Table Notes:

Note 1: For Two Release Source Column: 1 = RQ as listed in 40 C.F.R. Part 302; 2 = RQ as listed in 40 C.F.R. Part 355; 3 = Two Release Quantity as determined in “Technical Basis Document for C.A.P.P. Two Release Quantities and Toxic Endpoints.”

Note 2: *The threshold quantity must be applied to the fraction of the chemical in the actual mixture.*

* These substances must be involved in a fire or explosion to qualify as a release pursuant to *subparagraph (2) of paragraph (a) of subsection 1 of NAC 459.95323.*
