

NOTICE OF PROPOSED ACTION

by the
State of Nevada
Division of Environmental Protection
Bureau of Air Pollution Control

PUBLIC NOTICE

Pursuant to Nevada Revised Statutes (NRS) Chapter 445B and the Nevada Administrative Code (NAC) Chapter 445B, the Division of Environmental Protection is issuing the following notice.

The Administrator has received an application for a Phase-2 Nevada Mercury Operating Permit to Construct from the following applicant:

*Rawhide Mining, LLC
P.O. Box 2070
Fallon, NV 89407*

The Administrator has prepared tentative determinations regarding the Mercury Operating Permit to Construct (MOPTC) AP1041-2245 that, in brief, affect the following existing sources: carbon kiln, electrowinning circuit, furnace, and retort.

The draft MOPTC proposes mercury emissions performance standards and mercury emissions control technologies determined to be NvMACT pursuant to NAC 445B.3683.2(b). Determination of the final NvMACT mercury emissions performance limits for the kiln and retort systems: 1.0×10^{-4} gr/dscf mercury, for the electrowinning system is 5.0×10^{-5} gr/dscf mercury, and 1.0×10^{-5} for the furnace system. Determination of proposed NvMACT mercury emissions control technology for the systems are determined to be: a chilled condenser and carbon filter for the carbon kiln and electrowinning systems; a chilled condenser, carbon filter, and baghouse for the furnace; and a chilled condenser with a primary carbon bed followed by a secondary carbon bed for the mercury retort.

The tentative MOPTC activities include monitoring, recordkeeping, annual stack testing for mercury emissions, annual emissions reporting, annual mercury co-product reporting, limits of operation, and work practice standards which minimize emissions of mercury to the atmosphere. Other permit contents include a mercury emission limit for each unit.

On the basis of the preliminary review and the requirements of the NRS and the NAC, the Administrator is hereby announcing his intent to issue the Mercury Operating Permit to Construct based on review of the information, as proposed. A copy of the draft operating permit is available for public inspection at:

CHURCHILL COUNTY LIBRARY
553 S. MAINE STREET
FALLON, NV 89406

Persons wishing to comment upon the proposed determinations by the Administrator regarding this proposed action or to request a hearing pursuant to NRS 445B Air Pollution and NAC 445B Air Controls should submit their comments or request in writing either in person or by mail or fax within thirty (30) days to:

Rob Bamford
Nevada Division of Environmental Protection
Bureau of Air Pollution Control
901 S. Stewart St., Suite 4001
Carson City, Nevada 89701-5249
(775) 687-9330
(775) 687-6396 FAX

The application, draft permit, any comments received, and other relevant information may be copied at the above address or copies may be obtained by requesting in writing at the above address. Copies of the Director's Review and the draft Mercury Operating Permit to Construct are available for review on the Nevada Division of Environmental Protection-Bureau of Air Pollution Control website at: <http://ndep.nv.gov/bapc/hg/pub.html>. Written comments or objections, will be received at the Division of Environmental Protection, above address, until **April 18, 2011** and will be retained and considered prior to final action on the Mercury Operating Permit to Construct.

Please bring the foregoing notice to the attention of all persons whom you know may be interested in this matter.
