Notice of Proposed Action

The Administrator of the Division of Environmental Protection gives notice that an application for renewal of a Water Pollution Control Permit for the Coyote Mine, a mining and beneficiation facility, has been properly filed with the Division of Environmental Protection in Carson City. The applicant for the renewal of Water Pollution Control Permit NEV0094113 (2009 Renewal) is:

Coyote Mines, Inc.
Box 9 Coyote Road
HWY US-95 North
Searchlight, NV 89046

The facility is located on private land in Clark County, within Township 28 South, Range 63 East, Sections 14, 15, 22, and 23 Mount Diablo Baseline and Meridian (MDB&M), approximately 1.5 miles north of the town of Searchlight.

The project consists of a mining and physical separation (gravity separation) facility, designed to extract gold, with a maximum permitted production rate of 18,500 tons of ore per year. The facility is comprised of mine, gravity separation mill, a pond, and wells. No chemicals are authorized for use in the process. Facilities are required to be designed, constructed, operated and closed without any discharge or release in excess of those standards established in regulation except for meteorological events which exceed the design storm event.
