Re: Norcal Waste Systems Crestline Landfill ("NWSCL") Class II Facility  
Lincoln County, NV, Permit No. SW1109801  
Request to Revise Class II Permit to Operate

ENVIRONMENTAL PROTECTION

Dear Mr. Taylor,

On behalf of the Norcal Waste Systems Crestline Landfill, Inc., (NWSCLI), we are submitting this request to revise our Class II Permit to Operate for the Crestline Landfill. Specifically, we request the following:

- Revision to the Final Grading Plan
- Revision to the Vadose Zone Monitoring Plan
- Update to the Engineering Report
- Update to the Plan of Operations

In support of our request to revise our Class II Permit to Operate, the following is attached to replace and/or add to the current operating documents:

- Revised Plan of Operations. The plan has been updated to reflect the revised final grading design, site name, ownership, operations and current regulations. Included is the revised text of the plan, revised table of contents and cover sheet.
- Revised Engineering Report – The report has been updated to reflect the revised final grading design, site name, ownership, operations, and current regulations. Included is the revised text of the report, revised table of contents and cover sheet.
- Revised Final Grading Plan. A full size plan has been prepared that reflects the current waste in place. This drawing is included with this request and replaces Drawing 3 in Appendix 5 of the Engineering Report. A reduced size version plan is also included and replaces the reduced size Drawing 3 located in Appendix 1 of the Engineering Report.

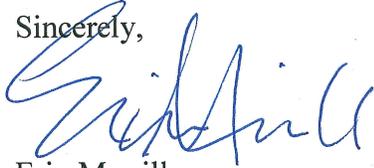

*Proud to be Employee Owned*

PRINTED ON RECYCLED PAPER

- Updated Drainage Analysis. Golder Associates has prepared an updated Drainage Analysis. This plan will replace the current drainage analysis located in Appendix 4 of the Engineering Report.
- Updated Vadose Zone Monitoring Plan. Golder Associates has prepared an updated Vadoze Zone Monitoring Plan which reflects current and future vadose zone monitoring at the Crestline Landfill. This updated plan replaces the plan located in Appendix 6 of the Engineering Report.
- A new Appendix 7 for the Engineering Report is attached that that includes the most recent site Capacity Review.

Thank you for your assistance with this project. If you have any questions, please do not hesitate to contact me at (415) 875-1245 or by email at [emerrill@recology.com](mailto:emerrill@recology.com).

Sincerely,

Erin Merrill  
Planner
