The Administrator of the Division of Environmental Protection gives notice that an application for a Major Modification and Renewal of a Water Pollution Control Permit for the **Coyote-Blossom Mine Project**, a mining and beneficiation facility, has been properly filed with the Division of Environmental Protection in Carson City. The applicant for the Major Modification of Water Pollution Control Permit **NEV0094113** is:

**Nevada Milling and Mining, LLC
Coyote-Blossom Mine Project
P.O. Box 209
Searchlight, NV 89046**

The facility is located on private land in Clark County, within Township 28 South, Range 63 East, Sections 14, 15, 22, and 23 Mount Diablo Baseline and Meridian, approximately 1.5 miles north of the town of Searchlight.

The Project consists of an underground mining and physical separation (gravity separation) facility, designed to extract gold, with a maximum permitted production rate of 150,000 tons of ore per year. The facility is comprised of mine, gravity separation circuit, settling ponds, and wells. No chemicals are authorized for use in the process. Facilities are required to be designed, constructed, operated and closed without any discharge or release in excess of those standards established in regulation except for meteorological events which exceed the design storm event.

The Administrator is constrained to either issue the Major Modification of the Water Pollution Control Permit or to deny the application. The Administrator has made the tentative decision to issue the modified Permit.

Persons wishing to comment upon the proposed Water Pollution Control Permit, to recommend terms and conditions for consideration of incorporation into the Permit, or who request a public hearing pursuant to Nevada Administrative Code (NAC) Chapter 445A, must submit their written comments, objections, or requests by hand delivery, United States Postal Service, facsimile, or e-mail no later than 5:00 PM on the 30th day following the date of publication of this notice (publication date 5 December 2014 and submittal deadline 4 January 2015) to:
