Tahoe Resource Conservation District
870 Emerald Bay Road, Suite 108
South Lake Tahoe, CA 96150

The following questions are meant to help guide the distribution of Trout in the Classroom equipment kits in our region. If you have participated in the program in the past or are interested in participating in the future, please answer the following:

1) Do you or your school have equipment (tanks, etc.) to raise trout in the classroom? YES/NO

a. If you answered yes, please provide more information on the amount, type, where located, whether you plan on doing so this year, and whether you have any additional needs.

b. If you answered no, would you like to have an equipment kit for your school/classroom or education center? Do you need funding support?
