## **PUBLIC NOTICE OF PROPOSED ACTION**

Web posting 9/17/09

The Administrator, Division of Environmental Protection, Carson City, Nevada is issuing the following notice of proposed action under the Nevada Revised Statutes (NRS). The Administrator has received a complete new application for a water pollution control discharge permit (Permit # NEV87068) from the following applicant:

**U.S. Department of the Interior  
National Park Service  
Great Basin National Park  
100 Great Basin National Park  
Baker, Nevada 89311-9701**

The applicant operates a low-intensity aeration sewage treatment system and produces chlorinated effluent meeting secondary treatment standards. The treated effluent is discharged to a system of two lined lagoons for evaporation; the ponds can either be operated in parallel or in series. This is a zero discharge facility.

On the basis of preliminary review of the requirements of the NRS as amended, and implementing regulations, the Division has made the tentative determination to issue (renew) this discharge permit for a period of five (5) years.

Persons wishing to comment upon or object to the proposed determinations by the Administrator regarding permit issuance, or request a hearing pursuant to the Nevada Administrative Code, Water Pollution Control, should submit their comments or request, in writing, within thirty (30) days of the date of newspaper publication, hand-delivered, e-mailed, faxed or postmarked no later than 5:00 P.M. PST on **Wednesday, October 21, 2009**, either in person or by mail to:

**Nevada Division of Environmental Protection  
Bureau of Water Pollution Control  
901 S. Stewart Street, Suite 4001  
Carson City, Nevada 89701**

The request must be filed within the comment period and must indicate the interest of the person filing the request and the reasons why a hearing is warranted. All comments or objections received within the thirty (30) day period will be considered in the formulation of final determinations regarding the application. If written comments indicate a significant degree of public interest in the proposed permit, the Administrator shall hold a public hearing. A public notice of such hearing will be issued not less than thirty (30) days prior to the hearing date.

If no hearing is held and the determinations of the Administrator are substantially changed from the tentative determinations, the Administrator will give public notice of the revised determinations. Additional comments
