Mask Policy for the General Public

This is a reminder that, pursuant to Emergency Directive 047, effective July 30, 2021, the new CDC mask guidance that was issued on July 27, 2021 will replace the current mask requirements. The new mask requirements are:

- Everyone, including fully vaccinated individuals, must wear a mask in public indoor settings in counties with substantial or high transmission.
- Substantial or high transmission are those counties that have 50 or more new cases per 100,000 people in the past 7 days, or a test positivity rate of 8% or higher.
- Currently, 12 of Nevada’s 17 counties have substantial or high transmission. See [https://covid.cdc.gov/covid-data-tracker/#county-view](https://covid.cdc.gov/covid-data-tracker/#county-view)
- The only counties that do not have substantial or high transmission currently are: Storey, Humboldt, Lander, Eureka, and Pershing.
