## NOTICE OF PROPOSED ACTION

The Administrator, Division of Environmental Protection, Carson City, Nevada is issuing the following notice of proposed action in accordance with the Nevada Revised Statutes and implementing regulations. The Administrator has received a complete application for a new Nevada Groundwater Discharge Permit, # NEV2013502, from the following applicant:

**K ROAD MOAPA SOLAR LLC  
ONE EMBARCADERO CENTER, SUITE 360  
SAN FRANCISCO, CA - 94111**

The applicant is proposing to apply water for dust control at the K Road Moapa Solar Facility (K Road), located approximately 15 miles southwest of Moapa Town, Clark County, Nevada. Upon completion, the solar facility will generate up to 250 megawatts (MW) of electricity. Potable water will be extracted from Well TH-1 and Well ECP-1 and discharged to groundwaters of the State via water trucks for dust control use on the access roads located on Bureau of Land Management property. The applicant will be limited to a daily maximum discharge rate of 45,000 gallons per day.

On the basis of preliminary review of the requirements of the Nevada Revised Statutes, as amended, and implementing regulations, the Division has made the tentative determination to issue the discharge permit for a period of five (5) years, subject to certain limitations and special conditions.

Persons wishing to comment upon or object to the proposed determinations by the Administrator regarding permit issuance, or request a hearing pursuant to the Nevada Administrative Code, Water Pollution Control, should submit their comments or request, in writing, within thirty (30) days of the date of newspaper publication, hand-delivered or postmarked no later than **5:00 P.M. on April 22, 2013**, either in person or by mail to:

**Nevada Division of Environmental Protection  
Bureau of Water Pollution Control

Comments and/or hearing requests received via facsimile or e-mail before **5:00 P.M. April 22, 2013** will also be accepted. All requests for hearings must indicate the interest of the person filing the request and the reason(s) why a hearing is warranted. All comments or objections received within the thirty (30) day comment period will be considered in the formulation of final determinations regarding the application. If written comments indicate a significant degree of public interest in the proposed permit, the Administrator shall hold a public hearing. The public notice of such hearings will be issued not less than thirty (30) days prior to the public hearing date.

If no hearing is held and the determinations of the Administrator are substantially changed from the tentative determinations, the Administrator will give public notice of the revised determinations. Additional comments and objections will be considered at that time.
