Re: Issuance of Revised Class II Air Quality Operating Permit AP2992-1473.01  
Bango Refining NV, LLC (formerly Bango Oil, LLC; FIN A0511)

Dear Sir/Madam:

The Nevada Division of Environmental Protection, Bureau of Air Pollution Control (NDEP-BAPC) is providing notice of its issuance of a revision to Class II Air Quality Operating Permit AP2992-1473.01. The revised Permit and supporting documents are available upon request.

Please be aware that the regulations (**Nevada Administrative Code**, or **NAC**) regarding public notice of proposed permit actions concerning minor sources were revised effective January 11, 2011. The revisions require public notice of a proposed permit action for a new Class II source, or of a proposed revision to an existing Class II operating permit that would increase the allowable emissions of any criteria pollutant – carbon monoxide, sulfur dioxide, PM10, nitrogen oxides, ozone (measured as volatile organic compounds, or VOC), or lead – above a specific threshold [see **NAC 445B.3457**]. None of the increases in emissions of PM10, nitrogen oxides, carbon monoxide or lead allowed in the revised permit exceed the specified thresholds; hence, the requirements for public notice were not triggered. As an individual who provided comment regarding the renewal operating permit recently issued to Bango Oil, you are being provided with this notice of permit issuance as a courtesy. If you have any questions, please call the NDEP-BAPC at 775-687-9349.

An appeal of revised Class II Air Quality Operating Permit AP2992-1473.01 may be requested pursuant to **Nevada Revised Statutes (NRS) 445B.360** and State Environmental Commission (SEC) administrative rules. Appeals must be received within 10 days of receipt of this notice, pursuant to **NRS 445B.340**; a copy of the SEC appeal form is enclosed. Appeals are processed through John Walker, the Executive Secretary for the SEC, at 901 South Stewart Street, Suite 4001, Carson City, Nevada, 89701-5249. Mr. Walker can be reached at 775-687-9308, or by fax at 775-687-5856.

Thank you,

Lawrence Kennedy, P.E.  
Chief  
Bureau of Air Pollution Control

Enclosure: Director's Review and Final Determination of Permit Issuance  
SEC Appeal Form #3
