The Nevada Division of Environmental Protection (Division) has decided to issue revised Reclamation Permit, No. 0280, for an exploration project to Corvus Gold Nevada, Inc. (Permittee). This permit authorizes the Permittee to reclaim the North Bullfrog Exploration Project (Private) located in Nye County, Nevada. The Division has been provided with a major modification application, in accordance with Nevada Revised Statute (NRS) and Nevada Administrative Code (NAC) 519A to assure the Division that the Permittee will leave the project site safe, stable, and capable of providing for a productive post-mining land use.

This permit will become final July 6, 2012. The final determination of the Administrator may be appealed to the State Environmental Commission (Commission) pursuant to NAC 519A.415. The appeal must be filed by July 2, 2012 and in accordance with administrative rules of the Commission.

This major modification increases the project by 20.3 additional acres on private land to a new total of 25.4 acres. Exploration activities will continue with road and drill pad construction, and drill hole and exploration trenching or test pit development.
