

NOTICE OF PUBLIC HEARING

by the
State of Nevada
Division of Environmental Protection
Bureau of Air Pollution Control

Pursuant to Nevada Revised Statutes (NRS) Chapter 445B, the Nevada Administrative Code (NAC) Chapter 445B, and the Clean Air Act, the Division of Environmental Protection is issuing the following Notice of Proposed Hearing.

The Director received an application for a renewal/revision of Class I Air Quality Operating Permit AP4911-0897 (FIN A0379) from the following applicant:

NV ENERGY
REID GARDNER STATION POWER PLANT (RGSP)
Moapa, Nevada 89025

RGSP is located in Clark County, Nevada. The Director has prepared a tentative determination regarding the renewal/revision that includes, in brief, the following:

- The proposed renewal permit action corrects several errors in the original permit, corrects the operating conditions for several systems to conform to their actual operation as batch processes, updates some emission factors, and redefines how some material handling systems are described in the permit in order to introduce more appropriate emission factors.
- The proposed revision permit action addresses some changes in equipment and emission controls undertaken in response to two Orders issued by the Nevada Division of Environmental Protection (NDEP).

On the basis of the preliminary review and the requirements of the NRS, the NAC and the Clean Air Act, the Director is hereby announcing his intent to issue the Class I Air Quality Operating Permit based on a review of the information submitted.

Pursuant to NAC 445B.3457(7), the Director is providing this notice of a Public Hearing on the proposed action. The Public Hearing will be held on **Tuesday, June 12, 2012** in Overton, Nevada at **6:00 PM** at the following location:
