## Notice of Proposed Action

July 12, 2007

The Administrator, Division of Environmental Protection, Carson City, Nevada is issuing the following notice of proposed action under the Nevada Revised Statutes. The Administrator has received an application for renewal with modifications of water pollution control discharge permit NEV80002 from the following applicant:

Nevada Department of Corrections  
P.O. Box 7011  
Carson City, NV 89702

The Nevada Department of Corrections operates Southern Nevada Correctional Center and Jean Conservation Camp in Jean, Nevada (Clark County). The original wastewater treatment system consisted of four asphalt-lined facultative ponds. The treatment facility was recently modified (May, 2006). Modifications included the deepening of the treatment ponds with resultant increase treatment capacity (from 0.065 million gallons per day (MGD) to 0.144 MGD) and lining the ponds with 60-mil HDPE lining. Future improvements are to add mechanical aeration devices to ponds 1 and 3 no later than October 31, 2009. Treated effluent from the ponds is discharged to groundwater of the State via percolation in four rapid infiltration basins. The Division has made the tentative determination to issue (renew) the proposed groundwater discharge permit for a period of five (5) years.

Based on preliminary review of Nevada Revised Statutes and implementing regulations, the Administrator proposes to issue the permit to discharge, subject to the limitations and conditions imposed. Persons wishing to comment upon or object to the proposed determinations by the Administrator regarding permit issuance, or request a hearing pursuant to the Nevada Administrative Code, Water Pollution Control, should submit their comments or request, in writing, within thirty (30) days of the date of newspaper publication, closing at 5:00 P.M. on **August 15, 2007**, either in person or by mail to:
