>							
6. Solid Waste Permitted for Disposal: <input type="checkbox"/> Household waste <input type="checkbox"/> Commercial waste <input checked="" type="checkbox"/> Industrial waste (specify below) <input checked="" type="checkbox"/> Special Wastes (specify below) <p>Specific industrial wastes permitted for disposal: Solid waste consisting of regulated asbestos or asbestos-containing materials which exhibit a low-level radioactive constituent.</p> <p>Special wastes permitted for disposal: Minor quantities of hydrocarbon-burdened soil and closely related construction and demolition debris which exhibit an added low-level radioactive constituent above the Nevada Test Site Performance Objective for Certification of Nonradioactive Hazardous Waste (U.S. Department of Energy/Nevada Operations Office, December, 1995).</p> <p>Other wastes that are permitted for disposal: NA</p>										
7. Prohibitions: <p>The permittee shall restrict the types and amounts of wastes disposed to those wastes meeting the waste acceptance criteria as described in the approved waste characterization plan contained in the permit application. The permittee is prohibited from accepting the following wastes:</p> <p>High-level radioactive waste, wastes containing alpha-emitting transuranic nuclides with half-lives greater than twenty (20) years in concentrations greater than 100 nanocuries/gram, radioactive wastes from the production of nuclear power for public consumption, hazardous waste as defined by State and Federal Regulations, wastes containing PCBs in concentrations greater than or equal to 50 parts per million, medical waste, sewage and/or septic tank pumpings and sludge, wastes containing free liquids, refrigerators containing Freon and other Freon containing devices, used tires, vehicle batteries, lead, explosives and chemical waste including herbicides and pesticides, and hydrocarbon-contaminated soils and related construction and demolition debris from generators outside the U.S. Department of Energy/Nevada Operations Office complex.</p>										
8. The following documents*, as submitted by U.S. Department of Energy and approved by the Nevada Division of Environmental Protection, also describe and/or restrict the operation of this disposal site: <table border="0" style="width: 100%;"> <tr> <td style="width: 33%;">(a) Plan of Operations</td> <td style="width: 33%;">(c) Plan of Waste Characterization</td> <td style="width: 33%;">(e) Plan for Postclosure Care</td> </tr> <tr> <td>(b) Report of Design</td> <td>(d) Plan for Closure</td> <td></td> </tr> </table> <p>*The Application for a Permit to Operate a Class III Solid Waste Disposal Site includes the above documents dated August, 1999 and as amended November 23, 1999.</p>			(a) Plan of Operations	(c) Plan of Waste Characterization	(e) Plan for Postclosure Care	(b) Report of Design	(d) Plan for Closure			
(a) Plan of Operations	(c) Plan of Waste Characterization	(e) Plan for Postclosure Care								
(b) Report of Design	(d) Plan for Closure									
9. The following conditions are also incorporated as a part of this permit: <p>(a) Compliance with NRS 444.440 through 444.620, inclusive, and NAC 444.570 through 444.7499.</p> <p>(b) The permittee shall conform to the requirements of NAC 444.965 through 444.976 for the disposal of asbestos.</p> <p>(c) Operating records will be maintained at the site in accordance with NAC 444.7025 and reports of the quantity of solid waste received will be submitted on an annual basis to the Division in accordance with NAC 444.747.</p> <p>(d) A plan for closure, which is consistent with the applicable regulations in effect at that time, shall be submitted to the Division of Environmental Protection for review and approval, no later than thirty (30) days prior to initiating closure activities or in accordance with the regulations in effect at that time, whichever is longer.</p> <p>(e) A plan for postclosure care, which is consistent with the applicable regulations in effect at that time, shall be submitted to the Division of Environmental Protection for review and approval, no later than thirty (30) days prior to initiating closure activities or in accordance with the regulations in effect at that time, whichever is longer.</p>										

10. Findings: a. This permit is consistent with NRS 444.440 through 444.620, inclusive, and NAC 444.570 through 444.7499, inclusive. b. This facility is compatible with local land use planning.		
11. This permit is approved based on the information given in the permit application, as approved by the Nevada Division of Environmental Protection. This permit may be modified by the Division if the statutes or regulations upon which the issuance of the permit is based change, or if a modification is otherwise necessary to protect public health and safety and the environment. Any discrepancies between information contained in the permit application and the actual construction and operation of the facility may be grounds for revocation of this permit and appropriate enforcement action. The permittee must inform the Division of any deviation from or change in the information in the application which may affect the permittee's ability to comply with applicable regulations or conditions of the permit. This permit may be revoked if written notice is given by the Division and compliance with permit conditions and applicable statutes and regulations is not maintained.		
Signature of Approving Officer: 	Name and Title of Approving Officer: Paul J. Liebendorfer, P.E., Chief Bureau of Federal Facilities	Date of Permit Issuance: 5 April 2000
