Generation 2.0 - Project WET Curriculum and Activity Guide
This major revision was driven by emerging water issues, new scientific discoveries, changing educational priorities, and the availability of information technology and social connectivity.

The new Project WET program encompasses not only the new guide but also a Web Portal, expanded resources and networking opportunities.

- Incorporate environmental education across multiple subject areas in your curriculum and community outreach.
- Connect to the most comprehensive and extensive collection of water education materials in the world; Link to the vast resources of the Project WET Foundation and other resource partners.
- Hands-on, inquiry-based lessons that are ready for use and aligned to **Nevada State Standards, S.T.E.M., and the Common Core State Initiative.**
- Learning to protect our natural resources saves money and improves our quality of life.

REGISTER EARLY . . . THIS FREE WORKSHOP REQUIRES A MINIMUM OF 10 PARTICIPANTS
