

Waste Tire Hauler Registration Application

NEVADA DIVISION OF
**ENVIRONMENTAL
PROTECTION**

The Nevada Division of Environmental Protection · 901 S. Stewart St, Ste 4001, Carson City, NV 89701-5249

Introduction

In an effort to minimize illegal dumping and uncontrolled stockpiling of waste tires, the State Environmental Commission adopted regulations that establish a registration program for waste tire haulers (NAC 444A.440-444A.460). A waste tire hauler is defined as "a person who transports waste tires or materials derived from waste tires over the highways of this state." Waste tire haulers who are not exempted from regulation are required to obtain a registration number from a solid waste management authority 14 days before beginning operation.

The following haulers **do not need to be registered** as waste tire haulers:

1. Collectors of solid waste who operate pursuant to a license issued by a local government;
2. Persons who generate and transport their own waste tires;
3. Governmental agencies;
4. Persons who transport used tires to be resold or retreadable casings to be retreaded only;
5. Persons who transport tires across state boundaries without loading or unloading tires in this state;
6. Persons who are directed by a solid waste management authority to transport tires for disposal;
7. Persons who transport products made from recycled waste tires for sale or other distribution.

If you are a waste tire hauler who does not fit any of the exempted categories listed above, please complete Sections I, II, III and V, and read and understand Section IV of this application and submit it to the Waste Tire Hauler Program (please see page 4 for contact information).

If operations are conducted in either Clark or Washoe Counties additional registration information is required by the County (please see page 4 for contact information).

When filling out this application please attach additional sheets as necessary to thoroughly answer the questions.

Finally, registering as a waste tire hauler does not exempt a hauler from any other applicable permitting requirements adopted by a local government.

Waste Tire Hauler Registration Application

Section I. Applicant Information

1. Company Name: _____
2. Mailing Address: _____
3. Street Address: _____
4. Phone Number: _____
5. Email Address: _____
6. Type of Ownership: (circle) Individual Partnership Corporation Other:_____
7. List the names, titles, and contact information for **all**: owners, individuals, partners, or corporate officers:

8. Other registration #'s procured by this business (if applicable):

State	Registration or ID Number	Is number Active: Y/N	If No" did the business leave in good standing with the State? (explain)

9. What Counties in Nevada are you planning on operating in:
- _____

Section II. Vehicle Information

Please provide the following information for each vehicle used under your registration number for hauling waste tires or tire-derived material in Nevada. If you add additional vehicles to your fleet, contact the solid waste management authority with the information below.

Vehicle #	License No. State /Year	Vehicle: Year/ Make/Model	Registered Owners
1			
2			
3			
4			
5			

Section III. Disposition of Waste Tires

Provide the location(s) that waste tires will be hauled to and the final use or disposal method of the tires.

Location(s)	Disposition (i.e. landfill, fuel, crumb rubber etc.)

Section IV. Requirements of Registered Waste Tire Haulers

A hauler who fails to comply with the provisions of this section may be subject to enforcement action including the revocation of his/her registration number.

Registration Number: A waste tire hauler registration number must be displayed on each vehicle used to transport waste tires or tire-derived material.

Manifests: A waste tire hauler shall initiate a manifest to transport waste tires from the place where he takes possession of the waste tires from a generator to the place where he deposits the waste tires at a waste tire management facility or a disposal site that is approved by the solid waste management authority. (For a current list of permitted waste tire mgmt. facilities, contact the appropriate solid waste management authority listed under Section VI.).

The manifest shall include the:

- (a) Name of the generator of the waste tires;
- (b) Quantity of tires or tire-derived material in the load, measured in passenger tire equivalents (PTE's) or tons, (where 1 PTE = 1 passenger waste tire or 20 lbs. of tire-derived material);
- (c) Name and registration number of the hauler;
- (d) Date of transport;
- (e) Destination of the waste tires; and
- (f) Signatures of the generator, hauler, and destination facility.

The hauler may use a Bill of Lading or other record-keeping form if it contains the information listed above. The solid waste management authority will not be providing manifest forms.

The hauler shall provide the owner or operator of the destination facility with a completed copy of the manifest and return a completed copy of the manifest to the generator no later than 30 days after the hauler takes possession of the waste tires.

Waste Tire Hauler Registration Application

Reports: A hauler shall submit semiannual reports to the appropriate solid waste management authority/authorities with which they are registered. The hauler shall submit each report within 30 days after the end of the reporting period on a form prescribed by the solid waste management authority.

The report will include:

- (a) The registration number of the hauler;
- (b) The type and quantity of waste tires collected during the reporting period;
- (c) The destination of the waste tires collected; and
- (d) Names of generators or premises from which the waste tires were collected.

A complete copy of the Waste Tire Hauler Regulations can be found at:
