Notice of Proposed Action

Permit #NEV2009112

Ruggeri Stocks LLC

Amy Claims Exploration Project

The Administrator of the Division of Environmental Protection gives notice that an application for a new Water Pollution Control Permit for the Amy Claims Exploration Project, a mining facility, has been properly filed with the Division of Environmental Protection in Carson City. The applicant for Water Pollution Control Permit NEV2009112 is:

Ruggeri Stocks LLC
491 4th Street
Elko, NV 89801

The facility is located on public and private land in Elko County, Nevada, within Section 21, Township 46 North, Range 58 East, Mount Diablo Baseline and Meridian (MDB&M), approximately 72 miles north of the town of Elko.

The project is a physical separation facility designed to extract gold ore, with a maximum permitted extraction rate of 6,000 tons of ore per year. The facility is comprised of an underground mine, ore/waste rock stockpile, stormwater pond, and ore loading area. No chemicals are authorized for use at the site. Ore is transported off-site for processing at a separately permitted mill. Facilities are required to be designed, constructed, operated and closed without any discharge or release in excess of those standards established in regulation except for meteorological events which exceed the design storm event.

The Administrator is constrained to either issue the Water Pollution Control Permit or to deny the application. The Administrator has made the tentative decision to issue the permit.

Persons wishing to comment upon the proposed Water Pollution Control Permit, to recommend terms and conditions for consideration of incorporation into the permit, or who request a public hearing pursuant to Nevada Administrative Code (NAC) Chapter 445A, must submit their written comments, objections, or requests by hand delivery, United States Postal Service, facsimile, or e-

Division of Environmental Protection
Bureau of Mining Regulation and Reclamation

All comments, objections, or requests received during the public notice period will be considered in the final determination regarding this Water Pollution Control Permit. If the Division determines written comments or requests indicate a significant degree of public interest in this matter, the Administrator shall schedule a public hearing in accordance with the requirements of NAC 445A.405.
