NOTICE OF FINAL DECISION - Bureau of Mining Regulation and Reclamation

Web Posting: 10/25/2012

Deadline for Appeal: 11/05/2012

**Gold Rock Project (Exploration)
Reclamation Permit No. 0326**

Midway Gold US Inc

The Nevada Division of Environmental Protection (Division) has decided to issue revised Reclamation Permit No. 0326 (Permit), for a major modification to the Gold Rock Project (Exploration) operated by Midway Gold US Inc. (Permittee). This Permit authorizes the Permittee to reclaim the Gold Rock Project (Exploration) located in White Pine County, Nevada. The Division has been provided with a modification to the reclamation plan, in accordance with Nevada Revised Statute and Nevada Administrative Code (NAC) 519A requirements, which provides documentation that the Permittee will reclaim the project site to a safe and stable condition, and provide for a productive post-mining land use.

This Permit will become effective November 9, 2012. The final determination of the Administrator may be appealed to the State Environmental Commission (Commission) pursuant to NAC 519A.415. The appeal must be filed by November 5, 2012 and in accordance with administrative rules of the Commission.

This major modification increases the overall permitted disturbance acreage by 125 acres to 267 acres, however, the Phase 1 authorized and bonded disturbance remains at 69.6 acres. All exploration-related disturbances will be on public land administered by the Bureau of Land Management.
