Colleen Cripps, Ph.D., Administrator

Notice of Proposed Action - Bureau of Mining Regulation and Reclamation

Web Posting: 09/13/2012

Deadline for Comment: 10/15/2012

The Administrator of the Division of Environmental Protection gives notice that an application for a new Water Pollution Control Permit for the **Dun Glen Placer Mine**, a mining and beneficiation facility, has been properly filed with the Division of Environmental Protection in Carson City. The applicant for Water Pollution Control Permit **NEV2012105** (Permit) is:

Dun Glen Mining Corp.
9480 Double Diamond Parkway, Suite 250
Reno, NV 89521

The facility is located on private land in Pershing County, within Sections 15 and 16, Township 33 North, Range 36 East, MDB&M, approximately 20 miles southwest of the town of Winnemucca, Nevada.

The project consists of an open-pit placer mine and physical separation beneficiation facility, designed to extract gold with a maximum permitted production rate of 3,250,000 tons of ore per year. The facility is comprised of several small open pits, an ore hopper, conveyors, a rotating grizzly and trommel, sluice boxes, a concentrating table, a sand screw, a settling tank, three process ponds, a freshwater pond, and two production water wells. Facilities are required to be designed, constructed, operated and closed without any discharge or release in excess of those standards established in regulation except for meteorological events which exceed the design storm event.

The Administrator is constrained to either issue the Permit or to deny the application. The Administrator has made the tentative decision to issue the Permit.

Persons wishing to comment upon the proposed Permit, to recommend terms and conditions for consideration of incorporation into the Permit, or who request a public hearing pursuant to Nevada Administrative Code (NAC) Chapter 445A, must submit their written comments, objections, or requests by hand delivery or US Postal Service, or by facsimile or e-mail transmittal (with the original to be received within five (5) days of transmittal date), no later than 5:00 PM on the 30th day following the date of publication of this notice (by October 15, 2012) to:

Division of Environmental Protection
Bureau of Mining Regulation and Reclamation
901 South Stewart Street, Suite 4001
Carson City, Nevada 89701-5249

All comments, objections, or requests received during the public notice period will be considered in the final determination regarding the Permit. If the Division determines written comments or requests indicate a significant degree of public interest in this matter, the Administrator shall schedule a public hearing in accordance with the requirements of NAC 445A.405.

The draft Permit and all application documents are on file at the Division and are available for public inspection and copying pursuant to NRS 445A.665. For more information, contact Thomas Gray on (775) 687-9403 or visit the Bureau of Mining's website at <http://ndep.nv.gov/bmrr/bmrr01.htm> .
