The Administrator, Division of Environmental Protection, Carson City, Nevada is issuing the following notice of proposed action under the Nevada Revised Statutes. The Administrator has received a complete application for the renewal of the water pollution control Effluent Reuse Discharge Permit NEV2004529 from the applicant:

The applicant operates the Martin Marietta Materials Spanish Springs Quarry at 11059 State Route 445 in Sparks Nevada. Reuse is conducted in accordance with the approved Effluent Management Plan and terms and conditions of this permit. Monitoring is required.

On the basis of preliminary review of the requirements of the Nevada Revised Statutes (NRS) as amended, and implementing regulations, the Administrator proposes to reissue a permit to discharge, subject to certain effluent limitations and special conditions.

Persons wishing to comment upon or object to the proposed determinations by the Administrator regarding permit issuance, or request a hearing pursuant to the Nevada Administrative Code, Water Pollution Control, should submit their comments or request, in writing, by **May 24, 2010**, within thirty (30) days of the date of newspaper publication, either in person, fax to (775)687.4684, or by mail to:

All comments or objections received within the thirty (30) day period will be considered in the formulation of final determinations regarding the applications. If written comments indicate a significant degree of public interest in the proposed permits, the Administrator shall hold a public hearing. A public notice of such hearing will be issued not less than thirty (30) days prior to the hearing date.
