The Administrator, Division of Environmental Protection, Carson City, Nevada is issuing the following notice of proposed action under the Nevada Revised Statutes. The Administrator has received an application for renewal and modification of groundwater discharge permit # NEV30015 from the following applicant:

Lander County Combined Sewer & Water District No. #2
P.O. Box 144
Austin, NV 89310

The Permittee operates a pond (lagoon) wastewater treatment facility, constructed in 1987, which is located one and one-quarter miles northwest of the Town of Austin (pop. 275), Lander County, Nevada. The Permittee has proposed to decommission this facility and relocate the treatment works to a more remote site located two miles WNW of the existing treatment pond. Upgrades to the new facility will include screening, flow measurement, pond lining and groundwater quality monitoring. The rated treatment capacity will be 45,000 gallons per day of domestic (sanitary) wastewater. Treated effluent will be discharged into rapid infiltration basins. The Division has made the tentative determination to issue the proposed groundwater discharge permit for a period of five (5) years.

Persons wishing to comment upon or object to the proposed determinations by the Administrator regarding permit issuance, or request a hearing pursuant to the Nevada Administrative Code, Water Pollution Control, should submit their comments or request, in writing, within thirty (30) days of the date of newspaper publication, hand-delivered, e-mailed, faxed or postmarked no later than 5:00 P.M.
