**PERMITTEE:** County Line Minerals Corporation  
P.O. Box 247  
Mina, Nevada 89422

**PROJECT NAME:** County Line Mine

**PROJECT LOCATION:** Township 11 North, Range 35 East, Section 35;  
Township 10 North, Range 35 East, Section 1;  
Township 10 North, Range 36 East, Sections 4-9;  
Mount Diablo Baseline and Meridian,  
Nye County and Mineral County, Nevada

**PERMIT NUMBER:** 0452 **BLM CASE NUMBER:** NVN-101811

**PROJECT TYPE:** Gold Mine **AMENDMENTS:** N/A

Pursuant to Nevada Revised Statutes (NRS) 519A.010 to 519A.280, inclusive, and regulations promulgated thereunder by the State Environmental Commission as Nevada Administrative Code (NAC) 519A.010 to 519A.415, inclusive, and implemented by the Division of Environmental Protection (hereinafter the Division), this permit authorizes **County Line Minerals Corp.** to reclaim the **County Line Mine** consistent with the conditions of this permit and the reclamation plan dated, August 15, 2025, entitled *County Line Mine Project Plan of Operations and Nevada Reclamation Permit Application*.

This permit is effective as of the 30th day of September 2025, and upon receipt by the Division of an acceptable surety, or verification from the federal land management agency that satisfactory surety has been posted. A surety is required by NAC 519A.350 prior to engaging in the activities authorized by this permit. Unless it is modified, suspended or revoked by the Division, this permit is valid for the life of the project. The permit will not now or in the future serve as a determination of ownership or the validity of any mining claim to which it might relate.

The Permittee must comply with all terms and conditions of this permit and all applicable statutes and regulations.

Issued this 15th day of September 2025.

PERMIT LIMITATIONS AND REQUIREMENTS:

**2. Departure from Approved Plan for Reclamation**

- A. Except in the case of an emergency, the operator may not depart from the approved plan for reclamation without a modification approved by the Division.
- B. When an operator submits an amended plan of operation to the federal agency, a copy shall also be filed with the Division.

**3. Fees**

- A. On or before April 15 of each year submit the annual fees pursuant to NRS 519A.260 and NAC 519A.235.
- B. New permit applications including permit modifications that affect public land require a \$20/acres fee paid to the Nevada Division of Minerals pursuant to NRS 519A.250 and NAC 519A.634.

**4. Reports**

- A. On or before April 15 of each year, the operator shall submit a report (NRS 519A.260), in a format specified by the Division, relating to the status and production of the operation and identifying each acre of land affected and land reclaimed by the operation.

**5. Project Completion, Abandonment or Suspension of Work**

- A. The Division shall be notified in writing within ninety (90) days after an operation is complete or abandoned. The notice must state the date on which the activities for reclamation will begin as specified in NAC 519A.320.
- B. The Division shall be notified in writing within ninety (90) days after work is suspended at the operation for more than one hundred twenty (120) days. The notice must state the nature and reason for the suspension; the anticipated duration of the suspension; and any event which would reasonably be expected to result in either the resumption of activities or the abandonment of the operation. The operator is not required to notify the Division of a temporary closure caused by weather conditions.

**6. Surety**

- A. The Division and appropriate federal land management agency(s) shall review the estimate of the cost for reclamation submitted by the operator and determine if the estimate is adequate or reasonably sufficient to complete all required reclamation.
- B. The operator shall file and maintain an acceptable surety as specified in NAC 519A.350 to ensure that reclamation will be completed. The surety amount will be based on the approved cost for reclamation.
- C. Within three (3) years after the effective date of this permit and at least every three (3) years thereafter, the operator shall submit to the Division and the appropriate federal land management agency(s) an updated estimate of the cost for reclamation to determine whether the surety amount is still adequate to execute the approved reclamation plan. Inflation must be considered.

---

**PERMIT LIMITATIONS AND REQUIREMENTS:**

D. The Division and the appropriate federal land management agency(s) may approve release of surety either in whole or in part at the request of the operator. The operator must provide documentation on reclamation work completed and/or stages of process fluid stabilization completed before any portion of the surety may be released. (See Attachment A)

E. Release of the surety amount for reclamation of a specific component or discrete part of a disturbance does not release the operator from liability for reclamation of that component of disturbance should the reclamation fail to meet the requirements of this permit.

**7. Inspection of Exploration Project and/or Mining Operation**

A. The operator shall allow authorized representatives of the Division, and the appropriate federal land management agency(s) to inspect the operation, during normal business hours, to determine compliance with the terms and conditions of this permit and the status of reclamation activities.

**8. Notice of Noncompliance/Suspension or Revocation of Permit**

A. A notice of noncompliance may be issued by the Division if an operator fails to comply with the provisions of NAC 519A.010 to 519A.415, inclusive; Chapter 519A of NRS; or an approved plan for reclamation.

B. The Division may suspend or revoke this permit if the operator does not resolve the noncompliance or agree to a corrective plan of action approved by the Division.

C. The surety posted by the operator may be forfeited if the permit is suspended or revoked, or the operator ceases to conduct business in the State of Nevada and does not transfer the permit to a new operator.

**9. General Requirements**

A. The operator shall maintain a copy of this permit and all modifications at the permitted project or operation at all times.

B. The provisions of this permit are severable. If any provision of this permit, or the application of any provision of this permit to any circumstance, is held invalid, the application of such provision to other circumstances and the remainder of this permit, shall not be affected.

C. Any noncompliance with this permit shall be reported orally to the Division within forty-eight (48) hours of the time the operator has knowledge of the circumstances. A written summary shall be provided within ten (10) days after the oral report is made.

D. Any changes in the operator's name or address shall be reported within ten (10) days to the Division in writing and must indicate the permit number and appropriate changes.

E. Any changes in Corporation/Partnership/Proprietorship name, officers, or address shall be reported within ten (10) days to the Division in writing and must indicate the permit number and appropriate changes.

PERMIT LIMITATIONS AND REQUIREMENTS:

- F. The operator shall meet the revegetation standards as set forth in Attachment B.
- G. An operator who initiates reclamation activities prior to meeting chemical stabilization (closure) requirements will be responsible to provide a surety for and to repair any reclaimed areas which may be re-affected by closure activities.
- H. The operator shall provide a cumulative disturbance map annually, **on or before April 15<sup>th</sup> of each year**, which accurately depicts locations of drill roads and drill pads, including breakdown of lengths and widths of disturbed areas. The cumulative disturbance map shall reflect site conditions as of December 31<sup>st</sup> of the previous calendar year and shall state what methods were utilized to verify disturbance sizes and acreages.

**10. Schedule of Compliance**

- A. The permittee shall achieve compliance in accordance with the following schedule:
1. On or before July 1, 2026, collect data and submit a baseline report to establish the site-specific revegetation release criteria for this project in accordance with the Attachment B guideline included with this permit.
