

STATE OF NEVADA

Department of Conservation & Natural Resources

DIVISION OF ENVIRONMENTAL PROTECTION

Brian Sandoval, Governor

Leo M. Drozdoff, P.E., Director

Colleen Cripps, Ph.D., Administrator

NOTICE OF PUBLIC COMMENT PERIOD BEGINNING FEBRUARY 1, 2013 AND A PUBLIC HEARING ON MARCH 6, 2013, IF REQUESTED

Conducted by the
Nevada Division of Environmental Protection, Bureau of Air Quality Planning

Pursuant to the public hearing requirements in Title 40 of the Code of Federal Regulations Part 51 section 102, the Nevada Division of Environmental Protection (NDEP) is issuing the following notice and is taking comment on a proposal to certify that the existing Nevada State Implementation Plan (SIP) is adequate for implementation of the 2008 8-hour ozone national ambient air quality standards (NAAQS).

On March 27, 2008, the United States Environmental Protection Agency (US EPA) revised the 8-hour primary and secondary ozone NAAQS to a level of 0.075 parts per million (ppm) (73 FR 16436). When US EPA promulgates a new standard or revises an existing standard, Clean Air Act (CAA) section 110(a)(1) requires each state to submit a plan showing it has the authority and programs needed to implement, maintain, and enforce the standard, regardless of designation status; section 110(a)(2) lists the elements that must be addressed in the plan. Because many of the section 110(a)(2) elements relate to the general information and authorities that constitute the infrastructure of a state's air quality management program, the 110(a) plans are generally referred to as "infrastructure SIPs." Nevada's 2008 ozone NAAQS infrastructure SIP is a compilation of Nevada's existing authorities and programs to demonstrate that Nevada has a plan in place to address the 2008 ozone NAAQS. Nevada's ozone infrastructure SIP will be submitted to US EPA in April 2013.

The NDEP is responsible for developing and implementing state plans in the 15 rural counties of Nevada. Clark County and Washoe County have their own air quality agencies, which are responsible for their respective counties. The NDEP's portion of the Nevada ozone infrastructure SIP and related materials are available on the NDEP website at <http://ndep.nv.gov/admin/public.htm>, click on "Air Quality Planning." Access to the draft document may also be obtained by contacting Adele Malone at NDEP, 901 S. Stewart Street, Suite 4001, Carson City, NV 89701; (775) 687-9356; or e-mail to amalone@ndep.nv.gov.

Persons wishing to comment on the draft plan or to request a public hearing should submit their comments or request **in writing** either in person or by mail or fax to Adele Malone at the above address or by fax at (775) 687-6396. **A request for a hearing must be received by February 26, 2013. Written comments will be received by the NDEP until 5:00 PM PST, March 6, 2013 and will be retained and considered.**

Upon receipt of a valid written request, the NDEP will hold a public hearing in Carson City on:

**March 6, 2013
10:00 a.m. to 12:00 p.m.
Great Basin Conference Room, 4th Floor
901 South Stewart Street
Carson City, Nevada**

An agenda will be posted on the NDEP web site at least 3 working days before the hearing. Oral comments will be received at the Hearing. If no request for a public hearing is received by February 26, 2013, the hearing will be cancelled. Persons may check on the status of the hearing on the NDEP web site at <http://ndep.nv.gov/admin/public.htm>, click on "Air Quality Planning," or you may call the NDEP Bureau of Air Quality Planning at (775) 687-9349.

This notice has been published in the Las Vegas Review-Journal and the Reno Gazette Journal newspapers. It has been posted at the NDEP offices in Carson City and Las Vegas, at the State Library in Carson City and at County libraries throughout Nevada. Members of the public who are disabled and require special accommodations or assistance at the hearing are requested to notify Adele Malone or Cathy Douglas (775-687-9349) no later than 3 working days before the hearing.
